## INTRODUCTION

The object of the Abstract is to provide a selection of statistics, in one compact volume, on topics of interest. Most of the information in this Annual Abstract is published separately, by a number of official departments and other authoritative sources and is already in the public domain. Current data for many of the tables appearing in this Abstract are contained in other Reports published by the Statistics Office, such as the Tourist Survey, Hotel Occupancy Survey and Employment Survey. A number of population statistics have been taken from the Census 2001, also published by the Statistics Office.

### Definitions and explanatory notes

The tables contain notes and definitions that are important to the proper interpretation and use of the statistics. The source of information is shown in relation to each table included in the Abstract.
