P R E F A C E

The Statistical Abstract of Cyprus, issued annually since 1955, aims at presenting in a summarized form statistics on almost all aspects of the economic and social life in Cyprus. The data published herein originate mostly from censuses and surveys conducted by the Statistical Service of Cyprus as well as records of other government departments and semi-government organisations.

This edition includes time series statistical information, where possible since 1960 and extending to 2009.

The Statistical Service acknowledges with thanks the valuable contribution of all government departments, semi-government and private organizations and enterprises for providing information necessary for this Abstract.

This report was the joint effort of all Divisions and Sections of the Statistical Service, co-ordinated and edited by Mrs E. Sophocleous, Statistics Assistant under the supervision of Mr C. Diamantides, Senior Statistics Officer.

G. Chr. Georgiou
Director
Statistical Service

A. UNITS OF MEASUREMENT

Length

1 metre (m)	=1.000 millimetres	= 1,09361 yards
1 kilometre (km)	=1.000 metres	= 0,621371 miles

Area

1 square metre (m ²)	=million square millimetres	= 1,195 square yards
1 square kilometre (km ²)	=million square metres	= 247,1 acres
1 hectare (ha)	=10.000 square metres	= 2,471 acres

Volume

1 cubic metre (m ³)	=million cubic centimetres	= 1,30795 cubic yards

Capacity

1 litre (l)	=1 cubic decimetre	= 0,2200 gallon
1 hectolitre (hl)	=100 litres	= 22,00 gallons

Weight

1 kilogram (kg)	=1.000 grams or 10 hectogr.	= 2,20462 pounds
1 metric tonne (t)	=1.000 kilograms	= 1,10231 short tons or 0,9842 long ton

B. CURRENCY

Currency Unit	=1 Euro	= 100 cent

C. SYMBOLS USED

..	= Not applicable
...	= Not available or not separately reported
n.e.	= Not estimated or not applicable
0	= Nil, zero or less than half the final digit shown
-	= To indicate negative numbers
pr.	= Provisional, preliminary or estimated figures
n.e.c.	= Not elsewhere classified
n.e.s	= Not elsewhere stated or specified
incl.	= Including
cont'd	= Continued
000's	= Thousand
mn	= Million
€000's	= Thousand euro
€mn	= Million euro

LIST OF TABLES

	Page
A. ECONOMY AND FINANCE	
A.1. NATIONAL ACCOUNTS	
1. Gross domestic product, gross national product, private final consumption expenditure and gross domestic fixed capital formation, 1960-2009	11
2. Per capita gross national income, 1960-2009	12
3. Per capita final private consumption expenditure, 1960-2009	13
4. Gross domestic fixed capital formation by type of capital asset, 1960-2009	15
5. Gross domestic fixed capital formation, 1960-2009	16
6. Main economic indicators by sector, 1995-2009	17
7a. Gross domestic product by activity at current market prices, 1995-2009	21
7b. Percentage annual change of gross domestic product by activity at current market prices 1995-2009	21
8a. Gross domestic product by activity at constant market prices of 2000, 1995-2009	22
8b. Percentage annual change of gross domestic product by activity at constant market prices of 2000, 1995-2009	21
9a. Expenditure on gross domestic product by category at current market prices, 1995-2009	23
9b. Percentage annual change in expenditure on the gross domestic product by category, at current market prices, 1995-2009	23
10a. Expenditure on the gross domestic product by category at constant market prices of 2000, 1995-2009	24
10b. Percentage annual change in expenditure on the gross domestic product by category at constant market prices of 2000, 1995-2009	24
11a. Gross domestic fixed capital formation by activity and type at current market prices, 1995-2008	25
11b. Gross domestic fixed capital formation by activity and type at constant market prices of 2005, 1995-2008	27
12. Gross domestic product by category of factor income, 1995-2008	29
A.2. PUBLIC FINANCE	
1. Main aggregates of general government, 2000-2009	33
2. Sequence of accounts and balancing item for the general government sector, 2000-2009	34
A.3. BALANCE OF PAYMENTS	
1. Balance of payments, 1997-2009	37
A.4. MONEY AND BANKING	
1. Deposits of non-MFIs held with MFIs, 2005-2009	41
2. Loans to non-MFIs by institutional sector, 2005-2009	41
3a. Foreign exchange rates, 1990-2007 (foreign currency per C£)	42
3b. Foreign exchange rates, 1999-2009 (foreign currency per €)	42
4a. Interest rates (Deposits), 2008-2010	43
4b. Interest rates (Loans), 2008-2010	44
5. Co-operatives by type and individual members, 1960-2009	45
6. Loans and deposits of saving banks and co-operative credit societies, 1962-2009	46
B. PRICES AND INFLATION	
B.1. CONSUMER PRICE INDEX	
1. Consumer price index (annual index and percentage change), 1960-2009	51
2. Consumer price index by category (base: 1998=100), 1999-2009	52
3. Cost of living allowance granted to employees, 1960-2010	54

	Page
B.2. HARMONISED CONSUMER PRICE INDEX	
1. Harmonised consumer price index by category (base: 2005=100), 1998-2009	55
2. Percentage annual change of the harmonised consumer price by category, (base: 2005=100), 1997-2009	55
B.3. WHOLESALE PRICE INDEX	
1. Wholesale price index, (base: 1990=100), 1991-2009	56
2. Wholesale price index by trading activity, (base: 1990=100), 1992-2009	57
3. Percentage annual change of the wholesale price index by trading activity, (base: 1990=100), 1992-2009	58
C. POPULATION AND SOCIAL CONDITIONS	
C.1. CENSUS YEARS	
1. Population, census years	63
2. Distribution of population by district, census years	64
3. Percentage distribution of population by marital status and sex, census years (for persons aged 15 and over)	65
4. Population by age-group and sex, census years	66
5. Population of municipalities and communities by size, 1992 and 2001 censuses	67
6. Households and average number of persons per household by district, census years	68
C.2. POPULATION	
1. Total de jure population by sex, 1961-2009	69
2. Estimates of total population, 1974-2009	70
3. De jure population estimates by sex, 1974-2009	71
4. Population changes, 1974-2009	71
5. End of the year de jure population estimates by age-group and sex, 1995-2009	72
6. Population by district (end of the year), 1992-2009	74
7. Households by district (end of the year), 1992-2009	75
C.3. DEMOGRAPHY	
1. Live births by sex and birth rates, 1974-2009	76
2. Fertility rates, 1974-2009	76
3. Live births by birth order and mean age of mother at child birth, 1974-2009	77
4. Deaths by sex and death rates, 1974-2009	78
5. Life expectancy at birth for males and females	78
6a. Life table - Males, 2008/09	79
6b. Life table - Females, 2008/09	79
7. Marriages and divorces, 1974-2009	80
8. Mean age at marriage by type of marriage, 1974-2009	80
9. Long-term immigrants by country of citizenship and sex, 2002-2009	81
10. Emigrants by country of citizenship and sex, 2002-2009	84
C.4. CRIME	
1. Serious offences reported to the police, 1976-2008	89
2. Serious offences taken to court and tried, 1976-2008	89
3. Persons convicted by offence group (Serious offences), 1975-2008	90
4. Sentences imposed (Serious offences), 1975-2008	90
5. Adults proceeded against and convicted, 1950-2008	91
6. Adults proceeded against by offence group, 1975-2008	92
7. Adults convicted by offence group, 1975-2008	92
8. Juveniles involved in the commission of offences by offence group and sex, 1980-2008	93

	Page
9. Juveniles involved in the commission of offences by age group and sex, 1978-2008	94
10. Juveniles convicted by age group and sex, 1978-2008	94
11. Admissions of convicted prisoners, 1950-2008	95
12. Admissions of convicted prisoners by sentence imposed, 1975-2008	95
13. Admissions of convicted prisoners by offence group, 1975-2008	96
14. Admissions of convicted prisoners by age group and sex, 1975-2008	96

C.5. EDUCATION

1. Schools, pupils and teachers in formal education by level (public and private), 1960/61-2008/09 ...	99
2. Primary school pupils in urban and rural areas (public and private), 1960/61-2008/09.....	100
3. Secondary school leavers by type of school (public and private), 1960/61-2007/08	100
4. Secondary school leavers by specialization, 1965/66-2007/08	101
5. Literacy rates, 1946-2001	101
6a. Highest educational attainment for persons 20 years of age and over, 1946-1991	102
6b. Highest educational attainment for persons 20 years of age and over, 1992-2009	102
7. School enrolment ratios, 1980-2008	103
8. Tertiary students per 100,000 inhabitants, 1970-2008	105
9. Number of students in tertiary educational institutions, 1980/81-2008/09	106
10. Number of tertiary students by level of study and sex, 1975/76-2008/09	108
11. Number of enrolments in tertiary education by field of study, 1975/76-2008/09	109
12. Tertiary Cypriot students abroad by country of study, 1975/76-2008/09.....	110
13. Tertiary Cypriot students abroad by field of study, 1975/76-2008/09	110
14. Tertiary Cypriot students abroad by level of education, 1975/76-2008/09	111
15. Public expenditure on education as % of G.D.P. and Budget, 1965-2009	112
16. Public expenditure on education by ministries, 1990-2009	112
17. Public expenditure on education by level and category, 1995-2008	113
18. Per pupil/student public expenditure by category of expenditure and level of education, 2000-2008	114
19. Private expenditure on education by level and type of educational institution, 2005-2008	115

C.6. HEALTH

1. Health Indicators, 1960-2008	119
2. Expenditure on health services, 1998-2008	119
3. Health data, 1960-2008	120
4. Hospital beds by type of hospital and department, public sector, 1976-2008	121
5. Bed occupancy rates by type of hospital and department, 1980-2008	122
6a. Private clinics by district, number of specialities, number of hospital beds and personnel, 2000	123
6b. Private clinics by district, number of hospital beds and personnel, 2006-2008	123
7. Patients admitted in government general hospitals by department, 1985-2008	124
8. Patients discharged from government general hospitals by department, 1985-2008	124
9. Patients discharged from government general hospitals by disease category, 1997-2008	125
10. Patients operated and discharged from government general hospitals by operation category, 1985-2008	126
11. Out-patient attendances by type of hospital and speciality, 1985-2008	127
12. Out-patient attendances by disease category (All government medical institutions), 2000-2008	128

C.7. WELFARE

1. Displaced beneficiaries of public assistance by nature of distress, 1980-2009	131
2. Non-displaced beneficiaries of public assistance by nature of distress, 1980-2009	131
3. Beneficiaries of public assistance by nature of distress, 1980-2009	132
4. Percentage distribution of beneficiaries of public assistance by nature of distress, 1980-2009	132
5. Beneficiaries of public assistance, displaced and non-displaced, 2002-2009	133
6. Child and family welfare, children in care and method of treatment, 1973-2009.....	133

D. LABOUR

D.1. LABOUR FORCE SURVEY

D.1.1. L.F.S. - LABOUR FORCE

1.	Labour force participation rates by age group and sex, 2000-2009	141
2.	Labour force by age group and sex, 2000-2009	142

D.1.2. L.F.S. - EMPLOYMENT

1.	Employment rates by age group and sex, 2000-2009	143
2.	Employment by age group and sex, 2000-2009	144
3a1.	Employment by economic activity (Total – NACE Rev. 1.1), 2000-2008	145
3a2.	Employment by economic activity (Total – NACE Rev. 2), 2008-2009	146
3b1.	Employment by economic activity (Males – NACE Rev. 1.1), 2000-2008	147
3b2.	Employment by economic activity (Males – NACE Rev. 2), 2008-2009	148
3c1.	Employment by economic activity (Females – NACE Rev. 1.1), 2000-2008	149
3c1.	Employment by economic activity (Females – NACE Rev. 2), 2008-2009	150
4a.	Employment by occupational group (Total), 2000-2009	151
4b.	Employment by occupational group (Males), 2000-2009	151
4c.	Employment by occupational group (Females), 2000-2009	152
5.	Employment by status in employment and sex, 2000-2009	153
6.	Employment by educational attainment level and sex, 2000-2009	154
7.	Employment by nationality and sex, 2000-2009	155

D.1.3. L.F.S. - UNEMPLOYMENT

1.	Unemployment rates by age group and sex, 2000-2009.....	156
2.	Unemployment by age group and sex, 2000-2009	157
3a1.	Unemployment by economic activity (Total – NACE Rev. 1.1), 2000-2008	158
3a2.	Unemployment by economic activity (Total – NACE Rev. 2), 2008-2009	159
3b1.	Unemployment by economic activity (Males – NACE Rev. 1.1), 2000-2008	160
3b2.	Unemployment by economic activity (Males – NACE Rev. 2), 2008-2009	161
3c1.	Unemployment by economic activity (Females – NACE Rev. 1.1), 2000-2008	162
3c2.	Unemployment by economic activity (Females – NACE Rev. 2), 2008-2009	163
4a.	Unemployment by occupational group (Total), 2000-2009	164
4b.	Unemployment by occupational group (Males), 2000-2009	164
4c.	Unemployment by occupational group (Females), 2000-2009	165
5.	Unemployment by educational attainment level and sex, 2000-2009	166
6.	Unemployment by nationality and sex, 2000-2009	167
7.	Unemployment by duration and sex, 2000-2009	168

D.2. EMPLOYMENT

1.	Economically active and gainfully employed population, 1960-2009	169
2a.	Gainfully employed population for the production of G.D.P. by industry (ISIC 1968), 1965-1994	170
2b.	Gainfully employed population for the production of G.D.P. by industry (NACE REV.1.1), 1995-2009	170
3a.	Employment by occupation (ISCO 1968) and sex at registration years, 1976-1989	171
3b.	Employment by occupation (ISCO 1988) and sex at registration years, 1989, 1995 and 2000	171
4.	Non-agricultural employment by status and sex at registration years, 1967-2005	172
5.	Civilian employment in Government by category, 1977-2009	172
6.	Establishments and employment by industry and size of establishment, at registration years, 1967-2005	173
7a.	Persons involved in industrial accidents by branch of economic activity (ISIC 1968), 1960-2001 ..	176
7b.	Persons involved in occupational accidents by economic activity (NACE REV.1.1), 2002-2007 ...	176

	Page
7c. Persons involved in occupational accidents by economic activity (NACE Rev.2), 2008-2009	177
8. Persons involved in industrial accidents by cause, 1969-2009	178

D.3. REGISTERED UNEMPLOYMENT

1. Registered unemployment by sex, 1960-2009	179
2a. Registered unemployment by occupational group (ISCO 1968), 1960-1991	180
2b. Registered unemployment by occupational group (ISCO 1988), 1995-2009	180
3a. Registered unemployment by industry (ISIC Rev.2), 1983-2005	181
3b. Registered unemployment by industry (NACE Rev.1), 2005-2009	181
4. Registered unemployment by duration of registration and sex, 1975-2009	182
5. Registered unemployment by educational level and sex, 1975-2009	182
6. Vacancies filled by the labour exchanges, 1965-2009	183
7. Labour disputes, work stoppages and workdays lost, 1960-2009	183
8a. Work stoppages and workdays lost by branch of economic activity, 1975-2001	184
8b. Work stoppages and workdays lost by branch of economic activity, 2002-2009	184

D.4. WAGES

1. Indices and growth in rates of pay and earnings, 1960-2009	185
2. Indices of average rates of pay in money terms by sector, 1985-2009	186
3. Indices of average rates of pay in real terms by sector, 1985-2009	186
4. Normal hours of work per week by economic activity and sex, 1998-2009	187
5. Average normal monthly rates of pay per person in selected occupations by sex, 1998-2009	189

D.5. SOCIAL INSURANCE

1. Persons insured by sex, 1960-2009	197
2. Social insurance contributions, 1960-2009	197
3. Social insurance claims settled, 1960-2009	198
4. Payments of social insurance benefits, 1960-2009	199
5. Pensioners by kind of pension, 1966-2009	200

E. EXTERNAL TRADE

1. Foreign trade summary, 1960-2009	207
2. External trade by H.S. commodity section, 1995-2009	208
3. Imports/arrivals destined for home use by economic destination, 1995-2009	212
4. Total imports/arrivals by main partner country, 1995-2009	213
5. Total exports/dispatches by main partner country, 1995-2009	214
6. Exports/dispatches of domestically produced goods (excl. stores and provisions) by broad economic sector/commodity, 1995-2009	214

F. AGRICULTURE, FORESTRY AND FISHING

F.1. AGRICULTURE

1. Main indicators of the agricultural sector, 1960-2008	219
2. Use of agricultural land, 1960-2008	220
3. Use of irrigable agricultural land, 1960-2008	220

F.2. CROP PRODUCTION

1. Production of main crops, 1960-2008	221

	Page
<i>F.3. LIVESTOCK PRODUCTION</i>	
1. Production of main livestock products, 1960-2008	222
2. Animal population by type, 1960-2008	222
<i>F.4. ECONOMIC ACCOUNTS OF AGRICULTURE</i>	
1. Gross output by sub-sector, at current prices, 1960-2008	223
2. Value added by sub-sector, at current prices, 1960-2008	223
3. Quantity indices of agricultural production, 1996-2008	224
4. Price indices of agricultural production, 1996-2008	225
5. Price indices of agricultural inputs, 1996-2008	226
6. Volume indices of agricultural inputs, 1996-2008	226
7. Quantity of exports of agricultural products, 1960-2008	227
8. Value of exports of agricultural products, 1960-2008	227
<i>F.5. FORESTRY</i>	
1. Production of soft wood, 1960-2008	228
2. Production of hard wood, 1960-2008	228
<i>F.6. FISHING</i>	
1. Main indicators of the fishing sector, 1995-2008	229
2. Fish caught and imports of fish, 1960-2008	229
 <i>G. INDUSTRY, CONSTRUCTION</i>	
<i>G.1. INDUSTRY</i>	
1. Enterprises, employment, gross output and value added by division at census years, 1954-2000	235
2. Index of industrial production, 2006-2009	239
<i>G.2. MANUFACTURING</i>	
1. Employment, gross output, value added and exports of the manufacturing sector, 1962-2008	240
2. Cost analysis of the manufacturing sector, 2000-2008	241
3. Employment in the manufacturing sector by major group, 2000-2008	242
4. Gross output in the manufacturing sector by major group, 2000-2008	243
5. Value added in the manufacturing sector by major group, 2000-2008	244
6. Expenditure on fixed assets in the manufacturing sector by major group, 2000-2008	245
7. Domestic exports of manufactured goods by major group, 2000-2008	246
8. Price index of manufacturing production, 2006-2009	247

INTRODUCTION

GEOGRAPHY

1. Location, Area and Population

Cyprus is situated in the north-eastern part of the Mediterranean Sea, 33⁰ east of Greenwich and 35⁰ north of the Equator and has an area of 9.251 square kilometres, of which 1.733 square kilometres are forested.

The population of Cyprus in the Government controlled area was estimated at 796.900 at the end of 2008, recording an increase of 1.0% from the previous year.

The population in the district of Nicosia was 313.400 at the end of 2008, in Famagusta 44.300, in Larnaca 133.300, in Limassol 228.900 and in Paphos 77.000. A proportion of 70% resided in the urban areas of Cyprus, whereas a proportion of 30% resided in rural areas.

2. Natural Regions

Cyprus may be divided into the following natural regions:

(a) The Troodos (or southern) Range. This is a dome-shaped highland of infertile igneous rocks forming the backbone of the island and situated in the central-west part of the island. It is a region of high relief rising to 1.951 metres in Mount Olympus. Several rivers spring radially from Troodos ending in the sea. The forests which cover the Troodos massif combined with its steep slopes and precipices and narrow valleys and crevices help create beautiful scenery. The hard igneous rocks are surrounded by a lower belt of dome-shaped pillow lava, a most infertile area, which levels gradually towards the coast.

(b) The Keryneia (or northern) Range. This northern mountain range, mainly of limestone, rises up to 1.024 metres at Kyparissiovouno. Part of this range consists of finger-shaped mountains known as "Pendadaktylos" (five-fingers). It is in this beautiful mountain range that the three famous castles of St. Hilarion, Voufavento and Kantara are found. A number of crevices have helped the development of a network of communication with the northern coastal valleys. Karpasia, the north-eastern part of the range, is a continuation of Pendadaktylos consisting of hills, slopes and valleys free of foldings and other tectonic features.

(c) The Mesaoria or Central Plain. The central plain is situated amidst the Troodos and Keryneia mountain ranges and has a low relief, not exceeding 180 metres near Lefkosia. This plain is composed of flysch-type rocks carried by rivers from the Troodos and Keryneia ranges and was formed during a very recent chronological period.

(d) The Coastlands. Cyprus is almost surrounded by coastal valleys: In the north is the Keryneia valley with its narrow dentilated coasts; in the south are the Larnaka and Lemesos valleys; in the west are the Pafos and Chrysochou valleys; in the east is the Ammochostos valley. The soils are alluvial and fertile suitable for agricultural activities.

3. Natural Vegetation

Notwithstanding its small size, Cyprus has a great variety of natural vegetation. This includes 1760 different kinds of plants, out of which 132 are considered as endemic to Cyprus. According to Eratosthenes (275-195 B.C.), a Greek botanist, most of Cyprus, even the Mesaoria, was heavily forested in antiquity. Considerable remnants of these forests survive on the Troodos and Keryneia Ranges and locally at lower altitudes. Nowadays about 18% of the whole island is classified as State Forest Land. This includes forests of conifers such as the Calabrian pine (*Pinus brutia*), Black pine (*Pinus nigra*), Cedar (*Cedrus libani* ssp.

brevifolia), Cypress (*Cupressus sempervirens*) and small scale plantations of Eucalypts. Where the forest has been destroyed, tall (4-6 m. high) shrub communities of *Arbutus andrachne*, *Pistacia terebinthus*, *Olea europaea*, *Styrax officinalis*, *Quercus coccifera* and *Juniperus phoenicia* may survive and form a special type of vegetation, the maquis. Such maquis cover to a great extent Akamas and Carpass peninsula. Over most of the island untitled ground bears a grazed covering of garigue, largely composed of low (less than 3 m. high) bushes of *Cistus* ssp. *Genista spaelata*, *Calycotome villosa*, *Lithodora hispidula*, *Phagnalon rupestre* and locally, *Pistacia lentiscus*, associated with a wide variety of annual and perennial herbs. Where grazing is excessive this cover is soon reduced and an impoverished batha remains, consisting principally of *Sarcopoterium spinosum*, *Thymus capitatus*, *Fumana* ssp., *Micromeria* spp. and a few stunted herbs.

4. Birds and Animals

Cyprus has been endowed with a rich fauna including a large number of endemic birds, reptiles and other animals. Because of its position, Cyprus is also a vital stop-over place for thousands of migratory birds which find the island an ideal place for both feeding and refuge. Among the animals moufflon occupies an outstanding position and is considered as one of the natural treasures of the island. Moufflon belongs to the sheep family but this species is unique to the world. This interesting and noble beast, which is the symbol of the Cyprus Republic and used on its coins, has long been in danger of extinction, but today is a fully protected animal.

GEOLOGY

Cyprus is divisible into three geotectonomorphological zones namely, the Pendadaktylos or Keryneia range to the north, the Troodos mountain to the south, and the Mesaoria plain separating the two uplands.

The Pendadaktylos range is made of a succession of mostly allochthonous sedimentary formations ranging from Permian to Middle Miocene in age. The oldest rocks consist of a series of allochthonous recrystallized limestones and dolomites (Dhikomo, Sychari and St. Hilarion Formations) the age of which ranges from Permian to Middle Cretaceous. They are included in an allochthonous sequence of tightly folded pelagic calcareous and marly sediments, with minor pillow lavas and cherts, of Maestrichtian to Middle Eocene age (Lapithos Formation). The latter are overlain in places by the Kalogrea-Ardana flysch, part of which is an allochthonous sedimentary succession of coarse breccia and flysch deposits that are Middle to Upper Eocene in age. It is succeeded, where present, by an autochthonous Lower Miocene turbiditic flysch deposit with a conglomerate at its base (Kythrea Formation).

The Keryneia range is interpreted structurally as a series of large slices of recrystallized limestone and dolomite thrust southwards together with their "host rock", the Lapithos Formation, during Middle Miocene.

The Mesaoria plain is formed of a succession of upper Cretaceous to pleistocene sedimentary rocks. Its northern half is underlain by highly folded Kythrea flysch and has a characteristic hummocky topography, while the southern part consists of a sequence of generally underformed gently inclined sedimentary rocks.

The Troodos Mountains geologically described as the Troodos massif or Troodos ophiolite complex, occupy a roughly oval area of 3,200 km² in the central and western part of the Island. The Troodos massif, formed almost entirely of uppermost Cretaceous (about 85 million years ago) mafic and ultramafic igneous rocks, is regarded as one of the best exposed and undeformed ophiolites (fragment of oceanic lithosphere and upper mantle). A complete ophiolite sequence is present, ranging downwards from basaltic pillow lavas through a sheeted dyke complex, plagiogranites (granophyres, trondhjemites), gabbros, wehrlites, dunites and harzburgites.

The uplift of Troodos ophiolite is attributed to the serpentinization of a part of the depleted upper mantle (harzburgite) overlying the descending, African plate. Concomitant erosion has produced a crudely annular

outcrop pattern in which the deepest rock type of the Troodos ophiolite sequence, the harzburgites, crops out centrally and give way outwards to progressively higher structural units so that the uppermost component, the pillow lavas occupy the periphery. To the north and south the pillow lavas of the massif are overlain in places by ferromanganese (umbers), radiolarites and clays of Campanian age (Perapedi Formation). The latter are overlain by a series of calcareous sediments of Maestrichtian to Miocene age (Lefkara, Terra, Pachna and Koronia Formation) which in turn are overlain by Pliocene-Pleistocene marls, calcarenites and fanglomerates.

WEATHER

The climate is intense Mediterranean with the typical seasonal rhythm strongly marked in respect of temperature, rainfall and weather generally. Hot dry summers from mid-May to mid-September and rainy, rather changeable winters from November to mid-March are separated by short autumn and spring seasons.

1. Weather Conditions in 2009

The area average precipitation over the part of the island under government control during the calendar year January 2009 – December 2009 was 629.3 mm, i.e. 125% of normal (1961-1990). Rainfall above normal was recorded in the period January-March, in May, in the period August-October and in December. In the remaining months precipitation amounts were below normal.

The monthly area average precipitation over the part of the island under government control was as follows:

Month	Actual Precipitation (2009) (mm)	Normal Precipitation (1961-1990) (mm)	Actual/Normal Precipitation (%)
January	108,8	102,4	106
February	106,3	81,6	130
March	75,0	61,9	121
April	22,6	29,9	76
May	29,2	19,6	149
June	0,5	6,0	8
July	1,6	2,6	62
August	6,1	2,9	210
September	37,8	4,5	840
October	40,3	32,7	123
November	44,5	53,3	83
December	152,1	105,6	144
Total	624,8	503,0	124

Mean air temperature for the year as a whole, was 1,0 °C above normal. In January, June, October and December, mean air temperature was 1,6 °C, 2,2 °C, 2,5 °C, 2,5 °C above normal respectively. In the remaining months the deviations from normal were smaller (0,5 °C to 1,2 °C). Below normal were the mean temperatures in March and September. Heat wave conditions occurred on the 9th and during the period 23-24 of June, on the 1st of July, during the periods 9-10, 18-24, 26-28 and on the 31st of July and during the periods 3-5, 15-17 and 19-22 of August.

Month	Mean Daily Maximum (°C)			Mean Daily Minimum (°C)		
	Actual (2009)	Normal (1961-1990)	Diff.	Actual (2009)	Normal (1961-1990)	Diff.
January	15,0	13,3	+1,7	6,3	4,8	+1,5
February	14,4	13,5	+0,9	6,0	4,6	+1,4
March	15,9	16,0	-0,1	6,2	5,9	+0,3
April	21,5	21,1	+0,4	10,0	9,7	+0,3
May	25,2	25,1	+0,1	13,3	13,1	+0,2
June	31,6	29,1	+2,5	19,1	16,8	+2,3
July	33,3	32,1	+1,2	21,4	19,9	+1,5
August	33,0	32,1	+0,9	20,7	19,8	+0,9
September	29,0	29,9	-0,9	17,7	17,4	+0,3
October	27,6	24,7	+2,9	16,1	13,5	+2,6
November	20,1	19,0	+1,1	10,3	9,3	+1,0
December	16,8	15,2	+1,6	8,6	6,3	+2,3
Annual	23,6	22,6	+1,0	13,0	11,8	+1,2

Mean daily sunshine duration was slightly below normal. During the year under review various extreme or exceptional weather events occurred locally, like heavy rains, flooding and severe thunderstorms (January, February and September-December), severe hailstorms (February, March, May, September, November and December), strong winds (October-December), tornado (March, May, July and September), suspended dust in the atmosphere (January-May and October) and lightning (February and August-October).

HISTORY

The dawn of civilization in Cyprus goes back to the 6th millennium B.C. when the island was populated by its Neolithic inhabitants. Early in the second millennium B.C., the Achaean Greeks established city kingdoms in the island on the Mycenaean model and introduced the Greek language and the Greek way of life, which exercised a lasting influence throughout the history of Cyprus. Aphrodite, the Greek goddess of love, became a kind of “Patron Saint” of the island through the legend that she was born in Pafos, where she had risen from the sea.

The island was well known for its prosperity - its copper mines and forest. Given its wealth, it became an object of contest among the great powers of the Eastern Mediterranean in antiquity: the Assyrians, the Egyptians and the Persians, who in turn became its masters. Alexander the Great finally liberated the island from the Persians. On the partition of Empire, Cyprus became one of the most significant parts of the Empire of the Ptolemies of Egypt; later it came under the dominion of the Romans. On the division of the Roman Empire in 395 A.C., Cyprus became a province of the Byzantine Empire. Christianity first spread throughout the island as a result of the visit, in 45 A.C., of the Apostles Paul and Barnabas who converted the Roman Proconsul and thereby made Cyprus the first country in the world to be ruled by a Christian. In 1191, the English King Richard Lion Heart occupied the island on his way to the Third Crusade and subsequently sold it to the Knight Templars. In 1192, Cyprus was passed over to the Lusignans from France who established a kingdom on the western feudal model.

The last Lusignan Queen, who governed Cyprus, Catherine Cornaro, was forced to pass her rights to the Republic of Venice, which ruled the island until 1571, when it was conquered by the Turks. The Turkish period lasted until 1878 when Great Britain rented Cyprus from Turkey in exchange of a British promise to help Turkey against Russia. In 1914, Great Britain annexed the island and Cyprus became a British Colony.

Cyprus became an independent, sovereign state in August 1960 on the basis of the Zurich and London agreements following a liberation armed struggle against British colonial rule between 1955 and 1959. The Republic of Cyprus has a presidential system of government with a clear division of authority between the executive, the legislative and the judicial bodies.

On July 20, 1974, Turkey invaded Cyprus with massive military force. The pretext was the coup against the President of Cyprus, on July 15, instigated by the military junta of Greece. Turkey put into operation its plan to partition Cyprus. Despite the collapse of the coup and the restoration of the legitimate government of Cyprus, Turkey undertook a second wave of invasion in August, in violation of UN ceasefire agreements, and expanded its occupation to nearly 40% of the Republic's territory. Turkey's military aggression against Cyprus tragically continues unabated for nearly thirty-three years with the island still being divided.

On May 20, 2004, Cyprus formally joined the European Union as a member state completing a long journey which began with its application for full membership in 1990. Cyprus has always been part of the European family of nations. Accession to the EU was a natural development for Cyprus, stemming by its culture and civilisation, its history, its European outlook and its traditions as well as its adherence to the ideals of democracy, freedom and justice.

ECONOMY

Developments in the economy of Cyprus during 2009

During 2009, due to the negative external environment, the economy of Cyprus contracted however to a lower rate compared with that of the European Union. The GDP in constant prices decreased by 1,7% in 2009 compared to an increase 3,6% in 2008. Negative growth, during this period, has been mainly driven by domestic demand, private consumption and gross fixed capital formation, on the back of lower employment, slower disposable income growth and negative confidence effects. Gross fixed capital formation exhibited negative growth, as a result of reduced growth of investment in construction, investment in machinery equipment and investment in transport equipment. The growth contribution of exports has been negative, as the more unfavorable external environment and the slowdown of Cyprus' main economic partners have had an adverse effect on demand for exports, in particular tourism.

The rate of growth of private consumption declined by 3%, in real terms in 2009, following an increase of 8,4% in 2008. The negative growth of private consumption, in general, is mainly attributed to the slowdown of real disposable income of households as a result of the contraction of employment and lower real earnings.

Gross fixed capital formation exhibited a decrease of 12%, in real terms, in 2009, following an increase of 8,6% in 2008. The overall negative performance of investment activity is a result of the more negative climate of confidence and the lower demand for holiday houses.

The external demand for goods and services exhibited deceleration and the rate of decrease of exports of goods and services fluctuated at around 11,8% in real terms in 2009, as compared to a decrease of 2,1% in 2008, notwithstanding the increase in exports of financial services.

Tourism exhibited a continued decrease during 2009. Specifically, tourism arrivals recorded a decrease of 10,9% compared to decrease of 0,5% in 2008. Also, receipts from tourism decreased by 16,7% during 2009, following a decrease of 3,5% in 2008.

From the supply side, the growth of the Cyprus economy was mainly based on the tertiary sector and, in particular, the sector of financial intermediation.

Labour market conditions deteriorated, with the unemployment rate increasing to around 5,3% of the labour force in 2009. Employment contracted slightly by 0,8%, due to a deceleration in economic activity. The contraction of employment was accompanied by a substitution effect between the employment of locals and the moderated increase in foreign employment, particularly Europeans. Specific sectors, such as manufacturing, construction and hotels and restaurants experienced a downswing in terms of economic activity due to the world financial crisis that hit Cyprus with a time lag. Nominal earnings were retained at relatively high rates resulting from wage bargaining agreements preceded the economic crisis. Nominal unit labour cost continued its fast growing trend, adversely affecting the competitiveness profile of Cyprus.

The rate of growth of nominal earnings estimated at 4,3% in 2009, as compared to 7,4% in 2008. Labour productivity in Cyprus decreased by around 1% in 2009, as compared to an increase of 0,9% in 2008.

Inflation, as measured by the Harmonized Index of Consumer Prices (HICP), decelerated significantly in the second half-period of 2009. HICP decelerated to 0,2% in 2009 owing mainly to lower energy and commodity prices and to less buoyant credit conditions domestically.

The current account deficit of the balance of payments decreased from 17,7% of GDP in 2008 to 8,5% in 2009, due mainly to the positive impact of the significant decrease of oil prices internationally, but also due to lower demand.

The public balance was in deficit of around 6.1% of GDP in 2009 and the public debt increased to around 56,2% of GDP compared to +0,9% and 48,4% of GDP respectively in 2008.

The main characteristic of monetary developments during 2009 was the deceleration of the rate of growth of total credit, registering an increase of 14,3% in 2009, as compared to 27,3% in 2008.

Summarizing, the Cyprus economy in 2009, exhibited conditions of slower economic activity, mainly due to the financial crisis, the weakening of domestic demand and in particular due to negative growth rates of private consumption and gross fixed capital formation, on the back of lower employment and slower disposable income growth. The economic growth fluctuated at -1,7% in real terms in 2009. The unemployment rate was 5,3% in 2009. The rate of inflation fluctuated at 0,2% in 2009. The fiscal balance recorded a deficit of 6,1%, whereas the current account deficit of the Balance of Payments decreased to 8,5%.

A. ECONOMY AND FINANCE

A.1. National Accounts

SCOPE

This section presents data on gross domestic product by activity, gross national product by type of expenditure, national income, per capita gross national product and consumption expenditure, and gross fixed capital formation by activity and type.

COVERAGE

For the period prior to mid-1974 the data presented refer to the whole of Cyprus while after mid-1974 the data relate to the Government controlled area only.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

National accounts estimates are compiled by the Statistical Service since 1955 on the basis of the various sectoral surveys and other secondary sources. Monetary and Financial data are provided by the Central Bank of Cyprus and the Ministry of Finance. Revisions are usually made as new and final data for previous years become available.

CLASSIFICATION SYSTEM USED

For the years prior to 1976 national accounts were based on the 1958 U.N. System of National Accounts (SNA). As from 1983 the new 1968 SNA has been introduced. On the basis of this system the national accounts have been recompiled backwards as far as 1976. In order to ensure continuity of the data compiled in the previous years using the 1958 SNA, certain basic data such as gross domestic product, gross national product, private final consumption expenditure and gross fixed capital formation, have been recompiled on the basis of the new 1968 SNA. From 1995 onwards the data presented is based on the concepts and methodology of the European System of National Accounts (ESA95) and the European System of Classification of Economic Activities (NACE Rev. 1.1.).

DEFINITIONS OF TERMS USED

Gross Domestic Product (GDP) is the value of gross output of the country produced during a calendar year, minus intermediate consumption i.e. the value of raw materials, fuels and services rendered by others used in the production process. It represents value added generated by the sectors producing goods and services within the country. Valuation of GDP is at market prices, including import duties and other indirect taxes but excluding subsidies. Import duties are shown as a separate item at the end of the distribution of value added by activity because their allocation by sector is not possible.

Financial Intermediation Services Indirectly Measured (FISIM) is taken to be the surplus of the income generated indirectly for the financial institutions from their financial intermediation activity, which is the granting of loans and the holding of deposits. GDP is presented after the allocation of FISIM to the sectors of the economy, according to the requirements of relevant E.U. regulation. As a result, the use of FISIM is no longer recorded entirely as intermediate consumption, but also as final consumption, exports and imports.

Gross National Product (GNP) at market prices. It is equal to GDP at market prices plus net factor income from abroad. GDP is also equal to the sum of private and government final consumption

expenditure, gross fixed capital formation, exports minus imports of goods and services and increase in stocks.

Government final consumption expenditure. It is taken to be equal to the value of goods and services produced by general government for its own use. It comprises (a) intermediate consumption, (b) compensation of employees, (c) consumption of fixed capital and (d) payments of indirect taxes (if any) less sales of goods and services to other non-government bodies (private enterprises, households). All durable goods acquired by government for military purposes (incl. arms and ammunition) are considered as intermediate consumption and are included in government final consumption. Transfer payments and expenditure of general government on non-military buildings, machinery, transport equipment and other fixed assets are not included in government final consumption.

Private final consumption expenditure. It represents the value of goods and services consumed by resident households and private non-profit institutions serving households, within or outside the country.

(a) Resident households: Final consumption of resident households includes outlays on non-durable and durable goods and services, except for houses, less sales of second-hand goods. In addition to market purchases, household final consumption includes imputed gross rent of owner-occupied dwellings and food and other items produced for own use. Expenditure of foreign tourists, foreign diplomatic and military personnel in the domestic market are excluded from this category; they are included in exports of goods and services.

(b) Private non-profit institutions serving households: Final consumption expenditure of these units, as in the case of government, is equal to the services they produce for their own use. It comprises purchases and value of transfers received, to be used in production, compensation of employees, consumption of fixed capital and indirect taxes paid, less their sales of goods and services.

Gross Domestic Fixed Capital Formation. It consists of the outlays of public and private sectors for investment in fixed assets (excluding stocks), minus the net sales of similar second-hand or scrapped capital goods. Excluded are military barracks and machinery, transport and other equipment purchased by the armed forces.

Stocks. They consist of materials and supplies, work-in-progress and finished products and goods held by the enterprises. Changes in stocks is the difference in stocks at average purchaser prices at the beginning and end of the calendar year.

Exports of goods and services. They represent the value of goods and services sold to the rest of the world. It comprises merchandise, valued at f.o.b. prices, transportation services, insurance and other non-factor services. Factor income from abroad is not included.

Imports of goods and services. They represent the value of goods and services purchased from abroad, at f.o.b. prices, excluding factor payments abroad.

National income. It is equal to Gross National Product (GNP) at market prices minus consumption of fixed capital.

Net factor income from the rest of the world. It consists of the earnings of Cypriot residents employed temporarily abroad, including those working in the British Sovereign Base Areas and NAAFI, plus investment income from abroad such as rents, interest, dividends and profits of Cypriot enterprises, government and other organizations, minus similar factor income payments abroad.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

More information on national accounts appears in the annual report “National Accounts” and in pocket books published on ad-hoc basis by the Statistical Service. The “National Accounts” report is issued annually since 1954 (from 1954 to 1962 it was entitled “Economic Review” and from 1963 to 2002 it was entitled “Economic Report”).

Notes: 1. From the year 2000 figures for the unemployed are taken from the Labour Force Survey.

2. Data refer to billed sales only, excluding electricity supplied to the areas occupied by the Turkish invading forces, for which no payment was effected.

Data for the year 2006 include the supply of 40,6 mn kWh to the areas occupied by the Turkish invading forces, for which payment was effected.

Value added tax	4,6	5,1	7,6	8,2	8,9	9,4	10,0	10,3	9,4
Gross Domestic Product at factor cost	100,0	100,0	100,0	100,0	100,0	100,0	100,0	100,0	100,0

Definitions of terms used:

1. Wages, salaries and other benefits of employees: comprise the gross wages and salaries, 13th and 14th salaries, overtime pay, employers' contributions to social security funds, the value of payments in kind, holiday pay, etc.
2. Imputed wages, salaries and other benefits of working proprietors and unpaid family workers: refer to the estimated labour cost of working proprietors and family workers not receiving a fixed pay.
3. Depreciation: this is the loss in value of capital assets (machinery, buildings, transport equipment, etc) used up in the production process.
4. Gross operating surplus: this is the remaining value added after deducting all the above categories of income and comprises imputed on own capital, profits and other entrepreneurial income.

A. ECONOMY AND FINANCE

A.2. Public Finance

SCOPE

This section provides summarized information on the Government Finance Statistics.

COVERAGE

The data presented, cover the period 2000-2009.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The main sources of information for the data on public revenue and expenditure are the Financial Report published by the Treasury Department, the final audited accounts of the Local Authorities (municipalities, community boards), the final accounts of the Social Security Funds and the final accounts of semi-government organizations classified within the sector of General Government (Cyprus Sport Organization, Cyprus Theatrical Organization, Cyprus Tourism Organization, University of Cyprus and School Comities).

CLASSIFICATION SYSTEM USED

The classification for the presentation of public finances is based on the E.S.A 95 accounting system.

A. ECONOMY AND FINANCE

A.3. Balance of Payments

SCOPE

This section presents data on the balance of payments, which reflects transactions in goods and services, flows of income, current transfers, and capital and financial transactions between residents of Cyprus and residents of other countries.

COVERAGE

The data refer to balance of payments transactions of residents in the government-controlled area only, given the Turkish invasion and occupation of part of Cyprus in July/August 1974.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The data presented are compiled by the Central Bank of Cyprus since its establishment in 1962. Prior to 1962 similar data were presented in the Economic Review published by the Department of Statistics and Research.

CLASSIFICATION SYSTEM USED

As of 1995, balance of payments statistics are being produced on the basis of the fifth edition of the Balance of Payments Manual of the International Monetary Fund (BPM5). Furthermore, since 2002, the BPM5 definition of residency has been adopted (for data concerning 1995 onwards only). In accordance with the new definition, natural persons are considered to be residents when they reside (or intend to reside) for more than a year in a country, while legal entities are considered to be residents of a country when they have a physical presence in that country (i.e., operating through own premises such as own office).

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

For additional information on balance of payments statistics, reference may be made to the webpage of the Central Bank of Cyprus ([www. Centralbank.gov.cy](http://www.Centralbank.gov.cy)) and to its Annual Report.

A. ECONOMY AND FINANCE

A.4. Money and Banking

SCOPE

This section provides data on deposits and loans of non-MFIs held with MFIs of Domestic Residents, Other Euro Area Residents and Residents of rest of the world, foreign exchange rates and interest rates on euro-denominated deposits and euro-denominated loans, by euro area residents

COVERAGE

The data shown for the years 1960 up to mid-1974 cover the whole Cyprus, while after mid-1974 they refer to the Government controlled areas only.

SOURCE OF DATA AND CHRONOLOGY OF SERIES

The data presented in this section pertaining to the Banking Sector are compiled by the Central Bank of Cyprus. Most of the data on co-operative societies were obtained from the Co-operative Societies Supervision and Development Authority.

CLASSIFICATION SYSTEM USED

The data on Banking are classified according to the International Monetary Fund methodology for Monetary and Financial Statistics.

DEFINITIONS OF TERMS USED

MFIs (Monetary Financial Institutions) are central banks, resident credit institutions and other resident financial institutions whose business is to receive deposits and/or close substitutes for deposits from entries other than MFIs and, for their own account (at least in economic terms), to grant credits and/or make investment in securities.

OTHER RELEVANT PUBLICATIONS OR SOURCES OF INFORMATION

Further information relating to money and banking may be obtained from the monthly Monetary and Financial Statistics of the Central Bank of Cyprus and its annual report. The annual report of the Co-operative Societies Supervision and Development Authority provides detailed data for co-operative societies.

	April	1,36	4,25	3,69	2,50	4,09	0,73	2,61
	May	1,29	4,08	3,56	2,37	3,75	0,74	2,48
	June	1,29	4,06	3,88	2,37	3,63	0,74	2,71
	July	1,25	4,06	3,80	2,34	3,77	0,69	2,78
	August	1,26	4,05	3,96	2,37	3,57	0,66	2,91
	September	1,27	4,11	4,26	2,38	3,59	0,62	2,51
	October	1,24	4,15	3,97	2,32	3,47	0,60	2,86
	November	1,24	4,11	3,90	2,32	3,49	0,62	2,93
	December	1,21	4,13	4,56	2,38	3,60	0,53	2,86
2010	January	1,19	4,15	3,97	2,40	3,45	0,52	3,11
	February	1,19	4,00	4,06	2,26	3,45	0,56	3,09
	March	1,16	3,95	3,88	2,16	3,37	0,49	2,95
	April	1,13	3,87	3,82	2,27	3,37	0,53	3,22
	May	1,13	3,88	3,96	2,27	3,36	0,50	3,13
	June	1,12	3,87	4,02	2,31	3,20	0,51	3,17
	July	1,13	3,92	4,01	2,36	3,36	0,55	3,33

Notes: - The data refer to interest rates applied by MFIs to deposits denominated in euro vis-à-vis households and non-financial corporations resident in the euro area member states.

1. MFI sector excluding the CBC.

2. Including non-profit institutions serving households.

3. For this instrument category, new business and outstanding amounts coincide i.e. they refer to end-of-period.

4. For this instrument category, households and non-financial corporations are merged and allocated to the household sector, since the outstanding amounts of non-financial corporations are negligible compared with those of the household sector.

TABLE A.4.4b. INTEREST RATES¹ (Loans), 2008-2010

Year / Month		Loans to households ²						Loans to non-financial corporations

- B.3. Wholesale Price Index

B. PRICES AND INFLATION

B.1. Consumer Price Index

B.2. Harmonised Consumer Price Index

B.3. Wholesale Price Index

SCOPE

This section provides basic data on prices, covering consumer price index, cost of living allowance, harmonised consumer price index and wholesale price index.

COVERAGE

As from mid-1974 onwards all data refer to the Government controlled area of the country. For previous years data extend to the whole country.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The first retail price index was initiated in August 1939 and was known as the Cost of Living Index. In 1950, this index was replaced by the present Consumer Price Index. It has been reweighted and rebased several times, namely in 1957, 1967, 1973, 1976/77, 1981, 1986, 1992, 1998 and 2005. The Cost of Living Allowance was first introduced in July 1941. This was known as war bonus and initially was granted to civil servants only. As from 1950, the war bonus was replaced by the present cost of living allowance which gradually was expanded to cover nearly all employees and workers. The weights and selected items in the retail price index are derived from household expenditure surveys which are conducted about every five years, the first systematic one was in 1966. Details on the breakdown of the retail price index are available as from 1950.

The Wholesale Price Index, was first introduced in 1972 and reweighted and rebased in 1982 and in 1990. The weights and selected commodities are derived from the sales of the wholesale trade activity based on various economic surveys conducted in 1968 and on the Censuses of Wholesale and Retail Trade carried out in 1982 and 1989.

The Harmonised Consumer Price Index is compiled by all Member States of the EU under common methodology and regulations for achieving a comparable index of consumer prices. The methodology of the computation of the index is similar to that of the national Consumer Price Index but with two differences, namely that the imputed rents and the motor vehicle circulation licence charges are not taken into account. In addition, for the computation of the weights the Harmonised Consumer Price Index takes into account the expenditure of tourists in Cyprus while the national Consumer Price Index is based only on the expenditure of households residing in Cyprus.

CLASSIFICATION SYSTEMS USED

The present Consumer Price Index is classified in the following main groups: Food, and non-alcoholic beverages, Alcoholic beverages and tobacco, Clothing and footwear, Housing, water, electricity and gas, Furnishings, household equipment and supplies, Health, Transport, Communication, Recreation and culture, Education, Restaurants and hotels and Miscellaneous goods and services. The scheme adopted for classifying the consumption expenditure for the derivation of the weights according to major groups and sub-groups of the index is basically the COICOP classification of household final consumption expenditure.

DEFINITIONS USED

Retail Prices refer to the actual prices paid by consumers.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

For additional data, reference may be made to the Methodology of the Consumer Price Index, the Wholesale Price Index Methodology and the Monthly Economic Indicators published by the Statistical Service. Information on the consumer price index is also available in the annual Labour Statistics report and the Official Government Gazette.

C. POPULATION AND SOCIAL CONDITIONS

C.1. Census years

C.2. Population

C.3. Demography

SCOPE

This section provides population estimates, vital and demographic statistics and rates which relate to births, deaths, marriages, divorces and migration.

COVERAGE

The data presented in this section are in three parts. The first part (Tables C.1.1 – C.1.6) refers to census years covering the whole population of the country until 1974 and the Government controlled area after 1974. The second part presents population figures. Tables (C.2.1 – C.2.2) give estimates of the total population both in the Government controlled area and the Turkish occupied area while the rest of tables refer to the Government controlled area only. Illegal settlers from Turkey are not included in the statistics. The third part (Tables C.3.1 – C.3.10) gives demographic indicators of fertility, mortality, nuptiality, divorces and migration in the Government controlled area.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

Population estimates are based on census figures which are updated annually to take account of the components of change, births, deaths and net migration. Censuses had been carried out since 1881 at decennial intervals up to 1931 and then in 1946, 1960, 1973, 1976, 1982, 1992 and 2001. The last four censuses (the Census of Households in 1976, the Census of Housing of 1982 and the Census of Population of 1992 and 2001) were conducted in the Government controlled area. Population estimates for the period 1993-2000 have been revised on the basis of the most recent results of the 2001 Census of Population.

Births and Deaths. Statistics of births are now based on registered events. Statistics of deaths up to 2004 were based on two sources of data, registrations of deaths and monthly reports by priests. Estimates were obtained through matching of individual events using the Chandrasekar -Deming method. As from 2005 death registration is almost complete, complemented with data provided by priests, without any additional estimation.

Marriages and Divorces. Information relating to marriages is extracted from the Registers of the six ecclesiastical districts of the Cyprus Orthodox Church and of the Armenian, Maronite and Catholic churches. For civil marriages data are supplied by the Ministry of Interior. Data on divorces were obtained from the Ecclesiastical Courts of the Cyprus Orthodox Church up to 1991, the Supreme Court up to 1998 and District Courts up to 2000. Since 1991 data on divorces are obtained from Family Courts.

DEFINITIONS OF TERMS USED

De jure population comprises all the persons who have their usual residence in Cyprus. This concept was used in censuses and population estimates after 1960.

De facto population comprises all the persons who were actually present in the country at a given time. This concept had been applied during all population censuses up to 1960.

Urban population comprises all persons living in urbanized areas. In Cyprus there are six urban areas comprising the capitals of the six administrative districts. Up to 1960 only the urban area of Lefkosia included municipality and suburbs. In 1973 Lemesos suburbs were added to the Lemesos urban area. In

the 1982 Housing Census, the urban population, in the Government controlled area covered in addition to the towns proper and suburbs the greater urban areas. As from 1989 the urban areas comprise the areas covered by the Local Town Plans as follows:

- Lefkosia:** the municipalities of: Lefkosia, Agios Dometios, Egkomi, Strovolos, Aglantzia, Lakatameia, Latsia and the communities of Anthoupoli Refugee housing estate and Geri.
- Larnaka:** the municipalities of: Larnaka, Aradippou, the communities of Livadia, Dromo-laxia, Meneou and the coastal zone of Oroklini and Pyla and part of Kalochorio.
- Lemesos:** the municipalities of: Lemesos, Kato Polemidhia, Mesa Geitonia, Agios Athanasios, Germasogeia, the communities of Pano Polemidia and Ypsonas, the coastal area of Mouttagiaka, Agios Tychonas, Parekklesia, Monagrouli, Moni, Pyrgos and part of Tserkezoi.
- Pafos:** the municipalities of: Pafos, and Geroskipou, the communities of Chlorakas, Agia Marinouda, Koloni, Acheleia, Konia, Empa, Lempa, Kisonerga, Tala, Trimithousa, Mesogi and Mesa Chorio, parts of Timi, Agia Varvara, Marathounta, Koili and of Peyeia municipality.

Crude birth, death, marriage or divorce rate is the number of births, deaths, marriages or divorces per thousand population.

Sex ratio at birth gives the number of male births per thousand female births.

General fertility rate is the number of births per thousand women in the reproductive age-groups, 15-49.

Age specific fertility rate is the number of births occurring to women of given age-group during a year divided by the total number of women in that age-group.

Total fertility rate gives the number of children a woman would have if she experienced the age specific fertility rates of a given year and she lived until the end of her reproductive life i.e. until her 50th birthday.

Gross reproduction rate shows the number of daughters a woman would have if she experienced the age specific fertility rates of a given year and she lived until the end of her reproductive life.

Net reproduction rate shows the number of daughters a woman would have if she experienced the fertility and mortality of a given period.

Life expectancy at birth indicates the number of years a newborn baby is expected to live if mortality in the various age-groups remains at the level of the period on which the life expectancy was computed.

Infant mortality rate is the number of deaths under one year old per thousand live births.

OTHER RELEVANT PUBLICATIONS & SOURCES OF INFORMATION

Relevant publications for population and demographic data are the Census reports and the annual Demographic Reports published since 1963, preceded by the "Vital and Migration Statistics" issued annually during the period 1955-1962. Additional information may be found in the "Demographic Survey 1980/81", "Demographic Trends in Cyprus", "Mortality in Cyprus" and other research papers and reports issued from time to time by the Department of Statistics and Research. The book on "Population and Human Resources Development in Cyprus" provides a synthesis of research and other activities related to population issues. Population projections are given in a report entitled "Population and Household projections, 2002-2052". Population policy issues can be found in the various Development Plans published by the Planning Bureau as well as occasional papers prepared by the Statistical Service.

TABLE C.1.1. POPULATION, CENSUS YEARS

Census Date	Population			Numerical Increase			Annual Rate of Growth (%)

1921, 24th April	310.715	155.965	154.750	36.607	16.582	20.025	1,3
1931, 27th April	347.959	172.754	175.205	37.244	16.789	20.455	1,1
1946, 10th November	450.114	222.510	227.604	102.155	49.756	52.399	1,7
1960, 11th December	573.566	281.983	291.583	123.452	59.473	63.979	1,7
1973, 1st April	631.778	312.566	319.212	58.212	30.583	27.629	0,8
1976, 30th September ¹	497.879	248.711	249.168				
1982, 1st October ¹	522.845	259.938	262.907	24.966	11.227	13.739	0,8
1992, 1st October ¹	615.013	306.383	308.630	92.168	46.445	45.723	1,6
2001, 1st October ¹	703.529	345.322	358.207	88.516	38.942	49.574	1,5

Notes: - Up to 1960 the data refer to the de facto population, but thereafter to the de jure.

- The annual rate of growth of population is based on the formula $P_t = P_o (1+r)^t$ where P_o is the population at the beginning of the period, t is the period of time in years, r is the average annual rate of increase and P_t is the population at the end of the period.

1. Censuses after 1974 refer to the Government controlled area. Figures have been adjusted for underenumeration as well as to include certain population groups not covered by the census.

2009	888,7	799,7	89,0	892,4	803,2	89,2

Notes: - Estimates of the number of Turkish Cypriots have been revised from 1974 onwards. These estimates are the result of population projections based on the age and sex structure of the Turkish Cypriot community as at Census 1960 and with assumptions of fertility and mortality similar to the rest of the Cyprus population. With regard to the migration of Turkish Cypriots after 1974, migration assumptions are based on figures obtained from Turkish Cypriot Sources.

- Illegal settlers from Turkey in the Turkish occupied area are not included in the total population figures as they are not part of the Cyprus population. Their number is estimated in the range of 160-170 thousands.

TABLE C.3.2. FERTILITY RATES, 1974-2009

Year	Age specific fertility rates (per thousand)							Total fertility rate	Reproduction rate		General fertility rate
	15-19	20-24	25-29	30-34	35-39	40-44	45-49		Gross	Net	
1974	95	674	782	388	140	36	3	2,12	1,03	0,99	65,83
1975	101	667	718	362	134	31	4	2,01	0,99	0,94	63,45
1980	178	847	848	425	137	20	2	2,46	1,17	1,12	79,53
1985	172	798	768	456	164	25	1	2,38	1,13	1,11	76,12
1990	172	746	845	447	173	35	2	2,42	1,18	1,16	73,54
1991	153	723	807	443	170	32	2	2,33	1,11	1,09	70,33
1992	161	747	835	510	194	38	3	2,49	1,22	1,20	74,63
1993	119	662	749	491	189	32	3	2,24	1,10	1,08	67,04
1994	104	610	759	477	188	33	2	2,17	1,06	1,05	64,46
1995	88	569	682	459	194	39	3	2,03	1,00	0,98	59,82
1996	77	512	703	458	176	33	3	1,96	0,96	0,95	57,28
1997	65	477	680	428	184	29	3	1,87	0,91	0,90	54,06
1998	61	445	629	426	169	33	2	1,76	0,86	0,85	50,81
1999	58	387	601	420	169	34	4	1,67	0,82	0,80	47,89
2000	50	360	602	433	159	36	3	1,64	0,80	0,79	46,91
2001	40	339	576	406	173	30	3	1,57	0,76	0,75	44,74
2002	37	295	547	413	165	34	3	1,49	0,73	0,72	42,54
2003	23	258	542	437	189	45	4	1,50	0,73	0,73	42,72
2004	29	239	549	441	187	39	4	1,49	0,72	0,72	42,58
2005	23	202	503	452	192	39	5	1,42	0,69	0,68	40,98
2006	44	246	522	424	167	31	3	1,44	0,70	0,69	42,46
2007	20	171	450	474	224	40	5	1,39	0,67	0,66	41,11
2008	25	178	467	493	244	48	7	1,46	0,72	0,71	44,05
2009	23	180	458	527	255	58	8	1,51	0,74	0,74	46,08

Notes: - Rates are based on average population estimates and on the female population aged 15-49 years.
- As from 1993 the TFR is calculated as a summation of the age specific fertility rate of each single age

TABLE C.3.3. LIVE BIRTHS BY BIRTH ORDER AND MEAN AGE OF MOTHER AT CHILD BIRTH, 1974-2009

Year	Live birth order												Mean age at birth of first child	Mean age at birth of any child

Notes: - Figures, as from 1982, include also marriages among the Catholic Church.

- Since 1990 Family Courts have been established.

- Marriages of residents of Cyprus are shown in parenthesis.

TABLE C.3.8. MEAN AGE AT MARRIAGE BY TYPE OF MARRIAGE, 1974-2009

Year	Total marriages		Ecclesiastical		Civil		Total marriages		Ecclesiastical		Civil	
	Groom	Bride	Groom	Bride	Groom	Bride	Groom	Bride	Groom	Bride	Groom	Bride
	(a) Total marriages						(b) 1st marriage only

Note: As from 2006, persons travelling with the respondents are included in the analysis. Information on their sex and age was collected but no information on other variables.
As a result, there is a significant number of cases for which other information was not stated.

C. POPULATION AND SOCIAL CONDITIONS

C.4. Crime

SCOPE

This section presents data on crimes and offences committed, persons proceeded against and convicted, juvenile delinquency and prison statistics.

COVERAGE

The data presented as of mid-1974 refer to the Government controlled area only, while for previous years these extend to the country as a whole.

Offences reported to the Police refer to serious offences only. The rest of the analysis relates to all offences both serious and minor.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The statistics presented are based on data from three sources: the Police, the Courts and the Prison.

The series on offences reported to the Police was initiated in 1976 and is based on individual returns of serious offences known to the Police during a year.

Court statistics are based on annual returns of criminal proceedings submitted at the end of the year by the District Courts, Assize Courts and Martial Courts. These relate to occasions on which proceedings against a person are completed. Some of the data presented for adults date back to 1950.

The series on juvenile delinquency begins in 1978 when a new procedure for dealing with juveniles was introduced. It refers to juveniles involved in the commission of offences, irrespective of whether they are proceeded against.

Prison statistics are presented as of 1950 and relate to convicted prisoners (penal offenders and other).

CLASSIFICATION SYSTEMS USED

Two classifications of offences are used. The first divides offences into two broad categories of “serious” and “minor” according to gravity and is the one used by the Police. The second classifies all offences into eleven groups, following to a large extent the division of the Criminal Code into parts. New groups have been formed for offences not included in the Criminal Code and which could not be incorporated in the other groups. Furthermore, some offences which are thought to be of a particular criminological interest are shown as a separate group.

DEFINITIONS OF TERMS USED

Juvenile refers to a child or young person who is criminally responsible according to the Criminal Code and the Juvenile Offenders Law and may be between 10 and 15 years old, both limits included, (Amendment Law 15(I)/99). It should be noted that a person under the age of 12 is not criminally responsible for an act or an omission unless it can be proven that he/she had the capacity to know that

he/she ought not to commit the act or make the omission. Moreover, a male person under the age of 12 is presumed to be incapable of having carnal knowledge.

Adult refers to a person aged 16 years and over.

OTHER RELEVANT PUBLICATIONS & SOURCES OF INFORMATION

A general review of the crime trend with a brief analysis of adult and juvenile offenders as well as further information on criminal, judicial and prison statistics can be found in the report "Criminal Statistics" published annually by the Statistical Service since 1974.

TABLE C.4.1. SERIOUS OFFENCES¹ REPORTED TO THE POLICE, 1976-2008

Year	Against public order	Against lawful authority	Injurious to the public in general	Sexual offences	Against the person	Against property	Malicious injuries to property	Forgery, coining, counterfeiting, similar offences and criminal impersonation	Miscellaneous offences	Total

Death sentence ²	1	0	0	0	0	0	0	0	0	0
Bound over or otherwise dealt with	1.831	2.064	2.401	1.180	1.251	426	397	620	799	756
TOTAL	50.614	77.302	105.437	103.988	69.416	58.538	59.889	68.427	66.962	63.775

Notes: 1. Lambousa School which was non-operational as a result of the Turkish invasion and the occupation of its premises in Lapithos, became operational in 1979 after the construction of new premises in the Government controlled area. Its operation was suspended in early 1986.

2. The death sentence subsequently changed to life imprisonment.

Notes: - Data for the year 1974 from Keryneia, Ammochostos and Morfou, which were lost because of the Turkish invasion, are excluded.

- Based on data submitted by the Assize and District Courts of Lefkosa, Lemesos, Larnaka and Pafos.

1. The data refer to persons against whom criminal proceedings are completed.

2. The sentence of imprisonment includes death sentence and excludes suspended imprisonment.

Note: 1. Up to the year 2005 inclusive, this category referred to the age group 16-20. As of 2006, it refers to the age group 19-20.

C. POPULATION AND SOCIAL CONDITIONS

C.5. Education

SCOPE

This section presents statistics pertaining to education, mainly on the number of institutions, teachers, enrolments, finance of education and on students studying abroad.

COVERAGE

All data presented refer to Public and Private Schools.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

Data on enrolments are derived from the annual survey on education conducted by the Statistical Service as from the school year 1963/64. Prior to this, the relevant data are from the annual reports on education prepared by the Greek Communal Chamber.

Data on the finance of education extend as from 1965, the year the series was initiated.

Data on Cypriot students abroad are based on surveys carried out for the academic years 1970/71, 1974/75 to 1979/80 and 1981/82, thereafter until 1999/2000 the data are based on students' individual records kept by the Ministry of Education for administering foreign exchange remittances for studies abroad. As from academic year 2000/01 the data have been extracted from the applications of students for grants as submitted to the Ministry of Finance and approved.

CLASSIFICATION SYSTEMS USED

The levels and fields of education adopted in this report are based on the UNESCO International Standard Classification of Education (ISCED). The revised ISCED97 has been used as from the school-year 1999/2000.

DEFINITIONS OF TERMS USED

Pre-school and pre-primary refers to the initial stage of organised instruction that precedes primary education. It introduces pre-school children to a school-type environment providing education and/or day care. As from the school year 2004/05 the participation in pre-primary education is compulsory.

Primary refers to the level of compulsory education after pre-primary, providing universal basic education for six years.

Secondary refers to education at the second level providing 3 years of compulsory general education and a further 3 years specialization in the Lyceums of Optional Subjects (LEM), the Technical/Vocational Schools and as from the school year 1995/96 in the Unified Lyceum.

Tertiary refers to post-secondary education, awarding diplomas below first university degree level and also as from the academic year 1992/93 University degrees.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

For more detailed or additional data on education reference may be made to the annual report Statistics of Education published by the Statistical Service. Information on education planning can be found in the various development plans published by the Planning Bureau. Other information such as administrative policies, educational structure and curriculum development may also be obtained from the Ministry of Education.

	Payments not directly needed	425	294	840	81	898	0	0	0	2.538	
Payments for tutoring	0	30.551	33.715	2.569	44.397	82	2.160	0	113.474		
TOTAL	28.797	57.465	69.497	3.333	89.268	26.519	124.394	1.156	400.759		
Of which for cypriot students abroad ²		..	..	..	..	..	1.469	72.426	..	73.895	

Notes: 1. It includes the tuition fees of the Cypriot students abroad and payments for dormitories.

2. It includes expenditure of Cypriot students abroad to educational Institutions abroad for the tuition fees and for dormitories, as well as expenditure for school books, stationery and expenditure for tutoring.

3. The decrease of the amount at the Educational Institutions Abroad after 2003/04 is due to the decrease of the tuition fees of the Universities of United Kingdom for the Cypriot students, as a result of the accession of Cyprus to the E.U.

C. POPULATION AND SOCIAL CONDITIONS

C.6. Health

SCOPE

This section provides basic information on medical services offered by the public sector and on the general level of health and morbidity. Data are also provided on health expenditure, in-patients (discharges), surgical operations, out-patient attendances, bed occupancy rates, various health indicators and information on medical, nursing and paramedical personnel.

COVERAGE

The data presented are confined to the Government Health Services, owing to lack of data on the Private Sector. For the Private Sector data are available only on the number of doctors, dentists, clinics and beds by speciality. As from mid-1974 onwards all data refer to the Government controlled area of the country. For previous years data extend to the whole country.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

Statistical data are collected from all government medical institutions. Special statistical forms are distributed to these institutions and after completion, they are forwarded to the Statistical Service for compilation, tabulation and analysis of data.

Prior to 1980 data were available in aggregate form. Detailed data are available only after 1980.

CLASSIFICATION SYSTEMS USED

The International Classification of the World Health Organization is used for the coding of diseases and surgical operations.

Data on the diagnosis are coded according to the International Statistical Classification and Related Health Problems of the World Health Organization (Tenth Revision) at the three character categories. Statistics are tabulated according to the 21 chapters and the tabulation list for morbidity (298 diseases).

Surgical operations are coded according to the International Classification of Procedures in Medicine (Volume I) Surgical Procedures of the World Health Organization.

DEFINITIONS OF TERMS USED

In-patient is a person who has gone through the full admission procedure in a hospital, a "Clinic Case Note" has been made and remained at the hospital for treatment for at least one night. An infant born in hospital is not counted as a separate in-patient, unless treated as a "Special Care Baby".

Discharge is the conclusion of a period of in-patient care, irrespective of whether the patient returned home, was sent to another hospital, left or taken against medical advice or died.

Surgical operation is any therapeutic or major diagnostic procedure which involves the use of instruments or the manipulation of part of the body and generally takes place under operating theatre conditions.

Out-patient attendance is the visit of a patient to an out-patient clinic.

The Bed occupancy rate represents patient days in a given year expressed as a percentage of the total patient days which would have been obtained assuming that all beds were occupied during the given year.

OTHER RELEVANT PUBLICATIONS & SOURCES OF INFORMATION

For more detailed or additional information on health statistics reference may be made to the annual report Health and Hospital Statistics (prior to 1984 there were two reports entitled Health Statistics and Hospital Statistics), the Census of Doctors, Dentists and Clinics, 2000, published by the Statistical Service, as well as the annual reports of the Department of Medical and Public Health Services.

A household health survey was conducted in late 1989 which provides information on the general health status of the population on the prevalence of certain diseases, the utilization of the health services of both the private and public sector and the expenditure of households on health services. The results of the 1989 Health Survey were published in separate reports as follows: Health Survey, 1989; Health Status, Utilization and Expenditure on Health Services in Cyprus, 1989; Smoking in Cyprus 1989; Medicine Taking in Cyprus 1989, and Women, Employment and Health.

In the last quarter of 2003, another household health survey was conducted on a sample of 1.972 households. The purpose of the survey was to obtain information on the health status of the population, on long-standing illnesses and health problems, the use of health services from the public and private sector, smoking, alcohol consumption etc. The results are published in the report entitled Health Survey 2003.

In the last quarter of 2008, the latest household health survey has been conducted on a sample of 2.957 households. It was the first survey to be conducted on a European scale with the use of a common questionnaire, leading to comparable results among European countries. The purpose of the survey was to study the health status of the population in Cyprus and the use of health services. In particular, the survey covered topics such as chronic health problems, physical and emotional status, use of health services, use of medications, prevention, diet and daily habits, i.e. smoking, alcohol consumption, physical activity etc. The results will be published before the end of year 2010.

TABLE C.6.1. HEALTH INDICATORS, 1960-2008

Indicator	1960	1970	1980	1990	2000	2004	2005	2006	2007	2008

**TABLE C.6.9. PATIENTS DISCHARGED FROM GOVERNMENT GENERAL HOSPITALS
BY DISEASE CATEGORY, 1997-2008**

ICD-10		Disease category	1997	2000	2004	2005	2006	2007	2008
Category	List of three-character categories								
I	A00-B99	Certain infectious and parasitic diseases	685	872	1.177	1.086	1.404	1.690	2.331
II	C00-D48	Neoplasms	3.082	3.035	3.460	3.616	3.551	4.570	4.006
III	D50-D89	Diseases of the blood and blood-forming organs and certain disorders involving the immune mechanism	381	494	828	768	856	1.135	918
IV	E00-E90	Endocrine, nutritional and metabolic diseases	691	1.124	1.285	1.184	1.200	1.752	1.420
V	F00-F99	Mental and behavioural disorders	506	532	47 ¹	55 ¹	95 ¹	433 ¹	348 ¹
VI	G00-G99	Diseases of the nervous system	528	612	627	708	649	983	900
VII	H00-H59	Diseases of the eye and adnexa	1.674	1.637	1.781	1.974	1.985	2.308	2.191
VIII	H60-H95	Diseases of the ear and mastoid process	195	164	185	219	271	263	263
IX	I00 - I99	Diseases of the circulatory system	3.925	5.413	5.736	5.702	5.227	6.772	5.083
X	J00 - J99	Diseases of the respiratory system	4.718	4.898	4.947	5.096	5.103	6.165	4.608
XI	K00-K93	Diseases of the digestive system	4.407	5.616	5.094	5.206	5.463	6.065	5.200
XII	L00-L99	Diseases of the skin and subcutaneous tissue	272	447	604	592	574	728	715
XIII	M00-M99	Diseases of the musculoskeletal system and connective tissue	1.243	1.363	1.271	1.271	1.334	1.610	1.619
XIV	N00-N99	Diseases of the genitourinary system	2.995	3.356	3.566	3.710	3.587	4.053	3.762
XV	000 - 099	Pregnancy, childbirth and the puerperium	4.113	3.994	3.263	3.461	3.320	3.384	3.957
XVI	P00-P96	Certain conditions originating in the perinatal period	865	1.255	1.408	1.384	1.644	1.486	1.600
XVII	Q00-Q99	Congenital malformations, deformations and chromosomal abnormalities	260	314	264	235	226	210	231
XVIII	R00-R99	Symptoms, signs and abnormal clinical and laboratory findings, not elsewhere classified	3.139	4.365	4.908	5.055	5.870	6.589	5.778
XIX	S00-T98	Injury, poisoning and certain other consequences of external causes	7.065	7.808	8.135	7.407	7.486	9.205	8.083
XXI	Z00-Z99	Factors influencing health status and contact with health services	1.317	1.997	2.865	3.153	2.739	2.563	2.564
		Not stated			1.053	1.042	890	1.285	300
ALL DISEASE CATEGORIES			42.061	49.296	52.504	52.924	53.474	63.249	55.877

Note: 1. The disease category "Mental and behavioural disorders" has much smaller numbers compared to previous years because the data for psychiatric patients were not sent by all hospitals.

**TABLE C.6.10. PATIENTS OPERATED AND DISCHARGED FROM GOVERNMENT GENERAL HOSPITALS
BY OPERATION CATEGORY, 1985-2008**

(Reported Cases)

Notes: 1. Data refer to the number of therapies performed on out-patients. Due to a change in the method of count of therapies, the data are not comparable to previous years.

2. Includes Mobile Dental Units.

3. Includes Maxillofacial and Oral Surgery attendances from 1995 onwards.

TABLE C.6.12. OUT-PATIENT ATTENDANCES BY DISEASE CATEGORY, 2000-2008

(all Government medical Institutions)

ICD-10		Disease category	2000	2004	2005	2006	2007	2008
Cate- gory	List of three- character categories							
I	A00-B99	Certain infectious and parasitic diseases	45.689	65.688	59.742	48.440	50.239	47.833
II	C00-D48	Neoplasms	30.209	37.271	35.324	36.136	41.029	43.173
III	D50-D89	Diseases of the blood and blood-forming organs and certain disorders involving the immune mechanism	13.213	12.651	19.384	13.825	13.799	17.820
IV	E00-E90	Endocrine, nutritional and metabolic diseases	104.936	188.270	223.619	218.274	255.264	259.331
V	F00-F99	Mental and behavioural disorders	75.080	67.413	62.863	64.564	63.487	67.658
VI	G00-G99	Diseases of the nervous system	16.386	22.946	22.550	23.112	25.736	25.658
VII	H00-H59	Diseases of the eye and adnexa	49.531	38.880	37.929	35.086	30.388	37.900
VIII	H60-H95	Diseases of the ear and mastoid process	19.459	14.436	14.434	18.119	17.764	16.642
IX	I00 - I99	Diseases of the circulatory system	405.480	394.704	384.653	419.594	435.164	446.380
X	J00 - J99	Diseases of the respiratory system	171.851	170.265	173.293	163.099	163.548	167.249
XI	K00-K93	Diseases of the digestive system	48.066	39.804	42.401	43.211	33.150	36.713
XII	L00-L99	Diseases of the skin and subcutaneous tissue	56.653	40.076	39.981	41.452	39.529	43.818
XIII	M00-M99	Diseases of the musculoskeletal system and connective tissue	122.126	166.649	193.545	173.007	182.408	191.230
XIV	N00-N99	Diseases of the genitourinary system	54.049	61.469	57.956	56.342	64.801	67.493
XV	000 - 099	Pregnancy, childbirth and the puerperium	728	280	309	342	91	179
XVI	P00-P96	Certain conditions originating in the perinatal period	522	612	210	969	930	567
XVII	Q00-Q99	Congenital malformations, deformations and chromosomal abnormalities	118	859	1.144	684	1.164	1.094
XVIII	R00-R99	Symptoms, signs and abnormal clinical and laboratory findings, not elsewhere classified	24.223	25.408	32.687	25.744	24.461	35.888
XIX	S00-T98	Injury, poisoning and certain other consequences of external causes	19.138	17.931	25.224	24.045	25.846	21.858
XXI	Z00-Z99	Factors influencing health status and contact with health services	102.909	98.319	99.293	103.415	107.156	112.996
ALL DISEASE CATEGORIES			1.360.366	1.463.931	1.526.541	1.509.460	1.575.954	1.641.480

Note: - Figures exclude neurosurgery, endocrinology, plastic surgery, casualty, dental, physiotherapy and dressings and injections.

C. POPULATION AND SOCIAL CONDITIONS

C.7. Welfare

SCOPE

This section presents statistics related to welfare. It provides data on beneficiaries of public assistance.

COVERAGE

Data on social welfare refer to the Government controlled area.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The principal source for data on social welfare is the Annual Report of the Department of Welfare Services. Comparable data on social welfare are available since 1980.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

Detailed information on Welfare is available in the Annual Report of the Ministry of Labour and Social Insurance. The Annual Report of the Department of Welfare Services provides detailed information on legislation, welfare benefits etc.

TABLE C.7.1. DISPLACED BENEFICIARIES OF PUBLIC ASSISTANCE BY NATURE OF DISTRESS, 1980-2009

(Number of cases)

Year	Old Age	Illness/ Disability	Unemployment	Social problem	Parents in occupied areas	Other	Total
1980	1.636	1.143	13	74	...	515	3.381

SCOPE

This section provides data on the economically active population, the distribution of employment, government labour force, unemployment, placements, labour disputes and industrial accidents, rates of pay and indices of earnings in money and real terms.

COVERAGE

The data presented in this report as from mid-1974 onwards refer only to the Government controlled areas. Data for previous years refer to the whole island.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The data presented in this section were based on the Census of Population carried out in 1960, the Registration of all non-agricultural establishments conducted in 1967, 1972, 1976, 1981, 1985, 1989, 1995, 2000 and 2005 and the Employment Surveys carried out on a quarterly basis. Results for specific industries covered through other annual surveys such as the industrial production survey, the services survey and the trade survey were also utilized to arrive at the final estimate on employment in the respective industries. In addition the Labour Force Survey launched in the year 2000 is a basic source for recent labour data.

Registered Unemployment and vacancies filled are based on monthly returns from the District Labour Offices of the Ministry of Labour and Social Insurance. Labour disputes and industrial accidents are also taken from the Ministry of Labour and Social Insurance, every year.

Statistics on wages, salaries and hours of work refer to October of each year and are based on an annual survey conducted by personal interviews.

CLASSIFICATION SYSTEMS USED

Establishments covered by the surveys and censuses were classified according to their major kind of economic activity, based on the principal category of goods produced or services rendered. The 1968 version of the ISIC (International Standard Industrial Classification of All Economic Activities) has been used in classifying data in this report and for some recent series the Statistical Classification of economic activities NACE Rev. 1.1 of the European Union has been used. As from 2008, the classification used for the Labour Force Survey data is NACE Rev. 2.

Prior to 1976 all official published statistics on economic activities were classified according to the 1958 version of the ISIC.

Classification of occupations was based on the International Standard Classification of Occupations ISCO 1968 version for data up to 1991, and on the 1988 version of ISCO for 1992 and subsequent years.

DEFINITIONS USED

Economically Active Population. It is the total gainfully employed persons, the unemployed and the National Guard.

Labour Force. It is the total number of the employed and unemployed persons aged 15 years and over.

Employed. It refers to the persons aged 15 years and over who during the reference week worked for at least one hour, as well as persons who had a job but were temporarily absent from work.

Gainfully Employed. It refers to the number of persons who work in or for the establishment including working proprietors and working partners, unpaid family workers and persons on short-term or paid leave (such as sick leave, casual leave or paid vacation).

Government Labour Force. It is the number of persons employed by the Government excluding military personnel. It includes permanent and regular employees, casual administrative, clerical and technical employees (daily-paid and on contract), workers and craftsmen both regular and casual.

Unemployed. It refers to the persons aged 15 years and over who comply to the following standards: Neither worked nor had a job from which they were temporarily absent during the reference week, had actively sought for work, i.e. had taken specific steps during the previous 4 weeks to find work, were available to start work within the 2 weeks following the reference week and or, neither worked nor had a job from which they were temporarily absent, but found a job which will start within a period of at most 3 months and were available to start work within the 2 weeks following the reference week.

Registered Unemployment. Registered Unemployment is defined as the number of persons registered as unemployed and looking for work at the District Labour Offices on the last day of each month. It includes those persons who receive unemployment benefit from the Social Insurance Scheme as well as those not entitled to any benefit.

Vacancies. They refer to vacancies filled (placements) by the District Labour Offices.

Labour Force participation rate. It is the number of persons in the Labour Force for any group, expressed as a percentage of the total population in the same group.

Employment rate. It is the number of employed persons for any group expressed as a percentage of the total population in the same group.

Unemployment rate. It is the number of unemployed persons of any group expressed as a percentage of the labour force in the same group.

Rates of Pay. These include the basic rate of pay (per hour/week/month) for normal hours worked (i.e. excluding overtime); cost of living, family, rent and other allowances; premium pay for shiftwork, etc. and other regular bonuses and gratuities; earnings in kind; the weekly/monthly portion, (1/52 in the case of wage-earners and 1/12 in the case of salary-earners), of year-end and similar bonuses (e.g. 53rd, 54th, etc. weeks, or 13th, 14th, etc. salaries), profit-sharing bonuses, and other bonuses and gratuities paid irregularly during the year. Reimbursements of travelling, subsistence, and similar expenses are excluded. The data are given gross, before any deductions for income tax, social insurance, medical, provident and other funds.

Normal hourly wage-rate. It is the hourly rate of pay for a normal hour of work, excluding overtime. The average normal hourly wage-rate for a group of employees was obtained by dividing the sum of their normal weekly wages by the sum of their individual normal weekly hours.

Normal weekly wages. These refer to the gross weekly rates of pay received for normal hours worked, excluding overtime. The average (mean) weekly wages for a group of employees was obtained by dividing the sum of their individual weekly wages by the number of employees.

Normal monthly salary. It refers to the gross monthly salary, excluding overtime earnings. The average monthly salary for a group of employees was calculated by dividing the sum of their monthly salaries by the number of employees.

Weekly/monthly earnings. They refer to the total gross weekly/monthly earnings (normal plus overtime earnings) for actual hours worked, including overtime.

Mean rate of pay. This is obtained by dividing the sum of all the individual rates of pay by the total number of employees.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

For more detailed or additional data on the labour force by employment status and occupational or geographic breakdown, information can be obtained from the Registration of Establishments reports which are published every 4-5 years. Such reports were issued for 1967, 1972, 1976, 1981, 1985, 1989, 1995, 2000 and 2005. For more data on the Registered unemployed, vacancies notified and filled and government labour force, information is published annually in the Labour Statistics Report. As from 1985 this report includes detailed tabulations on the wages and salaries statistics which prior to 1985 were published in a separate report entitled "Statistics of Wages, Salaries and Hours of Work". The annual report of the Ministry of Labour and Social Insurance provides detailed information on developments and legislation in the labour market. In addition, the Labour Force Survey Reports issued since 2000 provide a rich analysis of Labour Statistics.

TABLE D.1.1.1. LABOUR FORCE PARTICIPATION RATES BY AGE GROUP AND SEX, 2000-2009

2002	172	196	106	29	489	678	...	1.670
2003	205	239	112	37	628	865	...	2.086

As from year 2004 classification of "Causes", according to the data received from the Department of Labour Inspection, has been changed as follows:

Year	Buildings / Structures	Machinery / Equipment	Transportation Means	Materials / Substances	Other Causes	Accidents on the way to & from work	TOTAL
2004	750	596	208	528	90	...	2.172
2005	757	550	233	566	69	...	2.175
2006	786	503	211	546	61	...	2.107
2007	785	486	191	568	75	...	2.105
2008	877	536	221	631	102	...	2.367
2009	862	504	240	509	112	...	2.227

Note: - For 1974 and 1982-2001 fatal accidents are not included.

1970	2.810	1.633	1.177	1,0
1974	27.069	18.243	8.826	10,0
Jan.-July	4.118	2.278	1.840	1,5
Aug.-Dec.	59.200	40.593	18.607	29,6
1975	33.543	23.721	9.822	16,9
1980	4.344	2.408	1.936	2,0
1985	8.302	4.614	3.688	3,3
1990	5.068	2.464	2.604	1,8
1995	7.870	3.557	4.313	2,6
1996	9.426	4.294	5.132	3,1
1997	10.424	5.008	5.416	3,3
1998	10.412	5.423	4.989	3,3
1999	11.375	5.580	5.795	3,5
2000	15.354	5.697	9.657	5,0
2001	12.842	4.750	8.092	4,0
2002	10.756	4.726	6.030	3,3
2003	14.109	7.127	6.983	4,1
2004	16.685	6.961	9.724	4,7
2005	19.492	9.048	10.445	5,3
2006	17.004	8.044	8.960	4,5
2007	15.428	7.348	8.080	3,9
2008	14.523	6.966	7.557	3,7
2009	21.325	11.409	9.916	5,3

Note: - Data refer to the registered unemployed except for the period August 1974-1976, for which figures on unemployment include persons registered at the District Labour Offices as well as unemployed persons not registered at these Offices. For other years unregistered unemployment was insignificant.

- Until 1999 the number of unemployed refers to the registered unemployed, whereas as of 2000 the source of the data is the Labour Force Survey.

Notes: - Data refer to October of each year.

- Rates of pay include the basic rate of pay for normal hours worked (i.e.,excluding overtime), cost-of-living, family, rent , and other regular allowances and bonuses, payments in kind and the weekly/monthly portion of 53rd, 54th, etc. weeks, or 13th, 14th etc., salaries, and other bonuses and gratuities paid irregularly during the year. The data are given gross, before any deductions for income tax, social insurance, medical, provident and other funds.

D. LABOUR
D.5. Social Insurance

SCOPE

This section presents statistics related to social insurance. It provides data on persons insured, insurance contributions, claims and payments, pensioners and pensions.

COVERAGE

Data on social insurance cover all contributions of the social insurance fund including Turkish Cypriots.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The principal source for data on Social Insurance is the Annual Report of the Ministry of Labour and Social Insurance.

The data on Social Insurance are available from 1957 when the Social Insurance Scheme came in operation.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

Detailed information on Social Insurance is available from the annual Report of the Ministry of Labour and Social Insurance.

E. EXTERNAL TRADE

E. EXTERNAL TRADE

SCOPE

This section gives a comprehensive account of Cyprus External Trade in goods. Analysis is given of the value of imports and exports by H.S. Commodity Section and by main partner country.

External trade statistics cover both extra and intra-EU trade.

COVERAGE

The data for 1974 onwards refer only to merchandise imports and exports from ports and airports in the Government controlled areas.

DATA SOURCES

Since the accession of Cyprus to EU in May 2004, major changes were brought into trade statistics data. Trade statistics with EU Member States and trade statistics with non-EU countries are compiled from two separate sources. This was the consequence of the abolition of custom formalities between EU Member States, which had served as the traditional source of trade statistics, and the introduction of a new data collection system called Intrastat. Customs declarations, the traditional source of almost all trade statistics, were no longer required for most movements of goods within the EU. A new EU wide system for collecting intra-EU trade statistics, Intrastat, was introduced in May 2004 for the compilation of statistics with Member States.

The introduction of Intrastat as from May 2004 involved a methodological break with the past. Intra-EU trade statistics are compiled using the information extracted from two sources: The first is the Intrastat system in which the providers of statistical information submit detailed monthly returns giving information on arrivals and/or dispatches with EU countries to national responsible Authority. The second source for the collection of Intra-EU trade statistics is the VAT return, on which all traders are required to record the total value of goods imported from and exported to other EU Member States. The information provided on the VAT returns is necessary for the collection of Intra- EU trade for those traders below the Intrastat thresholds, for maintaining the Intrastat trader's register and for identifying those traders exceeding the thresholds, who are eligible to make the detailed Intrastat return. The Legal background of Intra-EU trade statistics is the 2004 National Intrastat Law (L38 (I)/2004) relating to the statistics of the trading of goods between Member States and the 2004 National Law (Amended) (L135(I)/2004), as well as the relevant Community legislation.

Regarding the data sources for trade with non-EU countries, these are "Theseas" system, the customs computerized system for imports and the Single Administrative Document (SAD) in paper form for exports.

CLASSIFICATION SYSTEM USED

Product classification

With regards to the commodity classification used in this publication, this is based on the Harmonised Commodity Description and Coding System (H.S.) or more simply the Harmonised System or H.S. (6 digits level) and Combined Nomenclature (C.N.) which includes almost 10 000 eight-digit codes.

The Harmonised System is a legal instrument and was adopted by the Customs Co-operation Council (now the World Customs Organisation) in June 1983 and the International Convention on the Harmonised System (H.S. Convention) entered into force on the 1st January 1988.

According to the H.S. Convention, the H.S. means the Nomenclature comprising the headings and the subheadings and their related numerical codes, the Section, Chapter and Subheadings notes and the General Rules for the interpretation of the Harmonised System.

The shape of the H.S. and the C.N. classifications is illustrated in the following table:

Nomenclature	Levels of breakdown	Code	Number
Harmonised System (H.S.)	Section	One digit	21
	Chapter	Two digits	99
	Heading	Four digits	1 244
	Sub-Heading	Six digits	5 224
Combined Nomenclature (C.N.)	Sub-Heading	Eight digits	9569

Country Classification

The classification of countries is the country nomenclature (Geonomenclature) as set out annually in the Official Journal of the European Communities. The United Nations' ISO alpha-2 coding system is followed, in which each country is identified by a two-letter code.

DEFINITIONS OF TERMS USED

Total Imports/Arrivals refer to those goods crossing the national boundaries either being cleared directly for home use or warehoused. As from May 2004, the imports from E.U Countries were renamed to arrivals according to E.U. regulations and methodology.

Imports/Arrivals destined for home use refer to those goods either cleared at the time of importation, for home use or being withdrawn from bonded warehouses for home consumption.

Total Exports/Dispatches refer to the outgoing goods from customs warehouse or directly from local market at the time they leave Cyprus. As from May 2004, the exports to E.U Countries were renamed to dispatches according to E.U. regulations and methodology.

Exports/Dispatches of domestically produced goods refer to those goods which have been produced, manufactured or partly manufactured domestically and are exported.

Exports/Dispatches of foreign produced goods (or re-exports) refer to those goods re-exported in the same physical condition as when they were previously imported or after having undergone a minor process or transformation which leaves them essentially unchanged.

Stores and provisions denote ships' and aircrafts' stores and supplies. Ships' and Aircrafts' stores means the various products for consumption by the crew and passengers of vessels or aircrafts as well as the products for the operation of the engines, machines and other equipment on vessels or aircraft, such as fuel, oil and lubricants.

Transit Trade (direct transit trade) i.e. goods being transhipped or moved through Cyprus for purposes of transportation only, are not included in the statistics.

Goods transhipped under bond are to be distinguished from goods which are entered for storage in bonded warehouses under Customs control and are afterwards exported there from. These latter goods are included in the figures of imports and exports under the "general trade" system of recording.

BASIS OF VALUATION

(a) General

The customs value of imported goods is determined according to the Section 159 of the Customs and Excise Law No. 82 of 1967, as amended by Law No. 98 of 1989, and the rules laid down by the Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade (G.A.T.T.), which was signed by the Republic of Cyprus and published in the Official Gazette No. 2416 of 2 June 1989 (Seventh Supplement). The value of the exported goods is determined according to the Exchange Control Law (Chapter 199, Section 25(1) (b)).

(b) Imports/Arrivals

For goods subject to duty on “ad valorem” basis, the statistical value is the same as the value for customs purposes. This value includes freight, insurance, commissions and all other costs, charges and expenses attributed to the sale and delivery of the goods to the port or place of importation into Cyprus, with the exception of any duty or tax chargeable in Cyprus. This value is known as the CIF (cost, insurance, freight) value.

Where an amount in foreign currency is converted to its euro currency equivalent, the rate of exchange used is that applicable at the time of lodgement of the customs entry.

(c) Exports/Dispatches

Export values are on a FOB (free on board) basis i.e. the cost of the goods to the purchaser abroad, including packing, inland transport in Cyprus, port charges, loading charges and all other costs, profits, charges and expenses (i.e. insurance and commission) accruing up to the point where the goods are deposited on board the exporting vessel or aircraft.

Exclusions

The implementing Regulations covering the compilation of trade statistics contain a comprehensive list of goods to be excluded from the statistics for methodological reasons. The related lists of the aforementioned goods are defined by the relevant Commission Regulations (EC).

GROUPING OF COUNTRIES

In the detailed tables, countries are arranged in two groups:

(a) E.U Countries include Austria, Belgium, Bulgaria, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, the United Kingdom and,

(b) Non-E.U Countries include all other countries not included in the abovementioned group, including countries and territories not specified (for data referring to periods prior to May 2004).

OTHER RELEVANT PUBLICATIONS OR SOURCES OF INFORMATION

More detailed data on Cyprus foreign trade can be found in the following publications issued by Statistical Service of Cyprus:

1. “INTRA-EXTRA EU TRADE STATISTICS (SUMMARISED DATA)”
2. “INTRA-EXTRA EU TRADE STATISTICS (BY COMMODITY AND COUNTRY)”
3. “CYPRUS EXTERNAL TRADE STATISTICS, (VOL. I-IV)”

SCOPE

This section presents a comprehensive account of the developments in the broad agricultural sector. It provides data on gross output, inputs, value added, prices and production of main products, land use, exports, investments and employment.

COVERAGE

The information presented pertains to the broad agricultural sector, covering crop and livestock production, forestry and fishing, major division 1 of the 1968 U.N. International Standard Industrial Classification of All Economic Activities (ISIC) up to 1994 whereas from 1995 onwards the European Classification of Economic Activities (Nace Rev. 1.1) was adopted.

The data for the period 1960-mid 1974 refer to the whole of the country while as from mid 1974 the data series refers to agricultural activities in the Government controlled area due to the Turkish invasion and occupation of a large part of the country.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The sources of the data given in this part are the annual sample surveys, monthly inquiries and censuses conducted by the Statistical Service, as well as administrative records and data kept in other Departments such as the Ministries of Commerce, Industry and Tourism, Agriculture, Natural Resources and Environment etc. The series of data cover the period since 1960.

DEFINITIONS OF TERMS USED

Gross output is the value of characteristic agricultural products and other ancillary output produced during a calendar year irrespective of whether these products are sold to others, consumed, held as stock, or used for further processing by farmers. Producers' prices (farm gate prices) are used for the valuation of gross output.

Intermediate inputs refer to the value of goods and services used for agricultural production. The valuation of input items (seeds, fertilizers, feeding stuff, pesticides, irrigation costs etc.) is at cost to farmers (purchasers') prices.

Value added at market prices is the difference between the value of gross output and the value of inputs.

Quantity and price indices of crop and livestock production (as well as the indices of inputs) are computed by using the Laspeyres formula for the quantity indices and the Paasche formula for the price indices, the weights being the producers' prices for the quantity indices and the quantities produced for the price indices.

Employment: The data for the years 1960-1974 refer to the number of persons working for at least one third of the year on the farm, while for the period 1975-2008 the figures refer to the “full time equivalent” number of persons derived by dividing the total work input (in terms of time) by 260 man-days per year.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

More detailed and additional data can be obtained from the report “Agricultural Statistics” published annually by the Statistical Service, the reports pertaining to the Censuses of Agriculture and the annual reports of the Department of Agriculture, the Department of Forests and the Department of Fisheries. The Agricultural Research Institute also publishes studies on various agricultural aspects.

Further information on the policies, projects and measures implemented for agriculture can be found in the reports relating to the Development Plans prepared by the Planning Bureau and the Ministry of Agriculture, Natural Resources and Environment.

Notes: 1. The data of the fishing for the years 2000-2003 is not included in this table.

The figure for 2003 is the result of the Census of Agriculture 2003.

2. The base year for Quantity and Price Indices is 1980

3. The data for 1960 refer to the number of persons working for at least one third of the year on the farm whereas from the year 1990 onwards data refer to the "full-time working equivalent" number of persons employed.

G. INDUSTRY, CONSTRUCTION

G.1. Industry

G.2. Manufacturing

G.3. Mining and Quarrying

G.4. Electricity, Gas and Water

SCOPE

This section provides data on the broad industrial sector, namely mining, quarrying, manufacturing, electricity, gas and water.

COVERAGE

The data presented in this report as from mid-1974 onwards refer only to the industrial activity in the Government controlled area. Data for previous years cover the whole country. The data do not cover manufacturing output of Government Departments. The water supply sub-sector includes the activities of the Water Boards in the urban centres, the water purification plants at Choirokoitia, Kornos, Lemesos, Tersefanou and Asprokremmos and the units for desalination of water at Dhekelia and Larnaka. As from 1985 it includes also all activities for the supply of water in rural areas which were previously classified under local government.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The data presented, extend to the censuses of industrial production carried out for the years 1954, 1962, 1967, 1972, 1976, 1981, 1986, 1992 and 2000, the surveys on cottage industry for 1962 and 1972, the censuses on cottage industry for 1982 and 1992 and the industrial production surveys carried out annually since 1963. The detailed data from the censuses and surveys can be found in special issues and the annual reports on industrial statistics.

CLASSIFICATION SYSTEMS USED

Enterprises covered by the industrial surveys and censuses were classified according to their major kind of industrial activity, based on the principal category of goods produced. Data up to 1995 are presented according to the ISIC Rev. 2 classification system of the United Nations. As from 1995 data are presented according to the statistical classification of economic activities NACE Rev. 1.1. This classification was prepared by the Statistical Office of the European Communities (Eurostat). The application of the NACE Rev. 1.1 classification is compulsory for all EU member states and for all surveys in which statistical data on economic activities are collected. Note that data for production and price indices are presented according to the statistical classification of economic activities NACE Rev. 2 of the European Union.

The main differences between statistical classification systems ISIC Rev. 2 and NACE Rev. 1.1 are:

- (a) The manufacture of artificial teeth, dentures etc., according to NACE Rev. 1.1 is classified in manufacturing under the class 33.10 (manufacture of medical and surgical equipment and orthopaedic appliances), while according to ISIC Rev. 2 it was classified under the major division of services in the medical dental and other health services group.
- (b) Recycling is classified in manufacturing with the creation of division 37 covering recycling of metal waste and scrap as well as non-metal waste and scrap.

All other changes refer to reclassifications within sub-sectors of the manufacturing sector.

The main differences between statistical classification systems NACE Rev. 1.1 and NACE Rev. 2 are:

- (a) The publishing activities according to NACE Rev. 1.1 were classified in manufacturing, while according to NACE Rev. 2 they are classified under the major division of services.
- (b) The new sector of water supply, sewerage, waste management and remediation activities is created, which includes sewerage, waste management and remediation activities, which were previously classified under services.
- (c) Recycling is transferred from manufacturing to the new sector of water supply, sewerage, waste management and remediation activities with the name “materials recovery”.
- (d) Electricity now constitutes a separate sector.

DEFINITIONS OF TERMS USED

Enterprise refers to an economic unit which is a legal entity - a firm or self-employed engaging in industrial activities. It may consist of more than one industrial units located at various places.

Employment refers to the average number of all employees of the enterprise. It includes working proprietors, unpaid family workers (provided they worked for at least half the normal hours), apprentices and all other employees.

Gross Output is the value of goods produced, services rendered to others, net receipts from the sale of goods sold in the same condition as purchased, other receipts and changes in the value of work in progress at the end of the inquiry period. The valuation is at prices secured by the enterprise, excluding discounts, commissions and subsidies but including indirect taxes (excise duties and other indirect non-commodity taxes, such as motor vehicle licenses, etc.).

Value Added at Current Market Prices is the contribution to the Gross Domestic Product. It is derived by deducting from the value of gross output the aggregate costs of all materials, fuels, electricity, the amount paid to other firms for work given out, as well as the cost of non-industrial services rendered by others (e.g. telephone, telegraph, telexes and postage charges, advertising, legal services, accounting and auditing, insurance etc.) and rents paid for buildings and machinery. It is the value added to materials and services by the process of production and constitutes the fund from which wages, salaries, rates, taxes, depreciation, interest and profit have to be met.

Value Added at Factor Cost is obtained by deducting from the value added at market prices all indirect taxes, that is, excise duties net of subsidies and all other indirect non-commodity taxes, such as motor vehicle licenses, municipality taxes, fees for business licenses, stamp duties etc.

Wages and Salaries include direct wages and salaries, overtime earnings, bonuses, value of receipts in kind, cost of living allowance, payment for leave days and dismissal compensation. All payments are calculated prior to any deduction of income tax, social insurance and provident fund.

Expenditure on Fixed Assets refers to the net expenditure (purchases minus sales) on fixed assets purchased or manufactured by the enterprise for its own use. It also includes the cost of any major additions and alterations to existing fixed assets.

2008	37.639	3.800.068	1.299.267	422.581

Notes: - Data until mid-1974 refer to both Greek and Turkish establishments; as from mid-1974 onwards they refer only to the industrial activity in the Government controlled area.

- Data include cottage industry.

1. Data up to 1995 were compiled on the basis of the ISIC Rev.2 classification, while as from 1995 onwards according to the NACE Rev. 1.1 classification.

- Notes:
- Time series data are not strictly comparable.
 - Data for 1962 are taken from the 1962 Census of Industrial Production and extend to the total population of the country.
 - Data for 1966 and 1972 are taken from the respective Cottage Industry Surveys and their coverage is confined to the Greek Population in the rural areas only.
 - Data for 1982 and 1992 are taken from the respective Censuses of Cottage Industry and their coverage is confined to the Government controlled areas of the island, both rural and urban.

MINING AND QUARRYING

G. INDUSTRY, CONSTRUCTION

G.5. Construction

SCOPE

This section presents basic data on the structure and evolution of the construction and housing sectors in terms of output, inputs, prices and dwellings. For construction it extends to major division 45 of the Statistical Classification of Economic Activities (NACE Rev. 1.1).

COVERAGE

Due to the Turkish invasion of Cyprus in July/August 1974 the relevant data as from mid-1974 onwards refer only to the construction activity in the Government controlled area. For previous years, coverage extends to the whole country.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

Data on public construction activity are derived from the budget, departmental reports and financial statements. For the private sector, from 1960 to 1978, the relevant data are based on ad hoc surveys, whilst as from 1979 onwards these are based on the annual sample surveys of building permits authorised, as well as the 2000 Census of Construction and the construction surveys carried out annually since 1988.

CLASSIFICATION SYSTEMS USED

Construction data are classified by economic activity on the basis of the Statistical Classification of Economic Activities (NACE Rev. 1.1), while housing data are classified according to UN recommendations.

DEFINITIONS OF TERMS USED

Enterprise refers to an economic unit which is a legal entity (a firm or self-employed), engaging in construction activities. It may consist of more than one construction units located at various places.

Persons Engaged refers to the average number of all employees of the enterprise. It includes working proprietors, unpaid family workers, (provided they worked for at least half the normal hours), apprentices and all other employees. The average employment for the year is derived as a simple twelve month average. Part-time workers, that is persons working less than the usual number of days of operation of the establishment or persons working fewer hours every day, were converted into full-time equivalents using as conversion factor the number of working days for which the establishment usually operates or the normal hours worked by full-time employees.

Gross Output is the value of work put in place either by direct contracts or subcontracts, services rendered to others, net receipts from the sale of goods sold in the same condition as purchased, other receipts and changes in the value of work in progress at the end of the period under investigation. The valuation of gross output is at prices secured by the enterprise, excluding discounts and commissions but including indirect taxes (excise duties and other indirect non-commodity taxes, such as motor vehicle licences, professional taxes, etc.).

Value Added at market prices is derived by deducting from the value of gross output the aggregate costs of all materials, fuels, electricity, the amount paid to other firms for work given out, administrative services rendered by others (e.g. telephone, telegraph, telexes and postage charges, advertising, legal services, accounting and auditing, insurance etc.) and rents paid for buildings and machinery. It is the value added to materials and services by the process of construction and constitutes the fund from which wages, salaries, rates, taxes and all other similar charges have to be met including depreciation, interest and profit.

Wages and Salaries refer to direct wages and salaries, overtime earnings, bonuses, value of receipts in kind, cost of living allowance, payment for leave days and redundancy compensation. All payments are calculated prior to any deduction of income tax, social insurance and provident fund. Employers' contributions to various funds, pensions, and similar benefits are excluded from wages and salaries and are shown separately.

Expenditure on Fixed Assets refers to all expenditure on fixed assets (new or used), purchased or produced by the enterprise for its own use, less sales of fixed assets. It also includes the cost of any major additions and alterations to existing fixed assets. Work done by the enterprises' own personnel is valued at the cost of labour, materials and any other costs allocated to this work. Fixed assets acquired from others are valued at the full cost incurred i.e. at the delivery price plus installation costs. Fixed assets acquired on a rental basis are excluded.

OTHER RELEVANT PUBLICATIONS & SOURCES OF INFORMATION

For more detailed or additional data on the construction and housing sectors, reference may be made to the annual report Construction and Housing Statistics, the Census of Construction 2000, the Census of Population and Housing 2001 and the Monthly Economic Indicators, published by the Statistical Service. For housing policy and other relevant regulations, information can be obtained from the Department of Town Planning and Housing.

H.1. Energy

SCOPE

This section provides data on the sales of petroleum products and the production and consumption of electricity, which are the main forms of energy utilised in Cyprus.

COVERAGE

The data presented on sales of petroleum products as from mid-1974 onwards refer only to the Government controlled area. Data for previous years pertain to the total population of the country. Electricity consumption data refer to billed sales only, that is excluding electricity supplied to the areas occupied by the Turkish invading forces, for which no payment was effected. In the electricity balance table, however, the supply of electricity to these areas is shown separately.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

Cyprus is exclusively dependent on imported crude oil and petroleum products to meet its energy needs. From 1972 until 2004 crude oil was processed at the Cyprus Petroleum Refinery. The refinery ceased its operation in April 2004 and since then all petroleum products are imported. Electricity is generated from oil-burning thermal stations.

Data on sales and prices of petroleum products are obtained from the petroleum companies, as well as from the Electricity Authority of Cyprus and the cement industry for their consumption of heavy fuel oil. These data are available as from 1960. Data on electricity production and consumption are obtained from the Electricity Authority of Cyprus and are presented also as from 1960.

OTHER RELEVANT PUBLICATIONS & SOURCES OF INFORMATION

For more detailed or additional data on energy, reference may be made to the Annual Report of the Electricity Authority of Cyprus as well as to the petroleum companies. Information on energy planning, as well as the various Government measures and policies for energy and energy conservation, may be obtained from the Ministry of Commerce, Industry and Tourism and the Planning Bureau.

Notes: - Data pertain to the Electricity Authority of Cyprus only. They exclude electricity production of other establishments for their own use.

- Gross Production refers to the amount of electricity produced as metered at output terminals in the power stations.
- Consumption data refer to billed sales only, excluding electricity supplied to the areas occupied by the Turkish invading forces, for which no payment was effected.
- As from 1979 there has been a reclassification of consumption in the industrial and irrigation categories by the Electricity Authority of Cyprus. As a result, certain consumers previously classified as industrial have been re-classified in the agriculture category.
- Agriculture includes water works and water supply.

1. Includes the supply of 40.598 (000's kWh) for the months of January to June to the areas occupied by the Turkish invading forces, for which payment was effected.

H. ENERGY, ENVIRONMENT

H.2. Environment

SCOPE

This section provides data on various environmental concerns, such as the amounts of municipal and industrial waste generated, the composition of waste, the treatment of waste, air emissions, water abstraction and consumption, wastewater treatment and biodiversity. Moreover, information is provided about the expenditures and the investments occurring for environmental protection purposes as well as the revenues from environmental protection activities in various sectors of economic activity.

COVERAGE

Data refer only to the Government controlled area of the island.

SOURCES OF DATA

Municipal Waste. Data are derived from an annual survey carried out by the Statistical Service. A questionnaire is addressed to all municipal authorities, which have the responsibility for the collection and treatment of the municipal waste generated.

Industrial Waste. Data are derived from sample surveys carried out by the Statistical Service for the reference years 2006 and 2008. The two surveys are not strictly comparable, though they both broadly capture the industrial and construction sectors of the economy. In particular, the 2006 survey covered enterprises operating in the mining and quarrying, manufacturing, electricity, gas, steam and water supply and construction sectors (sections C to F of the Statistical Classification of Economic Activities NACE Rev. 1.1) while the 2008 survey covered enterprises operating in the mining and quarrying, manufacturing, electricity, gas, steam and air conditioning supply, water supply, sewerage, waste management and remediation activities and construction (sections B to F of the Statistical Classification of Economic Activities NACE Rev. 2).

Air Emissions. Data are calculated by the Industrial Pollution Control Sector of the Department of Labour Inspection, Ministry of Labour and Social Insurance and the Environment Department, Ministry of Agriculture, Natural Resources and Environment.

Water Abstraction. Data are provided by the Water Development Department, Ministry of Agriculture, Natural Resources and Environment.

Wastewater Treatment. Data are derived from an ad hoc survey carried out by the Statistical Service in cooperation with the Water Development Department, Ministry of Agriculture, Natural Resources and Environment. The survey covered the years 2004 and 2005.

Wild Life. Data are provided by the Department of Forests, the Department of Fisheries and Marine Research, the Department of Agriculture and the Game Fund Service.

Water Consumption and Environmental Expenditure. Data are derived from an annual survey carried out by the Statistical Service. The survey is addressed to enterprises classified in the mining and quarrying, manufacturing, electricity, gas, steam, air conditioning supply and water supply sectors (sections B to E of the Statistical Classification of Economic Activities NACE Rev. 2).

DEFINITIONS OF TERMS USED

Waste refers to every product, material or substance that does not provide any usefulness to its generator and, therefore, there is no intention of being reused, and it is discarded or there is an intention for the waste to be discarded.

Municipal waste refers to waste collected by or on behalf of municipalities. It includes household waste and similar waste, as well as waste originating from commerce, trade, small businesses, office buildings and institutions (schools, hospitals, government buildings). It also includes: bulky waste, yard waste, leaves, grass clippings, street sweepings, the content of litter containers and market cleansing waste, if managed as waste. Municipal waste is collected door-to-door either through the traditional collection scheme (mixed household waste) or as fractions collected separately for recovery operations (mainly for recycling purposes, through door-to-door collection and/or through voluntary deposits). It also includes waste similar in nature and composition which: 1) is collected directly by the private sector (business or private non-profit institutions), not on behalf of municipalities (mainly separate collection for recovery purposes) and 2) originates from rural areas not served by a regular waste service, even if they are disposed by the generator. It excludes waste from municipal sewage network and treatment, municipal construction and demolition waste.

Industrial waste refers to the waste generated and treated by industrial enterprises. It covers only substances and materials which are considered as wastes according to the EU waste definitions, described in the Waste Framework Directive. The wastes which are reported either as generated or treated are directly linked to the European Waste Catalogue (EWC). This code list contains 48 aggregated categories, of which 21 are hazardous. Wastes which are recycled on the site of generation are not included. The quantities of waste generated are further classified among the different waste treatment operations: incineration, recovery and disposal.

Incineration refers to the thermal treatment of waste in an incineration plant in order to reduce the volume and the hazardousness of the waste, and to obtain a still product that can be disposed of.

Recovery refers to the treatment of waste, whose principal objective is for the waste to serve a useful purpose in replacing other materials which would normally be used for that purpose. The temporary storage of waste or any preparatory activities are not included.

Recycling is defined as any reprocessing of material in a production process that diverts it from the waste stream. Both reprocessing as the same type of product and for different purposes are included. Direct recycling within industrial plants at the place of generation is excluded.

Disposal refers to the deposit of waste into or onto land, in especially engineered landfills, surface impoundment, permanent storage etc. As in the case of recovery, disposal does not include the temporary storage of waste or any preparatory activities.

Landfill site is defined as an area where waste is deposited. It covers both landfills in internal sites (i.e. where the generator of waste is carrying out its own waste disposal at the place of generation) and external sites.

Greenhouse effect is a natural occurring process that aids in heating the earth's surface. It results from the fact that certain atmospheric gases, trap some of the outgoing energy, retaining heat somewhat like the glass panels of a greenhouse. Without this natural greenhouse effect temperatures would be much lower than they are now and life as known today would not be possible.

Greenhouse gases are certain atmospheric gases such as carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), hydrofluorocarbons (HFCs), perfluorocarbons (PFCs) and sulphur hexafluoride (SF₆).

Fresh surface water includes water which flows over or rests on the surface of a land mass, natural water resources such as rivers, streams, brooks, lakes, etc., as well as artificial water resources such as irrigation, industrial and navigation canals, drainage systems and artificial reservoirs.

Fresh ground water includes the fresh water which is being held in and can usually be recovered from or via an underground formation. All permanent and temporary deposits of water, both artificially charged and naturally, in the subsoil, of sufficient quantity for at least seasonal use are included.

Returned water is water abstracted from any fresh water source and discharged into freshwaters without use or before use. Discharges to the sea are excluded.

Wastewater is water which is of no further immediate value to the purpose for which it was used or in the pursuit of which it was produced because of its quality, quantity or time of occurrence. Wastewater originates from two sources, domestic and industrial. Domestic wastewater is wastewater resulting from residential settlements and services which originates predominantly from the human metabolism and from household activities. Industrial wastewater is water discharged after being used in, or produced by, industrial production processes and which is of no further immediate value to these processes.

Wastewater collecting system is a system of conduits which collects and conducts wastewater. Collecting systems are often operated by public authorities or semi-public organisations.

BOD capacity is the total quantity of oxygen-demanding material that a wastewater treatment plant is designed for which can be treated daily with a certain efficiency.

Population equivalent is the organic biodegradable load having a five-day biochemical oxygen demand (BOD₅) of 60g of oxygen per day.

Wastewater treatment is the process to render wastewater fit to meet applicable environmental standards or other quality norms for recycling or reuse. Different types of treatment exist.

Primary treatment is the treatment of wastewater by a physical and/or chemical process involving settlement of suspended solids, or other process in which the BOD₅ of the incoming wastewater is reduced by at least 20% before discharge and the total suspended solids of the incoming waste water are reduced by at least 50%.

Secondary treatment is the treatment of wastewater by a process generally involving biological treatment with a secondary settlement or other process, resulting in a BOD removal of at least 70% and a COD removal of at least 75%.

Further treatment is the treatment (additional to secondary treatment) of nitrogen and/or phosphorous and/or any other pollutant affecting the quality or a specific use of water: microbiological pollution, colour etc. The following minimum treatment efficiencies define a further treatment: organic pollution removal of at least 95% for BOD and 85% for COD, and at least one of the following:

- nitrogen removal of at least 70%
- phosphorus removal of at least 80%
- filtration
- microbiological removal achieving a faecal coliform density less than 1000 in 100 ml

Critically endangered species are species that are facing an extremely high risk of extinction in the immediate future.

Endangered species are species that are not critically endangered but are facing a very high risk of extinction in the near future. Also includes species that are possibly already extinct but have been seen in the wild in the past 50 years.

Vulnerable species are species believed likely to move into the critically endangered or endangered categories in the near future, if the causal factors continue operating. It includes species of which most or all of the population is decreasing because of over-exploitation, extensive destruction of habitat or any other form of intervention in the environment.

Declining species are species that are not considered to be in any risk but their population is showing decline. Therefore, there is a possibility to be in risk at some point in the future.

Environmental protection is an action or activity where the main purpose is to collect, treat, reduce, prevent or eliminate pollutants and pollution or any other degradation of the environment resulting from the operating activity of an enterprise. It involves the use of equipment, labour, manufacturing techniques and practices, information networks or products. Actions that aim at the safety of health at the work place are excluded.

Environmental protection expenditure is the sum of capital investments and current expenditure for the undertaking of environmental protection activities. Capital investments are distinguished between integrated and end-of-pipe investments. They include the purchase of machinery, equipment, buildings, land etc. Current expenditure is distinguished between internal expenditure and purchase of services. It includes labour costs, purchases of raw materials, use of energy, maintenance of equipment, etc.

Integrated investments refer to installations (or part of them) that have been adapted in order to generate less pollution or to measure the pollution level. This equipment is integrated in the production process and cannot be identified as separate parts.

End-of-pipe investments consist of identifiable and distinct equipment and/or installations which function independently at the end of the production cycle, where the release of pollution into the environment occurs. This equipment is destined to handle pollution already generated, by preventing, controlling and monitoring the emission of pollutants freed in the environment.

Income from environmental protection activities includes the income of enterprises from selling environmental services to other enterprises or institutions, the financial aid received by the enterprises from the public budget or from institutions not controlled by the government for acquisition and operation of environmental facilities. It also refers to income of the enterprises from the reuse of materials resulting from environmental protection activities. This income is estimated as the saving in cost, as a result of using these products. The income resulting from selling such products to other enterprises or organisations is also included.

Source: Water Development Department.

Notes: 1. The difference between the total and its two components equals the amount of water released from dams for aquifer artificial recharge.

2. Includes also the amount of water used for aquifer artificial recharge.

3. Refers to the amount of water released from dams for aquifer artificial recharge.

Water supply	"	9	0	3	10	14	27	2.103	178

Notes: - The figures may not add up to the total due to rounding.

- Part of the changes observed between the years is attributed to the increased capital expenditure in the cement industry in 2002 and 2007 and in the electricity supply industry in 2004.
- The increase observed in the income from environmental protection activities of the electricity supply industry in 2007 is due to the introduction of a new production process that resulted in considerable energy savings.

I.4.3. Public Administration and Defence

I.4.4. Insurance and Registration of Companies

I. TRANSPORT, TOURISM, TRADE, OTHER SERVICES

I.1. Transport and Storage, Communications

SCOPE

This section provides analytical data on the main economic parameters of the transport, storage and communication sector, on motor vehicles registrations, road accidents, public roads, shipping, civil aviation, telecommunication and postal services. Data presented in tables I.1.1b, I.2.2b, I.1.3b, under the classification NACE (Rev. 2) of the European Union do not include the telecommunication services.

COVERAGE

Data for the years 1960 to mid-1974 refer to the whole country and after mid-1974 to the Government controlled area.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The data presented are derived from the Transport, Storage and Communication survey conducted annually since 1982 as well as from administrative records and returns of relevant Government Departments and Semi-Government Organisations. Due to the revision of the NACE classification, starting from the year 2008, the sector's survey is renamed to Transportation and Storage survey.

The data presented for some sub-sectors go back as far as 1960.

CLASSIFICATION SYSTEM USED

Starting from the year 2008, the European's Union classification system has been revised from NACE Rev. 1.1 to NACE Rev. 2. Therefore some of the tables entailed in this section are both under the classification NACE Rev. 1.1 (Section I) as well as under NACE Rev. 2 (Section H) ensuring a smooth transition from the one classification to the other.

DEFINITIONS OF TERMS USED

Vehicles registered

Vehicles registered refer to both new and second-hand vehicles newly registered in Cyprus.

Private cars include all saloon cars excluding taxis and self-drive, but including cars for Government and Semi-Government Authorities.

Passenger car is a road motor vehicle, other than a moped or a motor cycle, intended for the carriage of passengers and designed to seat no more than nine persons (including the driver).

Light goods road vehicle is a goods road vehicle with a gross vehicle weight of not more than 3 500 kg, designed, exclusively or primarily, to carry goods.

Heavy goods road vehicle is a goods road vehicle with a gross vehicle weight above 3 500 kg, designed, exclusively or primarily, to carry goods

Road tractor is a road motor vehicle designed, exclusively or primarily, to haul other road vehicles which are not power-driven (mainly semi-trailers).

Agricultural tractor is a motor vehicle designed exclusively or primarily for agricultural purposes whether or not permitted to use roads opened to public traffic.

Moped is a two, three or four-wheeled road motor vehicle which is fitted with an engine having a cylinder capacity of less than 50cc (3.05 cu.in) and a maximum authorized design speed in accordance with national regulations.

Motorcycle is a two-, three- or four-wheeled road motor vehicle not exceeding 400 kg (900 lb) of unladen weight. All such vehicles with a cylinder capacity of 50 cc or over are included, as are those under 50 cc which do not meet the definition of moped.

Shipping

The gross tonnage of a vessel is determined by dividing the contents in cubic feet in the vessel's closed-in space by 100. Thus, a vessel-ton is 100 cubic feet space. The gross tonnage of each vessel is determined when the ship is registered and figures given in this publication are as declared by the ships' master to the Director of Ports.

The net tonnage of a vessel is the vessel's gross tonnage less the space used for accommodation of crew, machinery for navigation, the engine room and fuel storage space and crew's quarters. Thus, the net tonnage gives the space available for the accommodation of passengers, if any, and the storage of cargo.

Road Traffic Accidents

Road traffic accident refers to any accident which involves a traffic unit (i.e. bicycle, motorcycle, motor car and any other kind of vehicle) moving on a public road and causing death, bodily injury or damage to property.

Casualties include persons killed or injured (seriously or slightly) in road traffic accidents.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

Additional data may be obtained from the following publications of the Department of Statistics and Research: Transport Statistics (annual); Registration of Motor Vehicles (monthly); Statistics of Motor Vehicles and Road Accidents (annual, discontinued in 1985); Shipping Statistics (annual, discontinued in 1985); Tourism, Migration and Travel Statistics (monthly, discontinued in 1987); and Statistics of Imports and Exports (quarterly).

The following Departments/Ministries can also provide valuable information: Road Transport Department, Department of Civil Aviation, Ministry of Interior, Cyprus Police (for road accidents), Cyprus Public Works Department, Department of Postal Services, Department of Customs and Excise, Cyprus Telecommunications Authority, Cyprus Ports Authority, Department of Merchant Shipping and the office of the Commissioner of Electronic Communications and Postal Regulation.

TABLE I.1.10. LENGTH OF PUBLIC ROADS AND EXPENDITURE ON ROADS AND BRIDGES, 1960-2009

Year	Length of roads (kilometres) by type				Expenditure on roads and bridges (€000's)
	Bituminous	Gravel	Forest Roads	Total	
1960	1.723	3.392	813	5.928	2.023
1970	3.596	3.252	1.271	8.119	5.584
1974	4.353	3.488	1.662	9.503	6.998
1975	3.371	1.794	1.336	6.501	10.766
1980	3.954	1.443	1.529	6.926	20.963
1990	5.395	1.420	2.228	9.043	57.693
1991	5.452	1.459	2.315	9.226	60.346
1992	5.463	1.473	2.426	9.362	67.059
1993	5.476	1.575	2.488	9.539	75.806
1994	5.546	1.601	2.557	9.704	86.385
1995	5.781	1.738	2.631	10.150	80.402
1996	5.950	1.777	2.688	10.415	66.352
1997	6.209	1.677	2.768	10.654	78.445
1998	6.404	1.604	2.812	10.820	115.079
1999	6.559	1.582	2.868	11.009	111.071
2000	6.747	1.485	2.909	11.141	106.800
2001	6.982	1.413	3.013	11.408	109.607
2002	7.206	1.331	3.056	11.593	106.788
2003	7.403	1.259	3.098	11.760	138.937
2004	7.672	1.295	3.092	12.059	139.936
2005	7.845	1.274	3.027	12.146	160.369
2006	7.988	1.249	3.043	12.280	199.729
2007	7.842	1.338	3.066	12.246	209.784
2008	7.961	1.330	3.030	12.321	194.951
2009	8.040	1.300	3.040	12.380	...

Notes: - The data on roads length refer to the end of each year. The new roads constructed during each year is the difference from the previous year's figure.

- Since 1975 the data refer to the roads in the Government controlled area of Cyprus.

I. TRANSPORT, TOURISM, TRADE, OTHER SERVICES

I.2. Tourism

SCOPE

This section provides data on the movement of travellers, tourist flow, revenue from tourism, overnight stays in tourist accommodation as well as movement of permanent residents.

COVERAGE

The statistics cover arrivals and departures of travellers through ports and airports. As from mid-1974 these relate to the Government controlled area. Travellers going in and out of the country illegally through ports and airports of the Turkish occupied area of Cyprus are not included in the statistics.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The main source of data was until April 1989 the arrival and departure cards filled in by the travellers at the points of passport control, at the ports and airports of Cyprus.

Completion of arrival and departure cards was gradually abolished for many nationalities of travellers, at first for Cypriots as from April 1989 and then for nationals of countries of the Council of Europe as from June 1991.

From July 1991 - May 1997 the number of tourists as well as figures referring to most of the other categories of travellers are based on estimations.

As from June 1997 the Passenger Survey was initiated by the Statistical Service. It is a border sample survey covering arrivals at all points of entry (two international airports and two ports). The aim of the survey is to estimate the volume of inbound tourism as well as arrivals of other categories of travellers (residents returning from a trip abroad, short-term immigrants, long-term immigrants and same-day tourists) on the basis of total arrivals of travellers.

The overall sample size corresponds to about 5 per cent of the total travellers arriving in Cyprus.

The grossing up is effected on the basis of the monthly arrivals of travellers by country of flight and the monthly arrivals by port, compiled by the Statistical Service from statistics provided by the Civil Aviation Department and manifests of ships. The Civil Aviation figures are corrected by data provided by the immigration authorities on the numbers of transfer passengers on each flight which are deducted from total arrivals.

Data on excursionists are based on monthly statements prepared by the Aliens and Migration Service of the Ministry of the Interior.

Data on overnight stays and tourist accommodation are based on information provided by the Cyprus Tourism Organization.

With reference to revenue from tourism, data is collected in the framework of the Passenger Survey at the points of departure carried out by the Statistical Service as from April 2002.

The series on arrivals and departures of travellers dates back to 1952 while for certain categories of travellers figures are presented as from a later date and visitors as from 1958. Figures on tourists and

residents for 1989 onwards are not strictly comparable with previous years due to the absence of arrival/departure cards, and the introduction as from June 1997 of the Passenger Survey. The figures of the tables resulting from the Passenger Survey may not add up to the total due to rounding at the blowing-up stage.

CLASSIFICATION SYSTEM USED

The classifications used are in accordance with the recommendations of the World Tourism Organization. Classification by country is made according to the geographical codes of the Statistical Office of the European Communities (Eurostat).

DEFINITIONS OF TERMS USED

Travellers: Are all persons who pass through passport control at the ports and airports of Cyprus. The various categories of travellers are visitors, residents and emigrants or immigrants.

Visitors: Are persons staying not more than one year in the country visited and whose main purpose of visit can be classified under:

- (a) Pleasure: holidays, cultural, active sports, visit to friends or relatives, pilgrimage and other pleasure purposes.
- (b) Professional: meeting, mission, business.
- (c) Other tourist purposes: studies, health, transit.

There are two main categories of visitors: tourists and same-day visitors.

Tourists: Are visitors staying at least one night in the country visited.

Same-day visitors: Are visitors who do not stay overnight in the country visited. These are cruise-ship visitors, transit passengers who leave the airport/port area and same-day tourists who enter the country as tourists but leave on the same day.

Residents of Cyprus: This category includes persons who have been residing in Cyprus for at least 12 months prior to their travel.

Tourist accommodation: Are all hotels with stars, hotel and tourist apartments, tourist villas, guest houses and hotels without star registered by the Cyprus Tourism Organization.

Overnight stays: Number of nights spent at a tourist accommodation by residents and tourists.

OTHER RELEVANT PUBLICATIONS & SOURCES OF INFORMATION

Additional and more detailed data on tourism statistics may be found in the annual publications of the Statistical Service, entitled "Tourism Statistics".

Monthly figures appeared in a monthly publication up to the end of 1986. Since then summary monthly data are presented in the "Monthly Economic Indicators" and in the "Tourism Statistics" published quarterly by the Statistical Service.

TOURISM

TABLE I.2.1. STATISTICS ON MOVEMENT OF TRAVELLERS, 1980-2009

2007	3.795.326	339.908	3.455.418	3.777.448	339.352	3.438.096
2008	3.873.999	301.951	3.572.048	3.859.527	303.415	3.556.112
2009	3.571.532	280.450	3.291.082	3.564.996	280.462	3.284.534

Note: - Figures from 1976 onwards have been revised to include excursionists. Revision of figures was not possible prior to 1976 so that figures for the two periods are not strictly comparable. It is estimated that excursionists for the period 1952-1975 could not have exceeded 10% of total travellers.

2007	2.671.331	...	...	2.240.591	174.635	256.105
2008	2.630.545	...	...	2.238.082	165.353	227.110
2009	2.369.980	...	...	1.984.289	156.564	229.127

Notes: - Figures for the period 1958-1978 exclude excursionists so that figures are not strictly comparable with those at later dates. It is estimated that excursionists amount to less than 10% of total visitors.
- From July 1991 - May 1997, figures are based on estimations.
- For 1997 onwards tourists are classified according to their purpose of visit (pleasure, professional), while same - day visitors are included in the category other purpose of visit.

I. TRANSPORT, TOURISM, TRADE, OTHER SERVICES

I.3. Distributive Trade

SCOPE

This section provides information on wholesale and retail trade, repair of motor vehicles, motor cycles and personal and household goods. Data presented in tables I.3.1b, I.3.2b, I.3.3b and I.3.4b under the classification NACE Rev. 2 of the European Union do not include personal and household goods.

COVERAGE

The data presented refer only to trade activities in the Government controlled areas. The information refers to gross output, value added, investments, employment, and other economic parameters.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The data on wholesale and retail trade are derived from the surveys carried out annually since 1982.

CLASSIFICATION SYSTEM USED

Starting from the year 2008, the European's Union classification system has been revised from NACE Rev. 1.1 to NACE Rev. 2. Therefore the tables entailed in this section are both under the classification NACE Rev. 1.1 as well as under NACE Rev. 2 ensuring a smooth transition from the one classification to the other.

DEFINITIONS OF TERMS USED

Enterprise refers to an economic unit engaging in one or more kinds of trade activity and which may consist of more than one trade establishments located at various sites.

Persons engaged is the number of persons employed at an enterprise and includes working proprietors, unpaid family workers, and paid employees.

Gross output is defined as the value of receipts (goods and services sold) plus the increase in stocks of goods and assets produced for own use, less the cost of goods purchased for re-sale.

Value added at market prices is taken as the gross output, less the cost of materials, fuels, rents paid and other direct costs as well as administrative expenses.

Labour costs consist of wages and salaries of persons engaged and the employers' contributions to various funds.

Wages and salaries include normal wages and salaries, 13th and 14th salaries, overtime earnings, bonuses, value of payments in kind, cost of living allowances etc. The payments are given gross, i.e. before any deductions have been made for income tax, social insurance and for various funds. Imputed wages for unpaid family workers, working proprietors and partners are also included.

Employers' contributions to various funds include social insurance, provident and pension funds, medical and other funds.

Fixed capital formation refers to the total value of fixed assets excluding land and existing buildings purchased, less the value of sales of fixed assets. The cost of any assets produced for own use and of any major additions and alterations to existing fixed assets are included. Fixed assets acquired from others were valued at the full cost incurred i.e. at the delivery price plus installation costs.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

For more detailed or additional data reference may be made to the Wholesale and Retail Trade Survey (published annually since 1982). For the years 1985-1989 the relevant data were incorporated in the publication "Services and Distributive Trade Statistics".

I. TRANSPORT, TOURISM, TRADE, OTHER SERVICES
I.4. Other Services
I.4.1. Hotels and Restaurants, Business Services, Education, Health, Other Social and Personal Service Activities

SCOPE

The aim of the annual Services Survey is to collect statistical data on the employment, gross output, labour costs and other expenses, value added and expenditure on fixed assets, in order to provide basic information on the structure and development in the various sectors of Other Services.

COVERAGE

The Survey covered all activities classified under sections H, K, M, N, O and code 95 of the European System of Classification of the Economic Activities NACE Rev. 1.1. Based on NACE Rev. 2 coding, the sections that are covered are I, J, L, M, N, P, Q, R, S and T.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

Figures are collected from the surveys carried out annually since 1990, which cover private enterprises that were engaged in the above-mentioned sectors.

CLASSIFICATION SYSTEM USED

For the classification of the activities described above, the Statistical Classification of Economic Activities NACE, Rev. 1.1 of the European Union was used until 2008 and NACE Rev. 2 has been used since 2008 onwards.

DEFINITIONS OF TERMS USED

Enterprise refers to an economic unit which is a legal entity – a firm or self employed – engaging in one, or predominantly one, kind of economic activity. It may consist of more than one establishments located at various sites.

Persons engaged in an establishment or enterprise refers to working proprietors, unpaid family members, permanent and casual employees. The average employment for the year is derived as a simple twelve month average of the number employed in each category. Part time employees, that is persons working less than the usual number of working days of the establishment or persons working fewer hours every day, are converted into full time equivalent, using as conversion factor the number of working days for which the establishment usually operates (about 260 days per year).

Gross output is defined as the value of services produced, net receipts from the sale of goods sold in the same condition as purchased, other receipts, change in stocks of goods and the value of assets produced for own use.

Value added at market prices is the gross output less the cost of materials, fuels and other direct costs as well as administrative expenses and rents.

Value added at factor cost is the value derived by deducting from the value added at market prices indirect taxes and adding subsidies. It comprises of wages and salaries, interest on loans, operating surplus and depreciation.

Wages and salaries include normal wages and salaries, 13th and 14th salaries, overtime earnings, bonuses, value of payments in kind, cost of living allowances etc. The payments are given gross i.e. before any deductions for income tax, social insurance and other contributions to other funds have been made. They also include imputed wages for unpaid family workers, working proprietors and partners.

Employer's contribution to various funds include social insurance, provident and pension funds, medical and other funds.

Gross fixed capital formation refers to the expenditure on fixed assets excluding land, less the value of sales of similar fixed assets. The cost of any assets produced for own use and of any major additions and alterations to existing fixed assets are included. Fixed assets acquired from others were valued at the full cost incurred i.e. at the delivery prices plus installation costs.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

For more detailed or additional data reference may be made to the Services Survey (published annually since 1964). For the years 1985-1989 the relevant data were incorporated in the publication "Services and Distributive Trade Statistics"; as from 1990 this publication was replaced by the "Community, Social and Personal Statistics" and "Hotels and Restaurants" reports. The "Community, Social and Personal Statistics" publication was discontinued as from 1995, whereas the corresponding data for the years 2001 until 2005 were incorporated in the "Economic Statistics on Education, Health and Other Social and Personal Service Activities" publication. Finally, the publication of "Economic Statistics on Education, Health and Other Social and Personal Service Activities" was discontinued as from 2006, whereas the corresponding data for the years 2006 and onwards were incorporated in three new publications; "Economic Statistics on Education", "Economic Statistics on Health" and "Economic Statistics on Other Social and Personal Service Activities".

Summarizing, currently there are five publications and these are "Hotels and Restaurants", "Statistics on Business Services", "Economic Statistics on Education", "Economic Statistics on Health" and "Economic Statistics on Other Social and Personal Service Activities".

I. TRANSPORT, TOURISM, TRADE, OTHER SERVICES
I.4. Other Services
I.4.2. Financial Intermediation

SCOPE

This section provides information on the broad financial intermediation services namely financial intermediation except insurance and pension funding (banking units), insurance and pension funding except compulsory social security and activities auxiliary to financial intermediation.

COVERAGE

The data presented cover the period 1995-2009 and refer to the activities in the Government Controlled areas. The information refers to gross output, value added, investments, employment and other economic parameters.

SOURCES OF DATA

The data on banking units is mainly compiled on the basis of administrative data obtained from the Central Bank of Cyprus (commercial banks and international banking units) and from the Audit Service of cooperative credit societies (cooperative institutions and credit societies).

The data on insurance companies is mainly compiled on the basis of administrative data obtained from the Insurance Companies' Control Service.

The data on the activities auxiliary to financial intermediation is compiled on the basis of survey data collected through questionnaires (Cyprus Stock Exchange, Cyprus Securities and Exchange Commission, Stockbrokers).

CLASSIFICATION USED

The NACE Rev. 1.1 classification system is used in all the above activities.

DEFINITION OF TERMS USED

Enterprise refers to an economic unit engaging in one or more kinds of trade activity and which may consist of more than one trade establishments located at various sites.

Persons engaged is the yearly average number of all employees at an enterprise and includes working proprietors, unpaid family workers, and paid employees.

Gross Output in the case of:

- (a) financial intermediation except insurance and pension funding is defined as the sum of Imputed Bank Service Charge (FISIM) and the Actual Service Charge (commissions received and other receipts)
- (b) insurance companies, is defined for life insurance as the Net Premiums Received minus Claims Paid and Surrenders, minus Increase in Insurance Fund, minus Property Income. For non life insurance, is defined as the Net Premiums Received minus Claims Paid.

(c) activities auxiliary to financial intermediation is defined as:

- for stockbrokers is the total amount received from services rendered (revenue from portfolio management, brokerage fees, etc)
- for Cyprus Stock Exchange and the Cyprus Securities and Exchange Commission is the amount collected from fees charged plus any membership subscriptions.

Value Added at market prices is taken as the gross output less intermediate consumption (direct, administrative and other expenses).

Labour Costs consist of wages and salaries of persons engaged and the employers' contributions to various funds.

Wages and Salaries include normal wages and salaries, 13th and 14th salaries, overtime earnings, bonuses, value of payments in kind, cost of living allowances etc. The payments are given gross, i.e. before any deductions have been made for income tax, social insurance and for various funds. Imputed wages for unpaid family workers, working proprietors and partners are also included.

Employers' contribution to various funds include social insurance, provident and pension funds, medical and other funds.

Gross fixed capital formation refers to total value of fixed assets excluding land and existing buildings purchased, less the value of sales of fixed assets. The cost of any assets produced for own use and of any major additions and alterations to existing fixed assets are included. Fixed assets acquired from others were valued at the full cost incurred i.e. at the delivery price plus installation costs.

I. TRANSPORT, TOURISM, TRADE, OTHER SERVICES
I.4. Other Services
I.4.4. Insurance and Registration of companies

SCOPE

This section presents data on the local insurance sector and on registration of local and foreign business companies.

The data on the local insurance sector presented cover the fund, income and expenditure of the different types of insurance activity such as accident and health, motor vehicle, fire, marine, aviation and transport, general liability, credit and miscellaneous insurance.

The data on registration of local and foreign companies cover among others the number of companies on the register, registrations and name applications of new companies.

COVERAGE

The data is presented for the period 1995 onwards and refers to the Government controlled area only.

SOURCE OF DATA

The data presented on the insurance sector is extracted from the “Report on Insurance in Cyprus”, published by the Insurance Companies’ Control Service. The data has been primarily obtained from the returns submitted for supervisory purposes by the insurance undertakings to the Insurance Companies Control Service, in accordance with the Insurance Services and Other Related Issues Laws of 2002-2008 and the accompanying Regulations of 2002-2004.

The data on registration of companies cover the period since 1995 and were obtained from the Department of the Official Receiver and Registrar of the Ministry of Commerce, Industry and Tourism.

CLASSIFICATION SYSTEM USED

The data on insurance sector is classified and defined according to Insurance Services and Other Related Issues Laws of 2002-2008 and the accompanying Regulations of 2002-2004. The format of the returns has changed since 2003, due to the harmonization of the Cyprus insurance legislation with the European Union legislation.

OTHER RELEVANT PUBLICATIONS AND SOURCES OF INFORMATION

For additional information on insurance sector statistics, reference may be made to the web page of Ministry of Finance (www.mof.gov.cy), under the Directorate “Insurance Companies Control Service” and the “Report on Insurance in Cyprus”.

The annual report of the Department of the Official Receiver and Registrar provides details on the registrations of companies, partnerships and business names.

J. SCIENCE AND TECHNOLOGY

J.1. Research and Development

SCOPE

This section provides data on scientific research and experimental development (R & D) pertaining to the personnel engaged in, expenditures devoted to and sources of funding of R & D activities.

COVERAGE

The data presented in this section refer to scientific research and experimental development for all economic activities in the Government controlled area only.

The data have been compiled in accordance with the definitions, concepts and methodology of the “Frascati Manual”, developed by the Organisation for Economic Co-operation and Development (OECD). It forms the proposed standard practice for surveys of R & D and is also used by the Statistical Office of the European Union (Eurostat). The “Frascati Manual” defines scientific research and experimental development as creative work undertaken on a systematic basis in order to increase the stock of knowledge of man, culture and society and the use of this stock of knowledge to devise new applications. R & D is distinguished from a wide range of related activities with a scientific and technological base. These related activities may be closely linked to R & D in terms of operations, institutions and personnel, but they do not form R & D as long as they are lacking an appreciable element of novelty.

Three types of R & D activity can be identified:

Basic research: experimental or theoretical work undertaken primarily to acquire new knowledge of the underlying foundation of phenomena and observable facts, without any particular application or use in view.

Applied research: original investigation undertaken in order to acquire new knowledge. It is, however, directed primarily towards a specific practical aim or objective.

Experimental development: systematic work, drawing on existing knowledge gained from research and practical experience, that is directed towards producing new materials, products or devices, installing new processes, systems and services or improving substantially those already produced or installed.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The data have been compiled from the findings of the surveys of research and development, carried out in 1992 (covering the years 1991 and 1992) and on an annual basis as from 1998 onwards.

CLASSIFICATION SYSTEM USED

Economic units engaging in R & D activities have been classified in one of the four institutional sectors (government, business enterprise, higher education and private non-profit) on the basis of the recommendations of the “Frascati Manual”.

Business enterprises were classified according to their major kind of economic activity, on the basis of their principal category of goods/services produced/offered. The Statistical Classification of Economic Activities NACE Rev. 2, developed by Eurostat, has been used.

DEFINITIONS OF TERMS USED

R & D expenditure comprises all expenditures (current and capital) performed within a statistical unit or sector of the economy, whatever the source of funds. Expenditures made outside the statistical unit or sector but in support of R & D are also included.

R & D personnel comprises all persons employed directly on R & D, as well as those providing direct services such as R & D managers, administrators and clerical staff. R & D personnel can be distinguished into three categories: researchers, technicians and other supporting staff.

Researcher is the professional engaged in the conception and the creation of new knowledge, products, processes, methods and systems and in the management of the projects concerned.

Technician is the person who participates in R & D by performing scientific and technical tasks, normally under the supervision of researchers, e.g. computer programmer, laboratory assistant, designer, etc.

Other supporting staff includes the persons who participate in R & D projects by performing various tasks indispensable for their completion, e.g. secretarial and clerical staff, labourers, administrators, etc.

Full-time Equivalent (F.T.E.) expresses the total time devoted to research by a person during one year. One F.T.E. may be thought of as one person-year which corresponds to one person working full-time on R & D during one year.

OTHER RELEVANT PUBLICATIONS & SOURCES OF INFORMATION

Further information can be found in the report “Research and Development Statistics” of the Statistical Service, issued for the years 1991-1992 and annually as from 1998 onwards.

J. SCIENCE AND TECHNOLOGY

J.2. Innovation

SCOPE

This section provides data on the introduction to the market or within an enterprise of new or significantly improved products and processes and other related activities such as organisational and marketing innovation, as well as on the objectives and benefits of such activities on enterprises.

COVERAGE

The data presented in this section cover enterprises with 10 or more employees only, active in one of the following branches of economic activity (in brackets, the NACE Rev. 1.1 or Rev. 2 codes):

For the period 2006 – 2008 (NACE Rev. 2 code)

Industry

- Mining and quarrying (section B)
- Manufacturing (section C)
- Electricity, gas, steam and air conditioning supply (section D)
- Water supply, sewerage, waste management services and remediation activities (section E)

Services

- Wholesale trade, except of motor vehicles and motorcycles (division 46)
- Transport and storage (section H)
- Publishing activities (division 58)
- Telecommunications (division 61)
- Computer programming, consultancy and related activities (division 62)
- Information service activities (division 63)
- Financial and insurance activities (section K)
- Architectural and engineering activities; technical testing and analysis (division 71)

For the period 2004 – 2006 (NACE Rev. 1.1 code)

Industry

- Mining and quarrying (section C)
- Manufacturing (section D)
- Electricity, gas and water supply (section E)

Services

- Wholesale trade and commission trade, except of motor vehicles and motorcycles (division 51)
- Transport, storage and communication (section I)
- Financial intermediation (section J)
- Computer and related activities (division 72)
- Research and development (division 73)
- Architectural and engineering activities (group 74.2)
- Technical testing and analysis (group 74.3)

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The data presented have been compiled from the findings of the last two rounds of Innovation Surveys carried out in Cyprus, which referred to the three-year periods 2004–2006 and 2006–2008 respectively.

The surveys were fully harmonised with the methodological guidelines set out by the Statistical Office of the European Communities (Eurostat), on the basis of the core questionnaire adopted by all EU Member States within the context of the Community Innovation Surveys. To enable international comparisons, the definitions and concepts of the Oslo Manual, developed by the Organisation for Economic Co-operation and Development (OECD), were used.

DEFINITIONS OF TERMS USED

There are 5 **types of innovation** activities which create 2 innovation categories:

Technological product and process innovation (PP)

- Product innovation
- Process innovation
- Ongoing and/or abandoned innovation activities

Non-technological product and process innovation (NPP)

- Organisational innovation
- Marketing innovation

The surveys focussed mainly on the first category of innovation activities.

Technological innovation is a new or significantly improved product (good or service) introduced to the market or the introduction within an enterprise of a new or significantly improved process. Innovations are based on the results of new technological developments, new combinations of existing technology or the utilisation of other knowledge acquired by the enterprise.

Innovations may be developed by the innovating enterprise or by another enterprise; however, purely selling innovations wholly produced and developed by other enterprises are not included as an innovation activity.

Innovations should be new to the enterprise concerned; for product innovations they do not necessarily have to be new to the market and for process innovations the enterprise does not necessarily have to be the first to have introduced the process.

Product innovation is the market introduction of a new or significantly improved good or service with respect to its fundamental characteristics and capabilities, technical specifications, incorporated software or other immaterial components, intended uses, or user friendliness. Changes of a solely aesthetic nature are not included.

Process innovation is the implementation of a new or significantly improved production process, method of supplying and distribution, or support activity for the goods or services. The outcome (of the process) should be significant with respect to the level of output, quality of products or costs of production and distribution. Purely organisational or managerial changes are not included.

The **ongoing and/or abandoned innovation activities** include the acquisition of machinery, equipment, software, and licenses; engineering and development work, training, marketing and Research and Development activities (R&D) when they are specifically undertaken to develop and/or implement a product or process innovation and for some reasons either they are not completed and continue or either they are abandoned and terminated.

Organisational innovation is the implementation of new or significant changes in firm structure or management methods that are intended to improve the firm's use of knowledge, the quality of goods and services or the efficiency of work flows.

Marketing innovation is the implementation of new or significantly improved designs or sales methods to increase the appeal of goods and services or to enter new markets.

OTHER RELEVANT SOURCES OF INFORMATION

Further information on the results of the four Innovation Surveys carried out in Cyprus (for the periods 2000 – 2002, 2002 – 2004, 2004 – 2006 and 2006 – 2008) can be downloaded free of charge from the website of the Statistical Service, under the statistical theme “Science and Technology”.

INNOVATION CO-OPERATION (cont'd)												
Most valuable co-operation partner for the enterprise's innovation activities was:												
- Other enterprises within the enterprise group	6,57	4,25	12,58	13,04	3,33	3,37	3,85	0,00	10,58	5,51	20,24	23,08
- Suppliers of equipment, materials, components or software	25,04	24,93	25,16	26,09	27,04	24,53	34,62	40,00	22,55	25,51	16,87	15,38
- Clients or customers	11,08	11,05	9,88	17,39	9,26	9,14	9,62	10,00	13,34	13,79	10,12	23,08
- Competitors or other enterprises in the same sector	3,28	3,97	1,80	0,00	1,85	1,92	1,92	0,00	5,06	6,89	1,69	0,00
- Consultants, commercial labs or private research and development (R&D) institutes	12,93	10,48	18,87	21,74	14,08	12,02	19,23	30,00	11,50	8,27	18,56	15,38
- Universities or other higher education institutions	0,62	0,28	0,90	4,35	0,74	0,00	1,92	10,00	0,46	0,69	0,00	0,00
- Government or public research institutes	1,44	1,98	0,00	0,00	1,48	1,92	0,00	0,00	1,38	2,07	0,00	0,00
Enterprises with any type of co-operation	68,75	67,64	69,38	82,61	68,14	66,34	71,15	90,00	69,49	69,51	67,83	76,92
FUNDING OF INNOVATION												
Financial support for innovation activities from the following levels of government:												
- Local or regional authorities	7,09	7,20	7,32	4,35	7,59	7,44	7,69	10,00	6,48	6,85	7,00	0,00
- Central government (ministries, departments, services, etc)	39,84	39,95	36,98	52,14	53,12	53,09	55,77	40,00	23,15	20,79	20,50	61,54
- The European Union (EU)	12,42	11,20	9,88	43,48	13,71	11,06	17,31	50,00	10,83	11,40	3,37	38,46
- The EU's Framework Programme for Research and Technological Development (R&D)	3,88	3,37	3,59	13,04	4,63	3,61	5,77	20,00	2,94	3,03	1,69	7,69
Enterprises with any type of funding	45,76	45,84	43,27	56,52	57,07	56,30	61,54	50,00	31,71	30,86	27,24	61,54
PROTECTION OF INNOVATION												
Innovation is protected by methods, such as:												
- Application for a patent	0,62	0,85	0,00	0,00	1,11	1,44	0,00	0,00	0,00	0,00	0,00	0,00
- Registration of an industrial design	1,55	1,58	0,90	4,35	2,80	2,67	1,92	10,00	0,00	0,00	0,00	0,00
- Registration of a trademark	10,46	8,21	11,68	39,13	11,01	9,00	13,46	40,00	9,78	7,07	10,12	38,46
- Claiming of copyright	3,77	4,07	0,90	13,04	3,91	4,12	0,00	20,00	3,59	4,01	1,69	7,69

(cont'd)

TABLE J.2.4b (cont'd). OTHER INDICATORS ON TECHNOLOGICAL PRODUCT AND PROCESS INNOVATION, 2004-2006

NACE Rev. 1.1 Code Economic Activity Sizeclass	C to K (selected)				C to E				G to K (selected) SERVICES			
	TOTAL				INDUSTRY				Total			
	Total	10-49	50-249	250+	Total	10-49	50-249	250+	Total	10-49	50-249	250+
BARRIERS TO INNOVATION Some innovation activities or projects of the enterprises were:												
- Abandoned in the concept stage	12,26	12,11	11,68	17,39	11,32	10,85	11,54	20,00	13,43	13,91	11,81	15,38
- Abandoned after the activity or project was begun	7,74	7,00	8,09	17,39	8,22	7,31	9,62	20,00	7,14	6,56	6,75	15,38
- Seriously delayed	30,23	34,36	19,81	17,39	34,17	37,62	25,00	10,00	25,35	29,68	15,25	23,08
High degree of impact on hampering innovation or influencing a decision not to innovate by factors, such as:												
- Lack of funds within the enterprise or group	18,79	20,55	15,31	8,70	19,22	20,63	17,31	0,00	18,26	20,43	13,56	15,38
- Lack of finance from sources outside the enterprise	19,03	21,44	13,52	8,70	21,40	23,93	15,38	0,00	16,09	17,88	11,88	15,38
- Innovation costs too high	28,54	32,29	18,95	17,39	30,42	33,23	25,00	0,00	26,22	30,95	13,65	30,77
- Lack of qualified personnel	15,19	18,69	6,33	4,35	19,36	22,72	7,69	10,00	10,02	12,92	5,13	0,00
- Lack of information on technology	6,17	7,39	2,70	4,35	7,15	7,84	3,85	10,00	4,96	6,74	1,69	0,00
- Lack of information on markets	2,71	3,18	1,80	0,00	3,06	3,02	3,85	0,00	2,27	3,41	0,00	0,00
- Difficulty in finding co-operation partners for innovation	6,87	7,51	4,49	8,70	7,17	7,87	5,77	0,00	6,51	6,99	3,37	15,38
- Market dominated by established enterprises	7,85	8,27	8,12	0,00	8,65	8,34	11,54	0,00	6,86	8,18	5,13	0,00
- Uncertain demand for innovative good or services	14,11	15,75	10,92	4,35	14,91	15,99	11,54	10,00	13,10	15,39	10,37	0,00
- No need due to prior innovations	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00
- No need because of no demand for innovations	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00	0,00
High degree of impact on hampering innovation or influencing a decision not to innovate by factors, such as:												
- Lack of funds within the enterprise or group	15,41	16,61	7,07	0,00	23,04	23,81	16,67	0,00	9,87	11,01	3,28	0,00
- Lack of finance from sources outside the enterprise	13,27	14,48	4,71	0,00	20,54	21,42	12,50	0,00	7,99	9,08	1,64	0,00
- Innovation costs too high	20,58	22,33	8,25	0,00	29,56	31,39	16,67	0,00	13,76	15,29	4,93	0,00
- Lack of qualified personnel	12,76	14,21	2,36	0,00	18,46	19,85	4,17	0,00	8,63	9,83	1,64	0,00
- Lack of information on technology	3,55	3,89	1,18	0,00	6,51	6,77	4,17	0,00	1,41	1,65	0,00	0,00
- Lack of information on markets	1,05	1,05	1,18	0,00	1,87	1,69	4,17	0,00	0,46	0,54	0,00	0,00
- Difficulty in finding co-operation partners for innovation	3,99	4,23	2,36	0,00	5,57	5,40	8,33	0,00	2,83	3,32	0,00	0,00
- Market dominated by established enterprises	8,18	8,84	3,53	0,00	13,19	13,74	8,33	0,00	4,54	5,04	1,64	0,00
- Uncertain demand for innovative good or services	15,95	17,07	7,07	20,00	22,46	23,18	16,67	0,00	11,22	12,32	3,28	50,00
- No need due to prior innovations	32,19	31,57	35,39	60,00	32,09	30,92	45,83	33,33	32,27	32,07	31,27	100,00
- No need because of no demand for innovations	30,77	30,24	34,34	40,00	30,24	28,90	41,67	66,67	31,16	31,28	31,45	0,00

J. SCIENCE AND TECHNOLOGY

J.3. Information Society

SCOPE

This section provides data on Information and Communication Technologies (ICT) usage by enterprises and by individuals.

COVERAGE

The data presented in this section refer to the Government controlled area of the country. Data on enterprises refer to enterprises with 10 or more employees in the following codes of economic activities (Nace rev. 1.1): D, F, G, H55.1, H55.2, I, K, O92.1 and O92.2. Data on households and individuals refer to households with at least one member aged 16-74 and individuals aged 16-74.

SOURCES OF DATA AND CHRONOLOGY OF SERIES

The data are based on the annual surveys on ICT Usage and on Internet Access. The surveys on ICT Usage are carried out since 2004, whereas the survey on Internet Access since 2003.

DEFINITIONS OF TERMS USED

ISPs: Internet Service Providers.

Dial-up is a temporary connection to the Internet via an analogue (standard) modem and standard telephone line, which requires that the modem dial a phone number when Internet access is needed.

ISDN (Integrated Services Digital Network) is a temporary connection to the Internet using a type of circuit switched telephone network system, designed to allow digital transmission of voice and data over ordinary telephone copper wires, resulting in better quality and higher speeds, than available with analogue systems.

DSL is a high-bandwidth (broadband), local loop technology to carry data at high speeds over traditional (copper) telephone lines.

OTHER RELEVANT PUBLICATIONS & SOURCES OF INFORMATION

Further information can be found in the report "Information Society Statistics" of the Statistical Service.

TABLE J.3.1. INFORMATION AND COMMUNICATION TECHNOLOGIES USAGE, 2002-2009
