FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

*The twelfth number of the Statistical Abstract; also inclosing draught and recommending the passage of a bill for the annual printing of that document.*

---

DECEMBER 9, 1889.—Referred to the Committee on Printing and ordered to be printed.

TREASURY DEPARTMENT,  
OFFICE OF THE SECRETARY,  
*Washington, D. C., December 4, 1889.*

SIR: I have the honor to transmit herewith to the House of Representatives the twelfth number of the *Statistical Abstract*, prepared by the Chief of the Bureau of Statistics, under my direction. This Abstract embraces tables in regard to finance, coinage, commerce, immigration, tonnage, and navigation, the postal service, public lands, population, education, railroads, agriculture, and mining.

I also inclose herewith a copy of a draught of a permanent bill to authorize the annual printing of this document, which accompanied the letter of the Secretary of the Treasury dated the 21st of last December. The enactment of a law embodying the features of this draught would be very desirable, for the reasons then stated, and I therefore renew the recommendation regarding it.

Respectfully yours,

W. WINDOM,  
*Secretary.*

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

TREASURY DEPARTMENT,  
BUREAU OF STATISTICS,  
Washington, D. C., December 2, 1889.

DEAR SIR: I have the honor to inclose a copy of a bill providing that the annual Statistical Abstract of the United States, prepared under your direction, shall be submitted to Congress in printed form as early as practicable after its meeting each year in December, and to ask that you recommend its passage.

There is no permanent law authorizing the preparation and publication of this important document, but it has been prepared and submitted annually to Congress since 1878, and there has been much delay each year in the passage of a special resolution authorizing its printing, thus lessening the value of the document by the delay in its publication.

If the inclosed bill, or one similar in its provisions, were enacted the difficulties indicated would be obviated, and the work of preparing this document would be facilitated.

Respectfully yours,

S. G. BROCK,  
*Chief of Bureau.*

Hon. WILLIAM WINDOW,  
*Secretary of the Treasury.*

A BILL AUTHORIZING PUBLICATION OF STATISTICAL ABSTRACT.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Chief of the Bureau of Statistics, under the direction of the Secretary of the Treasury, shall annually prepare and publish a Statistical Abstract of the United States, containing in condensed and succinct tabular form, information as to the growth and progress of the trade, commerce, navigation, finances, manufactures, postal service, population, railroads, agriculture, mining, education, and other leading interests of the country, collated and prepared from the reports published by the various departments of the Government, and from other trustworthy sources; and the heads of other departments of the Government are hereby directed to furnish to the Secretary of the Treasury, so far as practicable, such information for incorporation in this Abstract as he may ask them to supply.

SEC. 2. That there shall be printed annually by the Public Printer, as soon after December first as practicable, eighteen thousand copies of this Abstract, of which five thousand shall be for the use of the Senate, fifteen thousand for the use of the House of Representatives, and three thousand for distribution by the Bureau of Statistics, and so much money as may be necessary to defray the cost of printing said Abstract shall be paid out of any money in the Treasury not otherwise appropriated.

NOTE 1.—The interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, and is exclusive of interest charge on Pacific Railway bonds.

NOTE 2.—The temporary loan per act of July 11, 1862, is included in the 4 per cents. from 1862 to 1868, inclusive, with the exception of the amount outstanding for August 31, 1865, the date at which the public debt reached its highest point. This loan bore interest from 4 per cent. to 6 per cent., redeemable on ten days' notice after thirty days; but being constantly changing, it has been considered more equitable to include the whole amount outstanding as bearing 4 per cent. interest on an average for the year.

NOTE 3.—The total interest-bearing debt, as above, is exclusive of Pacific Railway bonds.

NOTE.—For the outstanding principal of the public debt prior to 1871, see foregoing Table No. 5.

a In the amount here stated as the outstanding principal of the public debt are included the certificates of deposit outstanding on the 30th of June, issued under the act of June 8, 1872, for which a like amount in United States notes was on special deposit in the Treasury for their redemption, and added to the cash balance in the Treasury. These certificates, as a matter of accounts, are treated as a part of the public debt, but being offset by notes held on deposit for their redemption, should properly be deducted from the principal of the public debt in making comparison with former years.

b Exclusive of gold, silver, and currency certificates held in the Treasury as cash, and including \$64,623,512 bonds issued to the several Pacific railroads.

*a* California holds in school fund, \$2,359,000 State bonds, leaving its public debt only \$279,000.  
*b* Delaware has no State tax on property, and no State valuation of taxable property. The property valuation given above is that of the U. S. Census of 1880. Delaware holds over \$1,000,000 interest-paying securities, and is actually out of debt.  
*c* Iowa's entire debt is invested in the school fund, the interest only being payable.  
*d* Kansas holds \$607,925 of its bonds in school fund.  
*e* Kentucky held \$715,208 in sinking fund, and is therefore out of debt.  
*f* Maryland holds \$6,051,255 interest-paying bonds, etc., besides \$27,723,287 in unproductive securities.  
*g* Massachusetts held in sinking fund, January 1, 1889, \$23,235,609.  
*h* Of Minnesota's debt, \$2,849,000 is held as permanent investment by school funds.  
*i* Mississippi's debt was due the school fund to amount of \$2,404,566, reducing the true indebtedness to \$773,167.  
*k* Nebraska holds in sinking fund and school fund \$449,267, reducing the debt to zero.  
*l* New Jersey held valid securities to amount of \$1,027,487.  
*m* New York had in sinking fund, October 1, 1889, \$1,466,875, reducing State debt to \$2,308,229.  
*n* Pennsylvania held \$2,077,074 in sinking fund and \$7,300,000 in stocks.  
*o* Of the debt of Texas, \$2,991,900 is held by special State funds, for interest, leaving the net debt \$1,245,830.  
*p* Wisconsin's entire debt is converted into certificates of indebtedness to the educational fund, and the State is practically free from debt.

*a* The cost of collecting the internal revenue embraces the following items: Salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine; salaries and expenses of revenue agents, surveyors of distilleries, gaugers, store-keepers, and miscellaneous expenses; paper for internal-revenue stamps, and expenses of detecting and punishing violations of internal-revenue laws.

*b* The expense of collecting the revenue from customs includes all sums drawn from the appropriation made by Congress for that purpose. The money is expended for salaries, rents, labor in weighing, gauging, and measuring imported merchandise, revenue boatmen, repairs, and other expenses incident to rented buildings, stationery, and the traveling expenses of special agents, but does not include expenditures for revenue-cutters; fuel, lights, water, furniture, janitors, etc., for buildings owned by the Government, nor expenditures for erecting new buildings, all of which are paid for from specific appropriations made for those purposes.

The expenses of collecting internal and customs revenue do not include the expenditures for salaries, etc., incident to auditing these accounts in the Departments at Washington.

*c* No data.

a Entered for immediate consumption and withdrawn from warehouse for consumption.

NOTE 1.—There are no data prior to 1821 showing the values of free and dutiable foreign merchandise separately.

NOTE 2.—In the table of receipts from all sources, published annually in the Finance Report, the column headed "Customs" shows the total annual customs collections from all sources covered by warrant into the Treasury, after deducting expenses of collection. From 1791 to 1850 collectors paid from customs receipts all expenses of their offices and turned the net amount remaining into the Treasury, but from 1850 to the present time they have been compelled by law to turn into the Treasury all amounts collected, while the expenses of their offices are paid by warrants from the Treasury of the United States. The figures in the column of the above table headed "Amounts of duty collected" from 1791 to 1866, inclusive, show the annual amounts of duty collected on merchandise only, without any deductions for expenses of collection, and omitting the collections from tonnage, light-houses, fines, penalties, forfeitures, etc. (Explanation given by Register of Treasury.) For these reasons the figures of "duties collected" prior to 1851 in the above table largely exceed in many cases the amount of receipts from customs as shown in the Finance Report, inasmuch as the expenses of collection were of considerable magnitude during the years when the net receipts only were covered into the Treasury. From 1850 to 1866 the receipts in the table in the Finance Report should exceed the duties collected in the above table by amounts of collections from sources other than duties on merchandise, such as tonnage dues, fines, penalties, and forfeitures, hospital dues, etc. Since 1866, the duties collected as shown by the above table are taken from the accounts of this office. While these data showing the duties collected on merchandise from 1791 to the present time are somewhat diverse in character, they are the best attainable.

NOTE 3.—The annual average ad valorem rates of duty prior to 1853 are based upon the values of the gross imports; from 1853 to include 1866 upon the value of the net imports, and after 1866 upon the values of imported merchandise entered for consumption, as returned by collectors of customs, considering ordinary duties only. The reason for basing the average ad valorem rates of duty prior to 1853 upon the values of the gross imports is that the amounts of "duty collected" for those years include the duties afterwards refunded upon exports of foreign merchandise.

NOTE 1.—The aggregate circulation should be reduced by the total amount of gold, silver, and legal-tender certificates to obtain the net circulation, as the funds which these certificates represent are also included in the aggregate.

NOTE 2.—The stock of gold and silver coin and bullion at the close of each year since 1872 was the amount estimated by the Director of the Mint.

NOTE 3.—The State-bank circulation includes only the notes of State banks converted into national banks. The amount of the outstanding notes of non-converted State banks is estimated at \$148,434.

<sup>a</sup> The figures of annual crop from 1869 to 1871, inclusive, are from the New York Shipping and Commercial List; for 1872, 1873, 1874, and 1889, from the New York Commercial and Financial Chronicle; from 1875 to 1887 from reports of the National Cotton Exchange of America, and for 1888 from the New York Cotton Exchange. The amount placed opposite each fiscal year in the column of production is the crop grown during the preceding calendar year and comprises portreceipts, overland shipments to northern mills, and southern consumption, during the year ending August 31. <sup>b</sup> The net weight of bales is stated on the authority of Mr. Thomas Ellison, of Liverpool; and the gross weight for years prior to 1878 on the authority of Mr. J. R. Dodge, Statistician of the Department of Agriculture; and after 1877, as reported by the National Cotton Exchange.

*a* As a given number of gallons of refined petroleum represents the product of a larger number of gallons of crude petroleum, it is necessary to reduce the exports of petroleum to their equivalent in crude oil, in order to arrive at a knowledge of the percentage of the total product of mineral oil exported. It has been ascertained, as the result of a careful computation, that the quantity of petroleum and its distilled products exported during the year ending June 30, 1878, was equivalent to 407,482,176 gallons of crude oil; or, in other words, that the exports of petroleum constituted about 86 per cent. of the production. *b* Barrels reduced to gallons, at the rate of 42 gallons to the barrel. *c* Estimated. *d* Figures of production for fiscal years 1882, 1883, 1884, and 1885, furnished by S. H. Stowell, editor of Stowell's Petroleum Reporter. *e* The production for calendar years 1887 and 1888, as reported by the United States Geological Survey.

NOTES.—(1) The production of domestic wines from 1875 to 1883 is estimated by the Department of Agriculture, by Mr. Charles McK. Leoser, president of the Wine and Spirit Traders' Society of New York, and other well-informed persons. (2) The consumption of domestic spirituous malt liquors from 1875 to 1889 was obtained from the reports of the Commissioner of Internal Revenue. (3) The consumption of imported liquors and wines from 1875 to 1889 was taken from the official returns made to the Bureau of Statistics by collectors of customs. (4) In computing the quantity of sparkling and still wines and vermouth in bottles, five so-called quart bottles are reckoned as equivalent to the gallon.

*a* No detailed statement of the trade of each port with foreign countries was published for these years, which renders it impossible to determine what amount of the tonnage of each foreign country, if any, may have entered at lake ports. The whole amount of tonnage from the countries herein enumerated has therefore been credited to seaports.

*b* A small portion of the tonnage from the United Kingdom during this year entered at lake ports and has been deducted from the total tonnage entered from that country, which will account for the apparent discrepancy between these figures and those of the regular annual statement of navigation for 1876.

<sup>a</sup> No detailed statement of the trade of each port with foreign countries was published for these years, which renders it impossible to determine what amount of the tonnage of each foreign country, if any, may have cleared at lake ports. The whole amount of tonnage for the countries herein enumerated has therefore been credited to sea-ports.

NOTES.—(1) No comprehensive figures of the business of the railways of the United States are attainable prior to the above. And even these tables are the fruit of private enterprise, in compiling from the official annual reports of each road the results of the traffic as shown above, and including for the year 1885 the operations of companies running 123,320 miles of railway. No department of the Federal Government has been invested with authority to require returns of railway operations, except from the transcontinental lines chartered or endowed by Congress, nor are there State officers charged with such duties except in a few of the States. (2) This table includes elevated railroads.

SUMMARY STATISTICS OF THE UNITED STATES RAILWAYS IN 1888—AVERAGES.

For each 100 miles of railroad operated in the United States there are—

Locomotives .....	20. 01
Passenger cars .....	14. 74
Baggage, mail, and express cars .....	4. 70
Freight cars of all kinds .....	691
The capital stock aggregates to each mile of completed road .....	\$28, 768
Bonded debt to each mile of completed road .....	\$29, 972
Total cost of construction and equipment each mile .....	\$54, 008
Gross earnings per mile of road in operation .....	\$6, 540
Net earnings per mile of road in operation .....	\$2, 045
Interest paid on bonds per mile of completed road .....	\$1, 342. 55
Dividends paid on stock per mile of completed road .....	\$520. 13
Ratio of interest paid to total funded debt .....	per cent.. 4. 35
Ratio of dividends to aggregate capital stock .....	do..... 1. 77
Average fare per mile .....	cents.. 2. 25
Average freight charge per ton .....	cents per mile.. . 91
Total number of passengers transported in 1888 .....	451, 353, 655
Total freight transported on all railroads in 1888 .....	582, 398, 317

a The figures, 29 $\frac{1}{2}$ , represent published rates. At times during the year the rate was cut to 20 cents, making the average rate on that basis, St. Louis to Liverpool via New York, as low as 17 $\frac{1}{2}$  cents per bushel.

b On all grain, except corn, on which rate was 26 cents.

NOTE.—In the normal condition of freight rates, the rate to Boston would be 5 cents per 100 pounds higher than to New York, to Philadelphia 2 cents per 100 pounds lower than to New York, and to Baltimore 3 cents per 100 pounds lower than to New York; but sometimes rates by these cities are independent of local rail rates. The rate on flour is generally double the rate on grain.

The greatly increased mileage since 1880 is principally due to the fact that in 1881 the Western Union Telegraph Company absorbed by purchase all the lines of the American Union and the Atlantic and Pacific Telegraph Companies, the former having previously in operation over 12,000 miles of line and the latter 8,706 miles. Capital stock of the Western Union, \$86,200,000.

The Western Union has exclusive contracts with several international cable companies, operating eight Atlantic cables, and guaranties 5 per cent. annual dividends on the stock of the American Cable Company; amount, \$14,000,000.

Besides the above, there are many new lines of telegraph which have complied with the United States telegraph act of 1866, and are operating wires with or without connection with railway companies.

The Mutual Union Telegraph Company of the United States, established in 1881, has about 8,000 miles of line, 60,000 miles of wire, 1,200 offices, and has extended its lines North and South, operating already from Boston to Chicago, St. Louis, Washington, etc. Capital stock, \$2,500,000. This line is now leased and operated by the Western Union Telegraph Company.

The Baltimore and Ohio Railroad Telegraph, having lines co-extensive with its railway system and branches, besides many newly extended wires South and West, constituting 6,711 miles of line and 54,087 miles of wire, was purchased for \$5,000,000 in 1887 by the Western Union Company, which now owns and operates it.

The Bankers and Merchants' Telegraph Company, New York, organized March 23, 1881, has about 4,000 miles of line, 28,300 miles of wire, and is in operation to many leading points. Capital authorized, \$3,000,000. Debt about \$7,500,000, as stated in August, 1884. Sold in foreclosure July 31, 1885, and now operated by the United Lines of Telegraph.

The American Rapid Telegraph Company, New York to Boston, Philadelphia, Baltimore, Washington, Buffalo, etc., with capital stock of \$4,000,000, has been leased by the Western Union Company.

The Postal Telegraph and Cable Company, of New York, organized June 21, 1881, has about 1,500 miles of line and 4,500 miles of wire in operation, from New York to Chicago, etc., and owns what are claimed to be very valuable patents in improved wires and telegraphy. Authorized capital stock, \$21,000,000, of which about \$7,000,000 has been issued. Now operated by the United Lines of Telegraph.

The aggregate mileage of telegraph lines in the United States open for public business exceeds 200,000 miles, besides railway, Government, private, and telephonic lines, length not ascertainable.

**No. 188a.—NUMBER OF BELL TELEPHONES, MILES OF WIRE, ETC., IN THE UNITED STATES IN 1889.**

The American Bell Telephone Company, Boston, had in use by its licenses, January 1, 1890, 449,861 telephones, and 757 telephone exchanges in various cities of the United States. The aggregate length of telephone wires operated by these was 193,213 miles. Capital stock, \$11,303,900. Gross earnings year ending January 1, 1890, \$4,044,705; net earnings, \$2,658,739. Dividends paid in 1889, 18 per cent.

The aggregate number of telephones in use in all the cities of the country, including those of competing companies, is much greater than the above.

The extent in mileage of telegraph wires put up for telephone use in the United States is estimated at 250,000 miles.

NOTE.—Wool, owing to its wide variety, difference in character, and condition, liability to shrink in cleaning, is precluded from speculative operations which apply to products which may be dealt in as "futures." For these reasons the prices of wool are not liable to the same changes as cotton, wheat, etc.
