<sup>1</sup>For producers with 5 or more colonies. Colonies which produced honey in more than one State were counted in each State. <sup>2</sup>Stocks held by producers. <sup>3</sup>Price weighted by sales. <sup>4</sup>CT, DE, MA, NH, and RI not published separately to avoid disclosing data for individual operations. <sup>5</sup>Total colonies multiplied by total yield may not exactly equal production. <sup>6</sup>U.S. value of production is U.S. production multiplied by U.S. price per pound. NASS, Livestock Branch, (202) 720-3570.

<sup>1</sup> Preliminary. <sup>2</sup> Production data in metric tons, on farm-sales-weight basis, which is about 10 percent above dry-weight data normally reported in trade statistics. <sup>3</sup> FSU-12 includes the 12 newly independent States of the former USSR.

FAS, Cotton, Tobacco, and Seeds Division (202) 720-9496. Prepared or estimated on the basis of official statistics of Foreign governments, other foreign source materials, reports of U.S. Agricultural Counselors, Attaches, Foreign Service Officers and results of office research, and related information.

**Table 2-47.—Tobacco: Area, yield, production, stocks, supply, disappearance, and price, by types, United States including Puerto Rico, 1994–2003 (farm-sales-weight basis)**

| Type and crop year                                     | Area         | Yield per acre | Production          | Stocks <sup>1</sup> | Supply              | Disappearance       |                     |                     | Average price per pound to growers |

<sup>1</sup> Includes consumption by overseas forces. <sup>2</sup> Weighing over 3 pounds per 1,000. <sup>3</sup> Unstemmed-processing weight equivalent. <sup>4</sup> Includes weight of small cigars. <sup>5</sup> Preliminary na=not available. ERS, Market and Trade Economics Division, Specialty Crops Branch, (202) 694-5311. No adjustment made for quantities lost, destroyed, bartered, etc., under war and postwar conditions, but such adjustments probably would be small in relation to totals.

**Table 2-50.—Tobacco products: Cigars, cigarettes, chewing and smoking tobacco, and snuff, manufactured in the United States, 1993–2002**

## CHAPTER III

### STATISTICS OF OILSEEDS, FATS, AND OILS

This chapter includes information on cottonseed, flaxseed, olive oil, peanuts, soybeans, margarine, and fats and oils. Most butter statistics are included in the chapter on dairy and poultry statistics. Lard data are mostly in the chapter on livestock.

**Table 3-1.—Cottonseed: All cotton harvested area and cottonseed production, farm disposition, marketing year average price per ton received by farmers, and value, United States, 1994–2003**

<sup>1</sup> Oilseeds producer payment rates for 1999/2000 were calculated according to the provisions of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2000. Rates for 2000/2001 were calculated according to the provisions of the Agricultural Risk Protection Act of 2000, and included supplemental oilseeds payment rates. Payment rates for the 2002/2003 and subsequent crops are calculated according to the provisions of the Direct and Counter-Cyclical Payment program, following enactment of the Farm Security and Rural Investment Act of 2002 (2002 Act). Payment rates are rounded to the nearest tenth of a cent. <sup>2</sup> The national average loan rate was also known as the price support rate prior to enactment of the Federal Agricultural Improvement and Reform Act of 1996. <sup>3</sup> Target prices for the 2002/2003 and subsequent crops were enacted with the 2002 Act. <sup>4</sup> Does not include quantity on which loan deficiency payments were made. <sup>5</sup> Acquisition of all loans forfeited during the marketing year including loans made in previous years. <sup>6</sup> Beginning with 2002/2003, the first entry is the direct payment rate and the second entry is the counter-cyclical payment rate.

<sup>1</sup> Enactment of the Farm Security and Rural Investment Act of 2002 (2002 Act) repealed the peanut quota marketing program; and established payment rates for the 2002/2003 and subsequent crops according to the provisions of the Direct Payment program. <sup>2</sup> Quota peanuts are those peanuts grown within the farm poundage quota. <sup>3</sup> Additional peanuts are those peanuts grown in excess of the quota. <sup>4</sup> Includes loans made and direct purchases. <sup>5</sup> Includes shelled peanuts converted to farmers' stock basis. <sup>6</sup> Loan rates and target prices for the 2002/03 and subsequent crops were enacted with the 2002 Act.

FSA, Tobacco and Peanuts Division, (202) 720-5291.

<sup>1</sup> Peanuts in the shell. Split year includes Northern Hemisphere crop harvested in the late months of the first year shown combined with Southern Hemisphere and certain Northern Hemisphere crops harvested in the early months of the following year. <sup>2</sup> Harvested area as far as possible. <sup>3</sup> Preliminary. <sup>4</sup> Regional totals include other countries not shown. World total for all countries in USDA data base.

FAS, Production Estimates and Crop Assessment Division, (202) 720-0888. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Counselors, Attaches, and Foreign Service Officers, results of office research, and related information.

<sup>1</sup> Oilseeds payment rates for 1999/2000 were calculated according to the provisions of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2000. Rates for 2000/2001 were calculated according to the provisions of the Agricultural Risk Protection Act of 2000, and included supplemental oilseeds payment rates. Payment rates for the 2002/2003 and subsequent crops are calculated according to the provisions of the Direct and Counter-Cyclical Payment program, following enactment of the Farm Security and Rural Investment Act of 2002 (2002 Act). Payment rates are rounded to the nearest tenth of a cent. Beginning with 2002/2003, the first entry is the direct payment rate and the second entry is the counter-cyclical payment rate. <sup>2</sup> The national average loan rate was also known as the price support rate prior to enactment of the Federal Agricultural Improvement and Reform Act of 1996 (1996 Act). <sup>3</sup> Target prices for the 2002/2003 and subsequent crops were enacted with the 2002 Act. <sup>4</sup> Does not include quantity on which loan deficiency payments were made. <sup>5</sup> Acquisition of all loans forfeited during the marketing year including loans made in previous years.

<sup>1</sup> Split year includes Northern Hemisphere crop harvested in the late months of the first year shown combined with Southern Hemisphere and certain Northern Hemisphere crops harvested in the early months of the following year. <sup>2</sup> Harvested area as far as possible. <sup>3</sup> Preliminary. <sup>4</sup> Regional totals include other countries not shown. World total for all countries in USDA data base.

FAS, Production Estimates and Crop Assessment Division, (202) 720-0888. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Counselors, Attaches, and Foreign Service Officers, results of office research, and related information.

## CHAPTER IV

# STATISTICS OF VEGETABLES AND MELONS

This chapter contains statistics on potatoes, sweet potatoes, and commercial vegetables and melons.

For potatoes and sweet potatoes, the estimates of area, production, value, and farm disposition pertain to the total crop and include quantities produced both for sale and for use on farms where grown. Potato statistics are shown on a within-year seasonal grouping of winter, spring, summer, and fall crops, by States. Some States have production in more than one seasonal group.

For processing vegetables, the estimates of area, production, and value for each of 10 crops relate to production used by commercial canners, freezers, and other processors, except dehydrators. These estimates include raw products grown by processors themselves and those grown under contract or purchased on the open market. This production and the actual area harvested are not duplicated in the fresh market estimates for the same commodities. The production of those vegetables used for processing for which regular processing estimates are not made is included in the fresh market estimates. The processed segment of production for asparagus, broccoli, and cauliflower, combined with fresh market production during the year, is published at the end of the season, separately. In 2000, estimates were added for collard greens, kale, mustard greens, turnip greens, okra, chili peppers, pumpkins, radishes, and squash. In 2002, estimates for fresh market lima beans, beets for canning, Brussels sprouts, cabbage for kraut, eggplant, escarole/endive, collard greens, kale, mustard greens, turnip greens, okra, and radishes were discontinued. Additionally, States were removed from the program for certain commodities. For details on the 2002 program changes see the following website: <http://www.usda.gov/nass/events/programchg/vegprogchgs.htm>.

### Seasonal Groups and Marketing Period

#### Prospective Area For Harvest

Winter: January, February, March

Summer: July, August, September

Spring: April, May, June

Fall: October, November, December

#### Annual Acreage, Yield, Production, and Value

The seasonal patterns of harvest do not correspond precisely in all States to the estimating period or periods designated. In some cases, only one seasonal group is shown for a State, but marketing may be active in earlier or later months. Because of the small volume from this earlier or later period, the crop estimate has been placed in the seasonal group where the largest portion is harvested.

In 2002, commercial vegetables for fresh market include 24 principal vegetable and melon crops in the major producing States. These estimates relate to crops which are grown primarily for sale, and they do not include vegetables and melons produced in farm and nonfarm gardens. The bulk of the production of the principal vegetable and melon crops is for consumption in the fresh state. However, quantities used by processors of artichokes, celery, garlic, onions, bell peppers, chile peppers, pumpkins, and squash are included, and separate estimates of commercial processing are not made for these crops. The commercial estimates of the principal crops include local market production from areas near consuming centers as well as production from well recognized commercial areas which specialize in producing supplies for shipment to distant markets.

For fresh market vegetables and melons, value per unit and total value are on a f.o.b. basis. For processed vegetables, value per unit and total value are at processing plant door.

Aggregate data for the years 1999 and 2000, 2000 and 2001, and 2001 and 2002 lack comparability with data from other years because of program changes altering the crops included.

<sup>1</sup>Area for fresh market is area for harvest, including any partially harvested or not harvested because of low prices or other economic factors. Area for processing is area harvested. <sup>2</sup>Area, production, and farm value of the following crops for which regular seasonal estimates are prepared in major producing States: Artichokes, asparagus, snap beans, lima beans, broccoli, brussels sprouts, cabbage, cantaloups, carrots, cauliflower, celery, sweet corn, cucumbers, eggplant, escarole/endive, garlic, honeydew melons, head lettuce, leaf lettuce, romaine lettuce, onions, green peppers, spinach, tomatoes, and watermelons. In 2000, collard greens, kale, mustard greens, turnip greens, okra, chile peppers, pumpkins, radishes, and squash were added. In 2002, fresh market lima beans, beets for canning, Brussels sprouts, cabbage for kraut, eggplant, escarole/endive, collard greens, kale, mustard greens, turnip greens, okra, and radishes were discontinued. Additionally in 2002, States were removed from the program for certain commodities. See table footnotes when comparing years. <sup>3</sup>Area, production, and farm value of the following 10 crops in all States: Lima beans, snap beans, beets, cabbage (sauerkraut), carrots, sweet corn, cucumbers (pickles), green peas, spinach, and tomatoes. Production of other vegetables processed included in fresh market series of estimates. <sup>4</sup>Production for fresh market excludes some quantities not marketed because of low prices or other economic factors. <sup>5</sup>Value for all fresh market vegetables. For processing vegetables, value at processing plant door.

<sup>1</sup> Area for fresh market and for processing is area harvested. <sup>2</sup> Commodity estimates for 2002 and 2003 are comparable. Estimates for 2001 are not comparable due to vegetable estimation program changes. These changes are documented in footnotes found under each individual commodity table. <sup>3</sup> Area of the following crops for which regular seasonal estimates are prepared in major producing States: Artichokes, asparagus, snap beans, lima beans, broccoli, brussels sprouts, cabbage, cantaloups, carrots, cauliflower, celery, sweet corn, cucumbers, eggplant, escarole/endive, garlic, honeydew melons, head lettuce, leaf lettuce, romaine lettuce, onions, green peppers, spinach, tomatoes, and watermelons. In 2000, collard greens, kale, mustard greens, turnip greens, okra, chile peppers, pumpkins, radishes, and squash were added. In 2002, fresh market lima beans, beets for canning, Brussels sprouts, cabbage for kraut, eggplant, escarole/endive, collard greens, kale, mustard greens, turnip greens, okra, and radishes were discontinued. Additionally in 2002, States were removed from the program for certain commodities. See table footnotes when comparing years. <sup>4</sup> Preliminary. <sup>5</sup> Includes Lima beans, snap beans, beets, cabbage (sauerkraut), carrots, sweet corn, cucumbers (pickles), green peas, spinach, and tomatoes. Other vegetables processed (dual purpose) included in fresh market series of estimates. <sup>6</sup> Hawaii removed from the vegetable estimation program for all commodities in 2002. <sup>7</sup> Processing, 2001 - AL, FL, ID, IN, MA, NC, and SC. 2002 - AL, FL, ID, IN, MA, NC, and SC. 2003 - AL, FL, ID, IN, MA, NC, and SC.

NASS, Crops Branch, (202) 720-2127.

<sup>1</sup> Commodity estimates for 2002 and 2003 are comparable. Estimates for 2001 are not comparable due to vegetable estimation program changes. These changes are documented in footnotes found under each individual commodity table.

<sup>2</sup> Production of the following crops for which regular seasonal estimates are prepared in major producing States: Artichokes, asparagus, snap beans, lima beans, broccoli, brussels sprouts, cabbage, cantaloups, carrots, cauliflower, celery, sweet corn, cucumbers, eggplant, escarole/endive, garlic, honeydew melons, head lettuce, leaf lettuce, romaine lettuce, onions, green peppers, spinach, tomatoes, and watermelons. In 2002, collard greens, kale, mustard greens, turnip greens, okra, chile peppers, pumpkins, radishes, and squash were added. In 2002, fresh market lima beans, beets for canning, Brussels sprouts, cabbage for kraut, eggplant, escarole/endive, collard greens, kale, mustard greens, turnip greens, okra, and radishes were discontinued. Additionally in 2002, states were removed from the program for certain commodities. See table footnotes when comparing years.

<sup>3</sup> Preliminary. <sup>4</sup> Includes Lima beans, snap beans, beets, cabbage (sauerkraut), carrots, sweet corn, cucumbers (pickles), green peas, spinach, and tomatoes. Other vegetables processed (dual purpose) included in fresh market series of estimates. <sup>5</sup> Hawaii removed from the vegetable estimation program for all commodities in 2002. <sup>6</sup> 2001 - AL, FL, ID, IN, MA, NC, and SC. 2002 - AL, FL, ID, IN, MA, NC, and SC. 2003 - AL, FL, ID, IN, MA, NC, and SC.

NASS, Crops Branch, (202) 720-2127.

<sup>1</sup> Commodity estimates for 2002 and 2003 are comparable. Estimates for 2001 are not comparable due to vegetable estimation program changes. These changes are documented in footnotes found under each individual commodity table.

<sup>2</sup> Value of the following crops for which regular seasonal estimates are prepared in major producing States: Artichokes, asparagus, snap beans, lima beans, broccoli, brussels sprouts, cabbage, cantaloups, carrots, cauliflower, celery, sweet corn, cucumbers, eggplant, escarole/endive, garlic, honeydew melons, head lettuce, leaf lettuce, romaine lettuce, onions, green peppers, spinach, tomatoes, and watermelons. In 2002, collard greens, kale, mustard greens, turnip greens, okra, chile peppers, pumpkins, radishes, and squash were added. In 2002, fresh market lima beans, beets for canning, Brussels sprouts, cabbage for kraut, eggplant, escarole/endive, collard greens, kale, mustard greens, turnip greens, okra, and radishes were discontinued. Additionally in 2002, states were removed from the program for certain commodities. See table footnotes when comparing years.

<sup>3</sup> Preliminary. <sup>4</sup> Includes Lima beans, snap beans, beets, cabbage (sauerkraut), carrots, sweet corn, cucumbers (pickles), green peas, spinach, and tomatoes. Other vegetables processed (dual purpose) included in fresh market series of estimates. <sup>5</sup> Hawaii removed from the vegetable estimation program for all commodities in 2002. <sup>6</sup> 2001 - AL, FL, ID, IN, MA, NC, and SC. 2002 - AL, FL, ID, IN, MA, NC, and SC. 2003 - AL, FL, ID, IN, MA, NC, and SC.

<sup>1</sup>Fresh vegetable consumption computed for total commercial production for fresh market. Does not include production for home use. Consumption obtained by dividing the total apparent consumption by total July 1 population as reported by the Bureau of the Census. All data for calendar year. <sup>2</sup>Includes artichokes, eggplant, radishes, brussels sprouts, squash, green limas, and escarole/endive. Beginning in 2000, also includes collards, mustard greens, turnip greens, kale, okra, and pumpkins. <sup>3</sup>Preliminary.

ERS, Market and Trade Economics Division, Specialty Crops Branch, (202)694-5253.

## CHAPTER V

# STATISTICS OF FRUITS, TREE NUTS, AND HORTICULTURAL SPECIALTIES

For most fruits, production is estimated at two levels—total and utilized. Total production is the quantity of fruit harvested plus quantities which would have been acceptable for fresh market or processing but were not harvested or utilized because of economic and other reasons. Utilized production is the amount sold plus the quantities used on farms where grown and quantities held in storage. The difference between total and utilized production is the quantity of marketable fruit not harvested and fruit harvested but not sold or utilized because of economic and other reasons. Production relates to the crop produced on all farms, except for apples and strawberries. In accordance with Congressional enactment, the Department's estimates of apple production since 1938 have related only to commercial production. The estimates for strawberries cover production on area grown primarily for sale. Statistics on utilization of fruit by commercial processors refer to first utilization, not necessarily final utilization. For example, frozen fruit includes fruit which may later be used for preserves.

The price shown for each crop is a marketing year average price for all methods of sales. Prices for most fresh fruit are the average prices producers received at the point of first sale, commonly referred to as the "average price as sold." Since the point of first sale is not the same for all producers, prices for the various methods of sale are weighted by the proportionate quantity sold. For example, if in a given State part of the fruit crop is sold f.o.b. packed by growers, part sold as bulk fruit at the packinghouse door, and some sold retail at roadside stands, the fresh fruit average price as sold is a weighted average of the average price for each method of sale.

The annual estimates are checked and adjusted at the end of each marketing season on the basis of shipment and processing records from transportation agencies, processors, cooperative marketing associations, and other industry organizations. The estimates are reviewed (and revised if necessary) at 5-year intervals, when the Census of Agriculture data become available. The Department's available statistics are limited to the major tree fruits and nuts and to grapes, cranberries, and strawberries, and exclude some States where census data indicate production is of only minor importance.

<sup>1</sup>For some crops in certain years, production includes some quantities unharvested for economic reasons or excess cullage fruit. <sup>2</sup>Estimates of the commercial crop refer to production in orchards of 100 or more bearing-age trees. <sup>3</sup>Preliminary. <sup>4</sup>Utilized production only. <sup>5</sup>Year of bloom. <sup>6</sup>Year harvest was complete. <sup>7</sup>Excludes economic abandonment in 1996 of 127,500 tons; in 1997 of 255,000 tons; and in 1998 of 255,000 tons. <sup>8</sup>Wild Blueberries added in 1998. NA-not available.

NASS, Crops Branch, (202) 720-2127.

<sup>1</sup>Net processed weight. <sup>2</sup>Dried apricots are 12½ percent of total dried fruit for salad. <sup>3</sup>Dried fruit converted to unprocessed dry weight by dividing by 1.07. Unprocessed dry weight converted to terms of fresh fruit on the basis that 1 pound dried equals 5.5 pounds fresh. Canned apricots converted to terms of fresh on the basis that 1 pound canned equals 0.717 pounds fresh.

ERS, Specialty Crops Branch, (202) 694-5260.

<sup>1</sup> See footnote 1, table 5-29. <sup>2</sup> Equivalent packing-house door returns. <sup>3</sup> Includes quantities used for juice, concentrates, grapefruit segments, and other citrus products. In some seasons, includes appreciable quantities of oranges and lemons in CA delivered to processing plants which were not utilized, but for which growers received payment. <sup>4</sup> Includes small quantities of tangerines in TX. Excludes FL Templets. <sup>5</sup> Excludes FL economic abandonment in 1995–96 of 3 million boxes of Colored Seedless; in 1996–97 of 3 million boxes of White Seedless and 3 million boxes of Colored Seedless; in 1997–98 of 5 million boxes of White Seedless and 1 million boxes of Colored Seedless. <sup>6</sup> Preliminary. <sup>7</sup> AZ and CA tangelos and tangors included. <sup>8</sup> Estimates discontinued.

NASS, Crops Branch, (202) 720–2127.

<sup>1</sup> Split years refer to harvest periods which usually begin in the fall and extend through the following spring. This corresponds roughly with October–June in the Northern Hemisphere and April–December of the second year shown in the Southern Hemisphere. <sup>2</sup> Preliminary. <sup>3</sup> Includes temple oranges. <sup>4</sup> Includes tangelos.

FAS, Horticultural and Tropical Products Division, (202) 720–3423. Prepared or estimated on the basis of official statistics of foreign governments, other foreign source materials, reports of U.S. Agricultural Counselors, Attachés, and Foreign Service Officers, results of office research, and related information. U.S. data are from USDA Agricultural Statistics Board.

**Table 5-30.—Concentrated citrus juices: Annual packs, Florida, 1992–2001**

<sup>1</sup> Net processed weight. <sup>2</sup> Canned peaches are 40 percent of total canned fruit for salad. <sup>3</sup> Dried peaches are 21 percent of total dried fruit for salad. <sup>4</sup> Dried fruit converted to unprocessed dry weight by dividing by 1.08. Unprocessed dry weight converted to terms of fresh fruit on the basis that 1 pound dried equals 6.0 pounds fresh. Canned peaches converted to terms of fresh on basis that 1 pound canned equals about 1 pound fresh.

ERS, Specialty Crops Branch, (202) 694-5260.

<sup>1</sup> Preliminary. <sup>2</sup> Fresh fruit prices are equivalent packinghouse-door returns for CA and WA except equivalent returns for bulk fruit at the first delivery point for CA Clingstone, and the average price as sold for other States. Quantities processed are priced at the equivalent processing plant door level.

NASS, Crops Branch, (202) 720-2127.

<sup>1</sup>Net processed weight. <sup>2</sup>Dried pears are 16⅓ percent of total dried fruit for salad. <sup>3</sup>Canned pears are 35 percent of total canned fruit for salad. <sup>4</sup>Dried converted to unprocessed dry weight by dividing by 1.03. Unprocessed dry weight converted to terms of fresh on the basis that 1 pound dried equals about 6.5 pounds fresh. Canned converted to terms of fresh on basis that 1 pound of canned equals about 1 pound fresh.

<sup>1</sup> Net processed weight. <sup>2</sup> Exports and imports of dried prunes converted to unprocessed dry weight by dividing by 1.04. Unprocessed dry weight converted to terms of fresh fruit on the basis that 1 pound dried equals 2.7 pounds fresh. <sup>3</sup> "Other-wise prepared or preserved" converted to terms of fresh fruit on the basis that 1 pound equals 0.899 pound fresh.

<sup>3</sup> Dried prunes in salad estimated at 43 percent of total dried fruit for salad.

ERS, Specialty Crops Branch, (202) 694–5260.

<sup>1</sup> Excludes the following quantities not harvested and not marked because of economic conditions (1,000 hundredweight): 50 in 1995. <sup>2</sup> Fresh market price and value on f.o.b. basis. Processing price and value at processing plant door. <sup>3</sup> Mostly for fresh market, but includes some quantities used for processing in States for which processing estimates are not prepared. <sup>4</sup> Preliminary.

NASS, Crops Branch, (202) 720-2127.

<sup>1</sup> Specialty mushroom estimates represent growers who have at least 200 natural wood logs in production or commercial indoor growing areas. <sup>2</sup> Growers counted only once for US total if growing more than one specialty type mushroom. Growers growing Agaricus and Specialty are included. <sup>3</sup> Total production includes all fresh market and processing sales plus amount harvested but not sold (shrinkage, cullage, dumped, etc.). <sup>4</sup> Virtually all specialty mushroom sales are for fresh market. <sup>5</sup> Prices for mushrooms are the average prices producers receive at the point of first sale, commonly referred to as the average price as sold. For example, if in a given State, part of the fresh mushrooms are sold F.O.B. packed by growers, part are sold bulk to brokers or repackers, and some are sold retail at roadside stands, the mushroom average price as sold is a weighted average of the average price for each method of sale. <sup>6</sup> 2000-01: AR, CA, CT, DE, FL, GA, HI, ID, IL, IA, KS, KY, ME, MD, MA, MI, MN, MO, MT, NH, NY, NC, OH, OK, OR, PA, SC, TX, VT, VA, WA, WV, and WI. 2000-02: AR, CA, CT, DE, FL, GA, HI, ID, IL, IA, KS, KY, ME, MD, MA, MI, MN, MO, MT, NH, NY, NC, OH, OK, OR, PA, SC, TX, VT, VA, WA, WV, and WI. 2000-03: AR, CA, CT, DE, FL, GA, HI, IL, IA, KS, KY, ME, MD, MA, MN, MO, MT, NH, NY, NC, OH, OK, OR, PA, SC, VT, VA, WA, WV, and WI.

<sup>1</sup> Equivalent wholesale value of all sales except for potted foliage which is value of sales less cost of plant material purchased from other growers for growing on. <sup>2</sup> Estimates began in 1994. <sup>3</sup> This data series discontinued. <sup>4</sup> 1994-2000 data not comparable with 1991-93 which includes data for cyclamen and kalanchoes. Potted orchids were included in other flowering prior to 1996. <sup>5</sup> Potted orchids reported separately for first time in 1996. Previously orchids were included in other flowering category.

**Table 5-104.—Flowering & foliage hanging baskets: Sales and wholesale value for operations with \$100,000+ sales, Surveyed States, 1993–2002**

| Year       | Quantity sold                                | Wholesale price  | Value of sales at wholesale <sup>1</sup> | Quantity sold          | Wholesale price | Value of sales at wholesale <sup>1</sup> |

<sup>1</sup> Wholesale value of sales as reported by growers with \$100,000 or more in sales of floriculture crops plus a calculated wholesale value of sales for growers with sales below \$100,000. The value of sales for growers below the \$100,000 level was estimated by multiplying the number of growers in each size group by the mid-point of each dollar value range.

NASS, Crops Branch, (202) 720-2127.

**Table 5-109.—Floriculture Crops: Wholesale value of sales by category for operations with \$100,000+ sales, 36 Surveyed States, 2001–2002**

| State         | Total cut flowers    |                      | Total potted flowering plants |                      | Total foliage for indoor or patio use |                      |

## CHAPTER VI

# STATISTICS OF HAY, SEEDS, AND MINOR FIELD CROPS

Chapter VI deals with hay, pasture, seeds, and various minor field crops.

**Table 6-1.—Hay, all: Area, yield, production, and value, United States, 1994–2003**

| Year                    | Area harvested     | Yield per acre | Production        | Marketing year average price per ton received by farmers <sup>1</sup> | Value of production <sup>1</sup> |
|-------------------------|--------------------|----------------|-------------------|---|----------------------------------|
|                         | <i>1,000 acres</i> | <i>Tons</i>    | <i>1,000 tons</i> | <i>Dollars</i>  | <i>1,000 dollars</i>             |
| 1994 .....              | 58,815             | 2.55           | 150,136           | 86.70   | 11,113,274                       |
| 1995 .....              | 59,764             | 2.58           | 154,239           | 82.20   | 11,035,838                       |
| 1996 .....              | 61,169             | 2.45           | 149,779           | 95.80   | 12,726,992                       |
| 1997 .....              | 61,084             | 2.50           | 152,536           | 100.00  | 13,249,825                       |
| 1998 .....              | 60,006             | 2.52           | 151,387           | 84.60   | 11,606,734                       |
| 1999 .....              | 63,181             | 2.53           | 159,582           | 76.90   | 11,014,373                       |
| 2000 .....              | 60,355             | 2.54           | 153,603           | 84.60   | 11,416,651                       |
| 2001 .....              | 63,516             | 2.46           | 156,416           | 96.50   | 12,597,331                       |
| 2002 .....              | 63,942             | 2.34           | 149,467           | 92.40   | 12,450,234                       |
| 2003 <sup>2</sup> ..... | 63,342             | 2.48           | 157,123           | 92.90   | 12,330,971                       |

<sup>1</sup> Marketing year average price and value of production for 1998-2002 will be updated in a statistical bulletin to be released in October 2004. <sup>2</sup> Preliminary.

NASS, Crops Branch, (202) 720-2127.

## CHAPTER VII

### STATISTICS OF CATTLE, HOGS, AND SHEEP

This chapter contains information about most kinds of farm livestock and livestock products, with the exception of dairy and poultry. The information relates to inventories, production, disposition, prices, and income for farm animals, and to livestock slaughter (including horse slaughter), meat production, and market statistics for meat animals.

<sup>1</sup> Includes slaughter in federally inspected and other slaughter plants; excludes animals slaughtered on farms. Average live weight is based on unrounded numbers. Totals may not add due to rounding. <sup>2</sup> CT, ME, MA, NH, RI, and VT. <sup>3</sup> States with no data printed are still included in the U.S. total. Data are not printed to avoid disclosing individual operations.

NASS, Iowa Agricultural Statistics Service, (515) 284-4340.

**Table 7-15.—Cattle and calves: Number slaughtered under Federal inspection, and average live weight, 1994-2003**

| Year | Cattle             |                     | Calves             |                     |
|------|--------------------|---------------------|--------------------|---------------------|
|      | Number slaughtered | Average live weight | Number slaughtered | Average live weight |
|      | <i>Thousands</i>   | <i>Pounds</i>       | <i>Thousands</i>   | <i>Pounds</i>       |

<sup>1</sup> An operation is any place having one or more beef cows on hand at any time during the year. Missing data combined with other size groups. <sup>2</sup> The number of operations for 2003 was not available at press time. <sup>3</sup> Individual State estimates are not available for 17 other States.

NASS, Livestock Branch, (202) 720-3570.

**Table 7-24.—Beef cows: Percent of inventory by size group, selected States, and United States, 2002–2003 <sup>1</sup>**

| State                           | Inventory on operations having |                   |            |                   |              |                   |           |                   |
|---------------------------------|--------------------------------|-------------------|------------|-------------------|--------------|-------------------|-----------|-------------------|

<sup>1</sup> Percents reflect average distributions of various probability surveys conducted during the year but are based primarily on end-of-year surveys. Missing data combined with other size groups. <sup>2</sup> The number of operations for 2003 was not available at press time. <sup>3</sup> Individual State estimates are not available for 17 other States.

<sup>1</sup> Number of bushels of corn equal in value to buy 100 pounds of live hogs at local markets, based on average prices received by farmers for hogs and corn. Annual average is a simple average of monthly ratios for the calendar year. <sup>2</sup> Annual average is a simple average of entire month prices for the calendar year.

NASS, Environmental, Economics, and Demographics Branch, (202) 720–6146.

**Table 7-35.—Hogs: Production, disposition, cash receipts, and gross income, by States, 2002 (preliminary)**

| State    | Marketings <sup>1</sup> | Shipped in for feeding and breeding | Farm slaughter <sup>2</sup> | Quantity produced (live weight) <sup>3</sup> | Value of production <sup>4</sup> | Cash receipts from sales of hogs, pork, and lard <sup>5</sup> | Value of hogs slaughtered for home consumption | Gross income <sup>6</sup> |

<sup>1</sup> Includes slaughter in federally inspected and other slaughter plants; excludes animals slaughtered on farms. Average live weight is based on unrounded numbers. Totals may not add due to rounding. <sup>2</sup>CT, ME, MA, NH, RI, and VT. <sup>3</sup>States with no data printed are still included in US total. Data are not printed to avoid disclosing individual operations. NASS, Iowa Agricultural Statistics Service, (515) 284-4340.

<sup>1</sup> An operation is any place having one or more head of hogs and pigs on hand at any time during the year. Percents reflect average distributions based primarily on mid-year surveys. <sup>2</sup> The number of operations for 2003 was not available at press time. <sup>3</sup> Individual State estimates not available for the 33 other States.

NASS, Livestock Branch, (202) 720–3570.

<sup>1</sup> Includes slaughter in federally inspected and in other slaughter plants; excludes animals slaughtered on farms. Average live weight is based on unrounded numbers. Totals may not add due to rounding. <sup>2</sup>CT, ME, MA, NH, RI, and VT. <sup>3</sup>States with no data printed are still included in US total. Data are not printed to avoid disclosing individual operations.

| 2002 <sup>4</sup> ..... | 41,322                | 21,818                           | 8,461                | 10,526                      | 14,159                           | 38,042                        |

<sup>1</sup> Includes sheep shorn at commercial feeding yards. <sup>2</sup> Price computed by weighting State average prices for all wool sold during the year by sales of shorn wool. <sup>3</sup> Production by States multiplied by annual average price. <sup>4</sup> Preliminary. <sup>5</sup> Conversion factor from grease basis to clean basis are as follows: Shorn wool production—52.8 percent (Stat. Bull. 616) from 1987-1997. <sup>6</sup> Includes carpet wool exports. <sup>7</sup> Prior to 1989, known as dutiable imports. <sup>8</sup> Prior to 1989, known as duty-free imports. In 1994 includes 24,645,306 pounds of imported raw wool not finer than 46's and 2,182,576 pounds of miscellaneous imported raw wool. <sup>9</sup> Production minus exports plus imports; stocks not taken into consideration.

ERS, Field Crops Branch, (202) 694-5300 and NASS. Imports and exports from reports of the U.S. Department of Commerce.

<sup>1</sup> For unshorn lambs sold. <sup>2</sup> Unadjusted for weight of unshorn lambs purchased. <sup>3</sup> Payments for wool marketed during the year shown are made after Mar. 31 of the following year, and include deductions for the American Sheep Industry Association. Figures for 1994 and 1995 reflect 20- and 50-percent reductions in payments, respectively, as required by Public Law 103-130 which also terminated price support for wool as of December 31, 1995. <sup>4</sup> Public Law 103-130 terminated price support for wool as of December 31, 1995. <sup>5</sup> Market Loss Assistance Payments for 1999-crop wool authorized by Public Law 106-224 on June 21, 2000. <sup>6</sup> Market Loss Assistance Payments authorized by Public Law 106-387 for marketing year 2000 production. Additional payments authorized by Public Law 107-25. <sup>7</sup> Nonrecourse Marketing Assistance Loan Program authorized by Public Law 107-171, enacted May 13, 2002.

<sup>1</sup> Scoured wool, plus greasy wool converted to a scoured basis, using assumed average yields. Includes both pulled and shorn, foreign and domestic wool. Wool was considered as consumed (1) on the woolen system when laid in mixes and (2) on the worsted system as the sum of top and noil production. <sup>2</sup> Domestic, duty-paid, and duty-free foreign. <sup>3</sup> Excludes wool consumed on the cotton system and in the manufacture of felt, hat bodies, and other miscellaneous products.

ERS, Field Crops Branch, (202) 694-5300. Compiled from reports of the U.S. Department of Commerce.

<sup>1</sup>Beginning January 1976 the unit designation terminology for wool prices changed to microns. For example 64's (20.60–22.04 microns) formerly was fine good French combing and staple. Two designations 56's (26.40–27.84 microns) and 58's (24.95–26.39 microns) have been averaged in the price data shown here and together were formerly the category fleece 3/8 blood good French combing and staple. <sup>2</sup>Wool grown in the range areas of California, Oregon, Washington, Texas, the intermountain States (including Arizona and New Mexico), and parts of the Dakotas, Kansas, Nebraska, and Oklahoma. These wools vary considerably in shrinkage and color.

ERS, Field Crops Branch, (202) 694–5300 and AMS.

<sup>1</sup>The national average loan rate was also known as the price-support rate prior to enactment of the Farm Security and Rural Investment Act of 2002. <sup>2</sup>Payments for mohair marketed during the year shown are made after Mar. 31 of the following year and includes deductions for the Mohair Council of America. Figures for 1994 and 1995 reflect 25- and 50-percent reductions in payments, respectively, as required by Public Law 103-130 which also terminated price support for mohair as of December 31, 1995. <sup>3</sup>No program. <sup>4</sup>Recourse loan program authorized by P.L. 105-277 for fiscal year 1999. No payments were involved. Market Loss Assistance Payments for 1999 crop mohair authorized by P.L. 106-224 on June 21, 2000. <sup>5</sup>Recourse loan program authorized by P.L. 106-78 for fiscal year 2000. No payments were involved. Market Loss Assistance Payments authorized by P.L. 106-387 for marketing year 2000 production. Additional payments authorized by P.L. 107-25. <sup>6</sup>Nonrecourse Marketing Assistance Loan Program authorized by Public Law 107-171, enacted May 12, 2002.

FSA, Fibers Analysis, (202) 720-7954.

<sup>1</sup> Carcass weight equivalent or dressed weight. Beginning 1977, pork production was no longer reported as "pork, excluding lard." This series has been revised to reflect pork production in prior years on a dressed weight basis that is comparable with the method used to report beef, veal, and lamb and mutton. Edible offals are excluded. Shipments to the U.S. territories are included in domestic consumption. <sup>2</sup> Preliminary. <sup>3</sup> Forecast. NA-not available.

ERS, Animal Products, (202) 694-5180.

## CHAPTER VIII

### DAIRY AND POULTRY STATISTICS

Dairy statistics in this chapter include series relating to many phases of production, movement, prices, stocks, and consumption of milk and its products. Two series of number of milk cows on farms are included in this publication. One series is an inventory number of a specific classification estimated as one of the major groups making up the total cattle population on January 1. The other series identified as "milk cows" is an annual average number of milk cows during the year (excluding any not yet fresh) and is used in estimating milk production.

In comparing the several series of milk prices, it is important to note that prices received by farmers for all whole milk sold are for milk or milkfat content as actually sold, while certain prices paid by dealers for milk for fluid purposes or for specified manufacturing purposes may be quoted on a 3.5 percent butterfat basis, or for some types of manufacturing milk on the test of the milk used for that particular purpose.

Poultry and poultry products statistics include inventory numbers of chickens by classes; the production, disposition, cash receipts, and gross income from chickens and eggs; poultry and egg receipts at principal markets; commercial broiler production; turkey production, disposition, and gross income; poultry and eggs under Federal inspection; and the National Poultry Improvement Plan. Estimates relating to inventories, production, and income exclude poultry and eggs produced on places not classified as farms.

<sup>1</sup> Commercially prepared 16% dairy ration: Annual average prior to 1995, April price 1995-current. <sup>2</sup> Annual ratios based on average of monthly ratios. Pounds of 16 % mixed dairy feed equal in value to one pound of whole milk. Effective January 1995, prices of commercial prepared feeds are based on current U.S. prices received for corn (51 lbs), soybeans (8 lbs), and alfalfa hay (41 lbs).

<sup>1</sup> An operation is any place having one or more head of milk cows on hand at any time during the year. Percents reflect average distributions of various probability surveys conducted during the year but are based primarily on beginning-of-year and mid-year surveys. <sup>2</sup> The number of operations for 2003 was not available at press time.  
 NASS, Livestock Branch, (202) 720–3570.

<sup>1</sup> The decline in protein production in 2000 reflects a measurement change by the dairy industry from crude to true protein beginning in May 2000. The percentage of milk that is true protein is lower than the percentage that is crude protein by an approximate difference of 0.19 percent.

<sup>1</sup>Excludes milk sucked by calves. <sup>2</sup>Milk sold to plants and dealers as whole milk and equivalent amounts of milk for cream. Includes milk produced by dealers' own herds and small amounts sold directly to consumers. Also includes milk produced by institutional herds. <sup>3</sup>Percentage of milk sold that is eligible for fluid use (grade A for fluid use in most States). Includes fluid-grade milk used in manufacturing dairy products. <sup>4</sup>May not add due to rounding.

NASS, Livestock Branch, (202) 720-3570.

**Table 8-14.—Milk Production: Marketings, income, and value, by States, 2002 (preliminary)**

| State    | Combined marketing of milk and cream |                              |                 |                               | Used for milk, cream, and butter where produced |                      | Gross producer income <sup>3</sup> | Value of milk produced <sup>2 4</sup> |

<sup>1</sup>Over this period, handlers elected periodically not to pool substantial volumes of milk that normally would have been pooled under Federal orders. This decision resulted from disadvantageous blend/class price relationships and qualification circumstances. This fact should be kept in mind if year-to-year comparisons are made using the various "producer deliveries" measures of growth. <sup>2</sup>End of year. <sup>3</sup>Average for year. <sup>4</sup>Prices are weighted averages. <sup>5</sup>Based on blend (uniform) price adjusted for butterfat content, and in later years, other milk components of producer milk.

Table 8-19.—Dairy products: Quantities manufactured, United States, 1998–2002

| Product                                     | 1998                 | 1999                 | 2000                 | 2001                 | 2002 <sup>1</sup>    |

<sup>1</sup> In-area sales include total sales in each of the areas by handlers regulated under the respective order, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated. <sup>2</sup> Plain, flavored, and miscellaneous whole milk products and eggnog. <sup>3</sup> Plain, fortified and flavored reduced fat milk (2%), low fat milk (1%), and fat-free milk (skim), and miscellaneous fat-reduced milk products, and buttermilk.

AMS, Dairy Programs, (202) 720-7461.

<sup>1</sup> In-area sales include total sales in each of the areas by handlers regulated under the respective order, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handlers' in-area sales are partially estimated. <sup>2</sup> Plain, flavored, and miscellaneous whole milk products and eggnog. <sup>3</sup> Plain, fortified, and flavored reduced fat milk (2%), low fat milk (1%), and fat-free milk (skim), miscellaneous fat-reduced milk products, and buttermilk.

AMS, Dairy Programs, (202) 720-7461.

<sup>1</sup> Milk production plus the milk equivalent (ME) of net imports of dairy manufacturing ingredients and net out-of-storage movement of cream equals total supply. Data on milk used in manufacturing products are based on total milkfat required to produce the products and include the milk equivalent of any imported dairy ingredients used. <sup>2</sup> Preliminary. <sup>3</sup> Whole milk equivalent (milkfat basis) of net imports of dairy manufacturing ingredients such as frozen cream and butterfat-sugar mixtures. <sup>4</sup> Whole milk equivalent of net out-of-storage movement of fluid and plastic cream during the year. A negative figure represents a net movement of cream into storage. <sup>5</sup> Includes cottage cheese, anhydrous milkfat, butter oil, butterine, and cottage cheese beginning in 1997. <sup>6</sup> Total sales in U.S. (USDA-AMS). <sup>7</sup> Residual, includes minor miscellaneous uses and any inaccuracies in production, utilization estimates, or milk equivalent conversions. <sup>8</sup> Cottage cheese included in other manufactured products beginning 1997. NA-not available.

**Table 8-27.—Milk markets under Federal order program: Blend and Class I milk prices at 3.5 percent fat test, number of producers, producer deliveries, producer deliveries used in Class I, Class I percentage, average daily deliveries per producer, average fat test of milk delivered by markets, 2001**

| Federal milk order marketing area       | Class I price per cwt. <sup>1</sup> | Blend price per cwt. <sup>1 2</sup> | Average number of producers | Receipts of producer milk | Producer milk used in Cl. I | Class I utilization | Daily milk delivery per producer | Average fat test |

| All markets combined .....              | 16.96                               | 14.90                               | 66,423                      | 120,223                   | 45,887                      | 38.2                | 4,959                            | 3.67             |

<sup>1</sup>Prices are for milk of 3.5 percent butterfat content and for the principal pricing point of the market. See footnotes 3-14. <sup>2</sup>For those orders that use the component pricing system for paying producers (orders 1, 30, 32, 33, 124, 126, and 135), the figures are the statistical uniform price (the sum of the producer price differential and the Class III price). For those orders that use the skim milk/butterfat pricing system for paying producers (orders 5, 6, 7, and 131), the figures are the uniform price (the sum of the uniform butterfat price times 3.5 and the uniform skim milk price times 0.965). <sup>3</sup>Suffolk Co. (Boston), MA. <sup>4</sup>Mecklenburg Co. (Charlotte), NC. <sup>5</sup>Fulton Co. (Atlanta), GA. <sup>6</sup>Hillsborough Co. (Tampa), FL. <sup>7</sup>Cuyahoga Co. (Cleveland), OH. <sup>8</sup>Due to disadvantageous intraorder class and uniform price relationships in some months in these markets, handlers elected not to pool milk that normally would have been pooled under these orders. <sup>9</sup>Cook Co. (Chicago), IL. <sup>10</sup>Jackson Co. (Kansas City), MO. <sup>11</sup>Dallas Co. (Dallas), TX. <sup>12</sup>Maricopa Co. (Phoenix), AZ. <sup>13</sup>Salt Lake Co. (Salt Lake City), UT. <sup>14</sup>King Co. (Seattle), WA.

AMS, Dairy Programs, (202) 720-7461.

<sup>1</sup>Prices are for milk of 3.5 percent butterfat content and for the principal pricing point of the market. <sup>2</sup>For those orders that use the component pricing system for paying producers (orders 1, 30, 32, 33, 124, 126, and 135), the figures are the statistical uniform price (the sum of the producer price differential and the Class III price). For those orders that use the skim milk/butterfat pricing system for paying producers (orders 5, 6, 7, and 131), the figures are the uniform price (the sum of the uniform butterfat price times 3.5 and the uniform skim milk price times 0.965). <sup>3</sup>Suffolk Co. (Boston), MA. <sup>4</sup>Mecklenburg Co. (Charlotte), NC. <sup>5</sup>Fulton Co. (Atlanta), GA. <sup>6</sup>Hillsborough Co. (Tampa), FL. <sup>7</sup>Cuyahoga Co. (Cleveland), OH. <sup>8</sup>Due to disadvantageous intraorder class and uniform price relationships in some months in these markets, handlers elected not to pool milk that normally would have been pooled under these orders. <sup>9</sup>Cook Co. (Chicago), IL. <sup>10</sup>Jackson Co. (Kansas City), MO. <sup>11</sup>Dallas Co. (Dallas), TX. <sup>12</sup>Maricopa Co. (Phoenix), AZ. <sup>13</sup>Salt Lake Co. (Salt Lake City), UT. <sup>14</sup>King Co. (Seattle), WA.

<sup>1</sup>Total disappearance is based on production, imports, and change in stocks during the year. Production statistics for these commodities appear in other tables in this chapter. The total apparent consumption was obtained by subtracting ending stocks, shipments, and exports, from the total supply. The per capita consumption for each year was obtained by dividing the total apparent consumption by the number of persons. <sup>2</sup>Includes all kinds of cheese except cottage and full-skim American. <sup>3</sup>The evaporated milk is unskimmed, unsweetened, case goods. The condensed milk is unsweetened, unskimmed, bulk goods; and sweetened condensed milk, unskimmed, case and bulk goods.

ERS, Animal Products Branch, (202) 694–5180.

<sup>1</sup> Broilers are young chickens of the meat-type strains, raised for the purpose of meat production. These figures are not included in farm production of chickens. Estimates cover the 12-month period, Dec 1 previous year through Nov 30. Excludes States which produced less than 500,000 broilers. <sup>2</sup> Live weight equivalent price. <sup>3</sup> Preliminary.  
 NASS, Livestock Branch, (202) 720-3570.

<sup>1</sup> Number of pounds of poultry feed equivalent in value at local market prices to 1 dozen market eggs, or 1 pound of broiler or 1 pound of turkey live weight. Simple average of monthly feed-price ratios. Egg feed= corn (75 lbs) and soybeans (25 lbs); broiler feed= corn (58 lbs); soybeans (42 lbs); turkey feed= corn (51 lbs), soybeans (28 lbs), and wheat (21 lbs). Monthly equivalent prices of commercial prepared feeds are based on current U.S. prices received for corn, soybeans, and wheat.  
 NASS, Environmental, Economics, and Demographics Branch, (202) 720-3570.

## CHAPTER IX

### FARM RESOURCES, INCOME, AND EXPENSES

The statistics in this chapter deal with farms, farm resources, farm income, and expenses. Many of the series are estimates developed in connection with economic research activities of the Department.

**Table 9-1.—Economic trends: Data relating to agriculture, United States, 1993–2002**

| Year       | Prices paid by farmers <sup>1</sup>             |                                     | Prices received by farmers <sup>1</sup> | Farm income <sup>2</sup>       |                        |                        |
|------------|---|-------------------------------------|---|--------------------------------|------------------------|------------------------|
|            | Total including interest, taxes, and wage rates | Production items                    |   | Gross farm income <sup>6</sup> | Production expenses    | Net farm income        |
|            | <i>Index numbers</i><br>1990–92=100             | <i>Index numbers</i><br>1990–92=100 | <i>Index numbers</i><br>1990–92=100     | <i>Billion dollars</i>         | <i>Billion dollars</i> | <i>Billion dollars</i> |
| 1993 ..... | 103   | 104                                 | 101                                     | 205.0                          | 160.4                  | 44.7                   |
| 1994 ..... | 106   | 106                                 | 100                                     | 216.0                          | 167.2                  | 48.9                   |

| 1964 | 1,110.2       | 144.9                                 | 248.1                | 393.0                | 35.4                      |
| 1969 | 1,063.3       | 137.6                                 | 241.8                | 379.4                | 35.7                      |
| 1974 | 1,017.0       | 122.3                                 | 258.4                | 380.7                | 37.4                      |
| 1978 | 1,029.7       | 124.1                                 | 285.3                | 406.3                | 39.4                      |
| 1982 | 986.2         | 113.6                                 | 269.9                | 383.5                | 38.9                      |
| 1987 | 964.5         | 126.9                                 | 275.4                | 402.3                | 41.7                      |
| 1992 | 945.5         | 122.7                                 | 282.2                | 404.9                | 42.8                      |
| 1997 | 931.8         | 108.1                                 | 270.0                | 378.1                | 40.6                      |

<sup>1</sup> Columns 3, 4, and 5 refer only to land rented from others and operated, so subleased land is not included. Numbers of land rented are comparable in the same year, but definitions change over time. Basic sources are 1969 Census of Agriculture, table 5, p.14; 1974 Census of Agriculture, table 3, pp.1-6; 1978 Census of Agriculture, vol. 1, part 51, table 5, pp. 124-127; 1982 Census of Agriculture, vol. 1, part 51, table 48, p. 49; 1987 Census of Agriculture vol. 1 part 51, table 48, p.49; 1992 Census of Agriculture vol. 1, part 51, table 46, p.53; 1997 Census of Agriculture, vol. 1, part 51, chapter 1, table 46, p. 57; and earlier census volumes as noted. <sup>2</sup>Sum of part owners and owner/tenant, 1900 Census of Agriculture, table 20, pp.308. <sup>3</sup>Assumes land leased by part-owners is the difference between the average size of full-owner and part-owner farms. Acreage leased by part-owners is this difference times the number of part-owners. 1910 Census of Agriculture, chapter 11, table 1 and 3, pp.97-99. <sup>4</sup>1920 Census of Agriculture, vol. VI, part 1, table 5, p.19. <sup>5</sup>Assumes same proportion of owner and part-owner as in 1910. <sup>6</sup>1964 Census of Agriculture, vol. II, chapter 8, p.757.

ERS, Resource Economics Division, (202) 694–5572. Data from the Census of Agriculture, National Agricultural Statistics Service and Economic Research Service.

<sup>1</sup> Cropland harvested, crop failure, and cultivated summer fallow. <sup>2</sup> Grassland and other nonforest pasture and range. <sup>3</sup> Excludes reserved and other forest land duplicated in parks and other special uses of land. Includes forested grazing land. <sup>4</sup> Includes rural transportation areas, Federal and State areas used primarily for recreation and wildlife purposes, military areas, farmsteads, and farm roads and lanes. <sup>5</sup> Miscellaneous areas such as marshes, open swamps, bare rock areas, and deserts, including urban and other special uses not inventoried. <sup>6</sup> Approximate land area as established by the Bureau of the Census in conjunction with the 1990 Census of Population.

ERS, Resource Economics Division, (202) 694-5528. Estimates based on reports and records of the U.S. Departments of Agriculture and Commerce, and public land administering and conservation agencies. Estimates developed for years coinciding with a Census of Agriculture.

<sup>1</sup> Cropland harvested, crop failure, and cultivated summer fallow. <sup>2</sup> Grassland and other nonforest pasture and range. <sup>3</sup> Excludes reserved and other forest land duplicated in parks and other special uses of land. Includes forested grazing land. <sup>4</sup> Includes urban and transportation areas. Federal and State areas used primarily for recreation and wildlife purposes, military areas, farmsteads and farm roads and lanes. <sup>5</sup> Remeasurement and increases in reservoirs account for changes in total land areas except for the major increase in 1959 when data for Alaska and Hawaii were added.

ERS, Resource Economics Division, (202) 694-5528. Estimates based on reports and records of the U.S. Department of Agriculture and Commerce, and public land administering and conservation agencies.

<sup>1</sup> Beginning in July 1984, three surveys a year were conducted in the 48 contiguous States and Hawaii. In 1989, January was added to the survey program. Data are obtained from establishments for the week that includes the 12th. <sup>2</sup> Includes farm operators and partners doing 1 or more hours of farm work and other unpaid workers working 15 hours or more during the survey week without cash wages. <sup>3</sup> Includes all persons doing farm work for pay during the survey week. <sup>4</sup> Excludes agricultural service workers. <sup>5</sup> Annual average not computed. <sup>6</sup> Discontinued.

**Table 9-19.—Farm labor: Number of hired workers on farms and average wage rates, by States and regions, 2003<sup>1 2</sup>**

| State and region <sup>3</sup> | Workers on farms | Farm wage rates  |                  |                     |                                |
|-------------------------------|------------------|------------------|------------------|---------------------|--------------------------------|
|                               | Hired            | Type of worker   |                  |                     |                                |
|                               |                  | Field            | Livestock        | Field and livestock | All hired workers <sup>4</sup> |
|                               | Thousands        | Dollars per hour | Dollars per hour | Dollars per hour    | Dollars per hour               |

<sup>1</sup> Represents average number of persons 15 years old and over in the civilian noninstitutional population who were employed per week as hired farmworkers. Based on the Current Population Survey microdata earnings file. <sup>2</sup> "Median weekly earnings" is the value that divides the earnings into two equal parts, one part having earnings above the median and the other part having earnings below the median. "Earnings" refers to the weekly earnings the farmworker usually earns at a farmwork job, before deductions, and includes any overtime pay or commissions. <sup>3</sup> Excludes persons of Hispanic origin.

ERS, Rural Economy Branch, (202) 694–5438.

<sup>1</sup> Corn for grain, oats, barley, and sorghum for grain. <sup>2</sup> Wheat, rye, and rice. <sup>3</sup> Crops included in area planted and area harvested are corn, sorghum, oats, barley, winter wheat, rye, durum wheat, other spring wheat, rice, soybeans, peanuts, sunflower, cotton, dry edible beans, potatoes, and sugarbeets. Harvested acreage for all hay, tobacco, and sugarcane are used in computing total area planted. <sup>4</sup> For the 2000 crop year many changes occurred to the National Vegetable Estimation Program. Nine new commodities were added to the program. Additionally, States were added or dropped from the seasonal program. Some States were discontinued for the seasonal forecasts but remained in the program on an annual basis. When comparing 2001 and 2000 data to 1999 data, comparable States should be used. <sup>5</sup> For the 2002 crop year, many changes occurred to the National Vegetable Estimation Program. Ten fresh market commodities and two processing commodities were removed from the program. States were removed from the program for certain commodities. When comparing 2000 and 2001 data to 2002 data, comparable States should be used. If you need assistance with these comparisons, please contact Biz Wallingsford at (202) 720-2157. For details on the 2002 program changes see the following website: <http://www.usda.gov/nass/events/programchg/vegprogchngs.htm>. <sup>6</sup> Includes the following fruits and nuts: Citrus fruits—oranges, tangerines, Temples, grapefruit, lemons, limes, tangelos, and K-Early Citrus (area is for the year of harvest); deciduous fruits—commercial apples, peaches, pears, grapes, cherries, plums, prunes, apricots, bananas, nectarines, figs, kiwifruit, olives, avocados, papayas, dates, berries, guavas, cranberries, pineapples and strawberries; nuts—almonds, hazelnuts, macadamias, pistachios, and walnuts.

<sup>1</sup> Preliminary. <sup>2</sup> Includes area seeded in preceding fall. <sup>3</sup> Value for 2002 is not available. <sup>4</sup> Bearing acreage for citrus and noncitrus fruits and nuts. <sup>5</sup> Yield per bearing acreage for citrus and noncitrus fruits and nuts. <sup>6</sup> Year of bloom. <sup>7</sup> Crop year begins with bloom in one year and ends with completion of harvest the following year. Citrus production is for the year of harvest. <sup>8</sup> Yield derived from the in-shell basis. <sup>9</sup> Bearing acreage and yield not calculated. <sup>10</sup> Utilized production. <sup>11</sup> Equivalent packinghouse-door returns. <sup>12</sup> Includes processing total for dual usage crops. <sup>13</sup> Marketing year average price and value of production for 1998-2002 will be updated in a statistical bulletin to be released in October 2004.

**Table 9-24.—Total farm input: Index numbers of farm input, by major subgroups, United States, 1990–1999**  
[1992=100]

| Year       | Total input | Farm labor | Capital | Land  | Energy | Agricultural chemicals <sup>1</sup> | Feed, seed, and livestock purchases <sup>2</sup> | Other purchased inputs <sup>3</sup> |
|------------|-------------|------------|---------|-------|--------|-------------------------------------|--|-------------------------------------|

| Trout <sup>6</sup> .....    | .....                     | .....                     | .....                     | 75,373               | 76,241               | 69,935               |
| Honey .....                 | 220,339                   | 185,461                   | 171,718                   | 132,742              | 132,225              | 228,338              |
| Eggs .....                  | <i>Millions</i><br>84,386 | <i>Millions</i><br>85,745 | <i>Millions</i><br>86,698 | 4,345,382            | 4,446,312            | 4,262,662            |

<sup>1</sup> For cattle, sheep, and hogs, the quantity of net production is the live weight actually produced during the year, adjustments having been made for animals shipped in and changes in inventory. Estimates for broilers and eggs cover the 12-month period Dec. 1, previous year through Nov. 30. <sup>2</sup> Preliminary, except for wool shorn and mohair. <sup>3</sup> Young chickens of meat-type strains raised for meat production. <sup>4</sup> AZ, NM, and TX. <sup>5</sup> Value of fish sold. <sup>6</sup> Value of fish and eggs sold.

NASS, Livestock Branch, (202) 720–3570.

**Table 9-26.—Agricultural productivity: Index numbers (1996=100) of farm output per unit of input, United States, 1990–1999**

| Year       | Productivity <sup>1</sup> |
|------------|---------------------------|
| 1990 ..... | 0.886                     |
| 1991 ..... | 0.887                     |
| 1992 ..... | 0.955                     |
| 1993 ..... | 0.908                     |
| 1994 ..... | 1.005                     |
| 1995 ..... | 0.932                     |
| 1996 ..... | 1.000                     |
| 1997 ..... | 1.015                     |
| 1998 ..... | 1.011                     |
| 1999 ..... | 1.006                     |

<sup>1</sup> Productivity is the output-input ratio. The ratio is obtained by dividing the index of farm output in table 9–25 by the index of total input in table 9–26.

ERS, Resources, Technology and Productivity Branch (202) 694–5601.

**Table 9-27.—U.S. farm foods: Marketing bill, farm value, and consumer expenditures, 1993–2002<sup>1</sup>**

| Year                    | Total marketing bill   | Farm value             | Expenditures for farm foods |
|-------------------------|------------------------|------------------------|-----------------------------|
|                         | <i>Billion dollars</i> | <i>Billion dollars</i> | <i>Billion dollars</i>      |
| 1993 .....              | 379.6                  | 109.6                  | 489.2                       |
| 1994 .....              | 402.6                  | 109.6                  | 512.2                       |
| 1995 .....              | 415.7                  | 113.8                  | 529.5                       |
| 1996 .....              | 424.5                  | 122.2                  | 546.7                       |
| 1997 .....              | 444.6                  | 121.9                  | 566.5                       |
| 1998 .....              | 465.4                  | 119.6                  | 585.0                       |
| 1999 .....              | 503.1                  | 122.2                  | 625.3                       |
| 2000 .....              | 537.8                  | 123.3                  | 661.1                       |
| 2001 .....              | 557.5                  | 130.0                  | 687.5                       |
| 2002 <sup>2</sup> ..... | 576.9                  | 132.5                  | 709.4                       |

<sup>1</sup>The total marketing bill is the difference between total expenditures for domestic farm-originated food products and the farm value or payment farmers received for the equivalent farm products. It relates only to food purchased by consumers that is not imported or exported. <sup>2</sup>Preliminary.

ERS, Food Markets Branch, (202) 694–5375.

| 2002 <sup>4</sup> ..... | 273.1                  | 56.8                   | 28.4                                     | 24.9                   | 33.0                           | 160.7                  | 576.9                             |

<sup>1</sup>Includes employee wages or salaries, and their health and welfare benefits. Also includes imputed earnings of proprietors, partners, and family workers not receiving stated remuneration. <sup>2</sup>Includes depreciation, rent, advertising and promotion, interest, taxes, licenses, insurance, professional services, local for-hire transportation, food service in schools, colleges, hospitals, and other institutions, and miscellaneous items. <sup>3</sup>The marketing bill is the difference between the farm value or payments to farmers for foodstuffs and consumer expenditures for these foods both at foodstores and away from home eating places. Thus, it covers processing, wholesaling, transportation, and retailing costs and profits. <sup>4</sup>Preliminary.

ERS, Food Markets Branch, (202) 694–5375.

<sup>1</sup>The market basket consists of foods that mainly originate on U.S. farms bought in foodstores in a base period, currently 1982–84. <sup>2</sup>Indexes of retail cost are components of the Consumer Price Index published by the Bureau of Labor Statistics. <sup>3</sup>Gross return or payment to farmers for the farm products equivalent to foods in the market basket. <sup>4</sup>The spread between the retail cost and farm value is an estimate of the gross margin received by marketing firms for assembling, processing, transporting, and distributing the products. <sup>5</sup>Preliminary.

ERS, Food Markets Branch (202) 694–5375.

<sup>1</sup>Marketing year average prices for crops: weighted calendar year average for livestock and livestock products, except chickens, eggs, and hogs, which are on a Nov-Dec. marketing year basis. Unless otherwise noted, these are averages for marketing season or calendar year computed by weighing State prices by quantities sold, or by production for those commodities for which virtually all the production is sold. <sup>2</sup>Preliminary. <sup>3</sup>Parity prices are for January of the year shown as published in the January issue of Agricultural Prices. <sup>4</sup>Previous year. <sup>5</sup>Average local market price for wool sold excluding incentive payment. <sup>6</sup>Average local market price for mohair sold excluding incentive payment. Texas only prior to 1985. <sup>7</sup>Crop year begins with bloom in one year and ends with completion of harvest the following year. Prices refer to the year harvest begins. Thus the prices shown for 1996 relate to the citrus crop designated as 1996-97 in the production reports. <sup>8</sup>Equivalent packinghouse-door returns for California, Oregon (pears only), Washington, and New York (apples only), and prices as sold for other States. <sup>9</sup>Equivalent returns at processing plant-door. <sup>10</sup>Equivalent returns at packinghouse-door. <sup>11</sup>Weighted average of co-op and independent sales. Co-op prices represent pool proceeds excluding returns from non-cranberry products and before deductions for capital stock and other retains. <sup>12</sup>Equivalent per unit returns for bulk fruit at first delivery point. <sup>13</sup>Average price as sold. <sup>14</sup>FOB shipping point when available. Weighted average of prices at points of first sale when FOB shipping point price not available. <sup>15</sup>Prices are in-shell basis except almonds which are shelled basis. <sup>16</sup>Includes some processing. <sup>17</sup>Simple average of States weighted by estimated Jan. 1 head for U.S. average. <sup>18</sup>Sold by farmers directly to consumers. <sup>19</sup>Prices for fresh and processing breakdown no longer published to avoid disclosure of individual operations. <sup>20</sup>Live weight equivalent price.

<sup>1</sup> These indexes are computed using the price estimates of averages for all classes and grades for individual commodities being sold in local farm markets. In computing the group indexes, prices of individual commodities have been compared with 1990–92 weighted average prices. The resulting ratios are seasonally weighted by average quantities sold for the most recent previous 5-year period. For example, 1994 indexes use quantities sold for the period 1988–92. Then, the 1990–92 indexes are adjusted to a 1910–14 reference. <sup>2</sup> Fresh market for noncitrus, and fresh market and processing for citrus. <sup>3</sup> Ratio of Index of Prices Received to the Index of Prices Paid by Farmers for Commodities and Services, Interest, Taxes, and Farm Wage Rates. <sup>4</sup> Preliminary.

NASS, Environmental, Economics, and Demographics Branch, (202) 720-6146.

<sup>1</sup> Prices paid by farmers are collected, for the most part, from retail establishments located in smaller cities and towns in rural areas. Prior to 1995, recorded prices reflected a modified annual average based on frequency item was surveyed during the year. Recorded item values, 1995-99, are the U.S. April average price. <sup>2</sup> Includes Federal, State, and local per gallon taxes where applicable. <sup>3</sup> Excludes Federal excise tax. <sup>4</sup> Includes Federal, State, and local per gallon taxes. <sup>5</sup> Excludes cost of application, except for limestone. <sup>6</sup> Discontinued in 2000. <sup>7</sup> With hydraulic lift, transport wheels, and tires. <sup>8</sup> Formulation abbreviations: EC—Emulsifiable Concentrate, DF—Dry Flowable, DG—Dry Granular, G—Granular, L—Liquid, S—Solution, SP—Soluble Powder, and WP—Wettable Powder.

<sup>1</sup> National averages during the marketing years for the individual crops, beginning in the years shown. <sup>2</sup> The target price is known in the statute as the "established price". <sup>3</sup> 1<sup>1</sup>/<sub>16</sub> strict low middling, micronaire 3.5 through 4.9. <sup>4</sup> For quota portion of crop (1993 through 2001). Enactment of the Farm Security and Rural Investment Act of 2002 (2002 Act) repealed the peanut quota marketing program; and established payment rates for the 2002/2003 and subsequent crops according to the provisions of the Direct Payment Program. <sup>5</sup> Grade No. 2 or better except for oats which is Grade No. 3. <sup>6</sup> The rye price support program was terminated by the Federal Agriculture Improvement and Reform Act of 1996. Rye was not reestablished with the 2002 Act. <sup>7</sup> Includes flaxseed, sunflower seed (oil and other), safflower, rapeseed (industrial), canola, mustard seed and canola and sesame. <sup>8</sup> No support program. <sup>9</sup> The Federal Agriculture Improvement and Reform Act of 1996 replaced the deficiency payment/production adjustment programs for the program crops with a Production Flexibility Contract program, making target prices no longer applicable beginning with the 1996/97 marketing year. <sup>10</sup> As of January 1, 1996. <sup>11</sup> The honey price support program was terminated by the Federal Agriculture Improvement and Reform Act of 1996. <sup>12</sup> The wool and mohair support programs terminated as of December 31, 1995, as required by Public Law 103-130. <sup>13</sup> As of January 1, 1997. <sup>14</sup> As of January 1, 1998. <sup>15</sup> As of January 1, 1999. <sup>16</sup> The Farm Security and Rural Investment Act of 2002 (2002 Act) reestablished target prices, now including soybeans and other oilseeds. The 2002 Act also established, for the first time, loan rates for dry peas, small chickpeas and lentils under the marketing loan program. <sup>17</sup> Wool and mohair programs were reestablished following enactment of the Farm Security and Rural Investment Act of 2002 (2002 Act). First wool number is for ungraded/second is graded.

<sup>1</sup>USDA estimates and publishes individual cash receipt values only for major commodities and major producing States. The U.S. receipts for individual commodities, computed as the sum of the reported States, may understate the value of sales for some commodities, with the balance included in the appropriate category labeled "other" or "miscellaneous." The degree of underestimation in some of the minor commodities can be substantial.

| Average operator household earnings from farming activities as percent of average operator household income .....       | 4.2               | 8.6    | 5.3    | 5.9    |

NA = Not available. \*The relative standard error exceeds 25 percent, but is no more than 50 percent. <sup>1</sup>This table derives farm operator household income estimates from the Agricultural Resource Management Study (ARMS) that are consistent with Current Population Survey (CPS) methodology. The CPS, conducted by the Census Bureau, is the source of official U.S. household income statistics. The CPS defines income to include any income received as cash. The CPS definition departs from a strictly cash concept by including depreciation as an expense that farm operators and other self-employed people subtract from gross receipts when reporting net cash income. <sup>2</sup>Preliminary. <sup>3</sup>Prior to 2000, net cash income from operating another farm and net cash income from farm land rental were included in earnings from farming activities. However, because of a change in the ARMS survey design, net cash income from a farm other than the one being surveyed and net income from farm land rentals are not separable from total off-farm income. Although there is no effect upon estimates of farm operator household income in 2000, estimates of farm self-employment, other farm related earnings, earnings of the household from farming activities, and earnings of the farm from off-farm sources are not strictly comparable to those from previous years. <sup>4</sup>A component of farm sector income. Excludes income of contractors and landlords as well as the income of farms organized as non-family corporations or cooperatives and farms run by a hired manager. Includes the income of farms organized as proprietorships, partnerships, and family corporations. <sup>5</sup>Consistent with the CPS definition of self-employment income, reported depreciation expenses are subtracted from net cash income. The ARMS collects farm business depreciation used for tax purposes. <sup>6</sup>Wages paid to the operator are subtracted here because they are not shared among other households that have claims on farm business income. These wages are added to the operator household's adjusted farm business income to obtain farm self-employment income. <sup>7</sup>Gross rental income is subtracted here because net rental income from the farm operation is added below to income received by the household. <sup>8</sup>More than one household may have a claim on the income of a farm business. On average, 1.1 households share the income of a farm business. <sup>9</sup>Includes net rental income from the business. Also includes net rental income from farmland held by household members that is not part of the farm business. Beginning in 2000, net income from farmland rental is considered as part of off-farm income. (See footnote 2.) <sup>10</sup>Wages paid to other operator household members by the farm business and net cash income from a farm business other than the one being surveyed. In 2000 and 2001, however, net cash income from a farm businesses other than the one being surveyed is included in off-farm earnings. (See footnote 3.) <sup>11</sup>Wages, salaries, net income from nonfarm businesses, interest, dividends, transfer payments, etc. In 2000 and 2001, also includes net cash income from other farm and net cash income from farm rental (See footnote 3.) <sup>12</sup>From the CPS. <sup>1</sup>The average rates are estimates (rates over \$10.00 are rounded to the nearest dime) based on survey indications of monthly lease rates for private, non-irrigated grazing land from the January Agricultural Survey. <sup>2</sup>Includes animal unit plus cow-calf rates. Cow-calf rate converted to animal unit (AUM) using (1 aum=cow-calf \*0.833). <sup>3</sup>Seventeen Western States: All States listed. <sup>4</sup>Sixteen Western States: All States, except Texas. <sup>5</sup>Eleven Western States: AZ, CA, CO, ID, MT, NV, NM, OR, UT, WA, and WY. <sup>6</sup>Nine Great Plains States: CO, KS, NE, NM, ND, OK, SD, TX, and WY. <sup>7</sup>Insufficient data.

NASS, Environmental, Economics, and Demographics Branch, (202) 720-6146.

### Telephone Contact List

Appreciation is expressed to the following agencies for their help in this publication. The information offices are listed to provide help to those users who require additional information about specific tables in this publication.

**Agricultural Marketing Service:**

USDA/AMS  
Room 3510 South Bldg.  
Washington, DC 20250  
202-720-8998

**Agricultural Research Service:**

USDA/ARS  
5601 Sunnyside Ave  
Bldg 1, Rm 2250  
Beltsville, MD 20705-5128  
301-504-1638

**Animal and Plant Health Inspection Service:**

USDA/APHIS  
USDA Center at Riverside  
4B09 - Unit 51  
Riverdale, MD 20737  
301-734-7280

**Center for Nutrition Policy and Promotion:**

USDA/CNPP  
3101 Park Center Drive  
Alexandria, VA 22302  
703-605-4266

**Economic Research Service:**

USDA/ERS  
1800 M St, NW  
Washington, DC  
202-694-5050

**Farm Credit Administration:**

FCA  
1501 Farm Credit Dr.  
McLean, VA 22102  
703-883-4000

**Farm Service Agency:**

USDA/FSA  
Room 3624 South Bldg.  
Washington, DC 20250  
202-720-7809

**Food and Consumer Service:**

USDA/FCS  
Office of Public Information  
3101 Park Center Drive, Room 819  
Alexandria, VA 22302  
703-305-2286

**Foreign Agricultural Service:**

USDA/FAS  
Room 5074 South Bldg.  
Washington, DC 20250  
202-720-7115

**Forest Service:**

USDA/FS  
2nd Floor Central Wing, Aud. Bldg.  
Washington, DC 20250  
202-205-1273

**National Agricultural Statistics Service:**

USDA/NASS  
Room 5829 South Bldg.  
Washington, DC 20250  
202-720-3878

**National Marine Fisheries Service:**

USDC/NOAA/NMFS  
1315 East/West Highway,  
SSMC III - Room 12340  
Silver Spring, MD 20910-3282  
301-713-2328

**Natural Resources Conservation Service:**

USDA/NRCS  
Room 6121 South Bldg.  
Washington, DC 20250  
202-720-3210

**Rural Business-Cooperatives Service:**

USDA/RECD/RBS  
Room 5039 South Bldg.  
Washington, DC 20250  
202-720-1019

**Rural Utilities Service:**

USDA/RD/RUS  
Room 4043 South Bldg.  
Washington, DC 20250  
202-720-1255
